Statistical Compendium For the Academic Years Ending in 2011

Fall 2012

Data Availability

The Statistical Compendium is available on the website of the Council on Post-Secondary Education.

Data in This Report

The data in this report have been provided by:

- University of Manitoba
- University of Winnipeg
- Brandon University
- Université de Saint-Boniface (Prior to September 2011, Collège universitaire de Saint-Boniface)
- Red River College
- Assiniboine Community College
- University College of the North (formerly Keewatin Community College)
- Canadian Mennonite University
- Providence University College
- Steinbach Bible College
- Booth University College
- ACCESS Programs
- Campus Manitoba
- Inter-Universities Services

Although the data in this report have not been audited, the objective is to provide a general overview of Manitoba Post-Secondary institutions. And because of the fundamental difference among institutions in academic programs, organization and physical environment, data in this report are subject to interpretation and clarification.

Requests for further institutional data should be directed to the specific university, college or program.

ACKNOWLEDGEMENT

This edition of the Statistical Compendium was prepared in cooperation with representatives of Manitoba's post-secondary institutions and programs. The universities, colleges and private religious institutions provided data from 2000/01 to 2009/10. The other programs provided data at various time frames.

The Council on Post-Secondary Education would specifically like to thank the individuals associated with the following institutions and programs, who gave of their time and assistance, which in turn, made this document possible. These include:

- The University of Manitoba Office of Institutional Analysis and Human Resources
- The University of Winnipeg Institutional Analysis Department and Human Resources
- Brandon University Co-ordinator of Research Services, Computer Services, Enrollment Services and Human Resources
- Université de Saint-Boniface (formerly CUSB) Registrar and Computer Services
- Red River College Research and Planning and Human Resource Services
- Assiniboine Community College Registrar, Computer Services and Health and Human Services
- University College of the North Registrar, Computer Services and Human Resources
- The Canadian Mennonite University Registrar and Computer Services
- Providence University College
- Steinbach Bible College
- Booth University College
- The ACCESS Programs

CHAPTER 1 - UNIVERSITIES

PART 1

TOTAL ENROLLMENT

CHAPTER 1 – UNIVERSITIES

1.0 Background

There are four funded public universities and one university college in Manitoba, each operating under separate legislation and defined as universities under the Council on Post-Secondary Education Act: the University of Manitoba (UM), the University of Winnipeg (UW), Brandon University (BU), University College of the North (UCN) and the Université de Saint-Boniface (USB). In September 2011, Collège universitaire de Saint-Boniface (CUSB) became (USB); as the compendium covers the period prior to this, it will be referred to as CUSB.

The UM is the largest, most comprehensive and only medical-doctoral university in Manitoba. In addition to offering undergraduate and graduate education in arts, science and other fields, UM offers programs in a broad range of professional areas. The UW, BU and CUSB are all primarily undergraduate institutions, which offer undergraduate and a limited number of graduate programs in arts, and education, as well as specialized programs on an institution-by-institution basis. USB offers university programming in French.

University College of the North was established July 1, 2004 replacing Keewatin Community College (KCC). Bachelor of Arts was the first degree program offered at UCN in 2005/06. Since then, degree programming has expanded to include midwifery and education. College-level programming is also offered at UCN. Programming is available at the two main campuses in Thompson and The Pas, as well as through a network of regional centres in smaller communities throughout northern Manitoba.

On some tables, data in this Chapter may differ from the September 2011 edition. Data in this document should be considered correct, as some institutions have revised their data.

1.1 Total Enrollment

1.1.1 Total Enrollment – All Sessions

The “total student enrollment for all sessions” is the sum of all full-time and part-time students at each university in Manitoba. This includes undergraduate and graduate enrollments in both the regular session and spring/summer sessions. Total enrollment is a student headcount, which is the sum of all full-time (FT) and part-time (PT) students.

"Full-time equivalent" enrollment (FTE) is a calculation that equalizes all students to full-time status. This calculation takes the number of part-time students and it divides by 3.5, which, according to Statistics Canada, will give a figure equivalent to the number of students attending university full-time. When this number is added to the number of full-time students, the result is FTE.

Enrollment is a discrete count of students in each session; regular session (full-time or part-time) and/or spring/summer session (full-time or part-time). Therefore a student may be counted twice if enrolled in both sessions in an academic year. Statistics Canada does not report a student twice in one academic year. As a result, data reported in the Compendium may not be completely parallel to Statistics Canada data.

Regular session data are reported by the universities as of November 1 annually, and includes students who have paid tuition fees; fall and/or winter session. Spring and summer data are reported two days following the voluntary withdrawal date of the final summer session term.

The chart below shows the distribution of total student enrollment by university in 2010/11: UM account for just over two-thirds or 67.5% of total university enrollment, UW 21.6%, BU 7.8%, CUSB 2.2% and UCN 0.8%.

Enrollment data includes;

1. Undergraduate and Graduate enrollments: Full time and Part time.
2. Regular and spring/summer sessions
3. Joint Master's program students who have their workload directly associated with the UM.
4. Pre-master's (PMGE), Master's Doctoral, Occasional and Diploma students.
5. Distance Education students (Part time).
6. Enrollment is discrete count of students in each session; e.g. student enrolled in Regular and Spring/summer session in the same year may be counted twice in the above
7. In April 2006, University of Manitoba implemented a new student registration system. The new system has a different conceptual format, i.e. students registration information are separated/recorded on a term by term basis. For the purpose of reporting, Fall term enrollment is used. Full/part-time breakdown unavailable for 2006, therefore all students in spring/summer session counted as part-time.
8. University College of the North (UCN) was established in July 2004 and replacing Keewatin Community College (KCC). 2006/07 data include degree programs in Bachelor of Arts, Midwifery and Joint Bachelor of Nursing. Bachelor of Education began in 2008/09.

1.1.2 Total Enrollment – Regular Session

In general, regular session at universities is from September to April, comprises one full academic year and includes both full and part-time graduate and undergraduate students.

Enrollment data includes:

1. Undergraduate and Graduate enrollments: Full time and Part time.

Source: Manitoba Universities

2. Joint Master's program students who have their workload directly associated with the UM.

3. Pre-master's (PMGE), Master's Doctoral, Occasional and Diploma students.

4. Distance Education students (Part time).

5. University College of the North (UCN) was established in July 2004 and replacing Keewatin Community College (KCC). It began offering Bachelor of Arts in 2005/06 and Kanaci Otinawaw asowin (Aboriginal Midwifery) Baccalaureate Program (KOBP) in 2006/07.

6. In April 2006, University of Manitoba implemented a new student registration system. The new system has a different conceptual format, i.e. students registration information are separated/recorded on a term by term basis. For the purpose of reporting, Fall term enrollment is used. Full/part-time breakdown unavailable for 2006, therefore all students in spring/summer session counted as part-time.

1.1.3 Total Enrollment – Spring/Summer Session

Intersession, spring and summer sessions operate at universities between May and August and include both full and part-time graduate and undergraduate students.

Table 1.1.3 shows that between 2001 and 2010 almost all spring and summer session enrollment at each university was comprised of part-time students. BU, CUSB and UCN did not offer full-time spring and summer session programming. Part-time enrollment continues to dominate spring and summer session.

Note:
 1. University 1 program was introduced in 1998. Most "new" students, with limited or no university experience registered in this program. Faculties/schools that had previously accepted "new" students will show an enrollment drop for 1998.
 2. These students are taking courses at the university level but are not seeking a credential.
 3. These are UM students taking courses at CUSB.

Notes:

1. Students are counted once even if they are enrolled in multiple sessions.
2. University 1 program was introduced in 1998. Most "new" students, with limited or no university experience have registered under this program.
3. Full/part-time breakdown unavailable for 2006, therefore all students in spring/summer session counted as part-time.

- Notes:
1. Age is self-declared and not all students report their age.
 2. Excludes Pre-Master's students, they are included in Graduate Studies.
 3. Full-time based on 60% of the Normal Prescribed credit hour load.
 4. Includes student who are taking all their courses through a distance method of delivery.
 5. Table 1.2.2 is reported at November 1 of each year and UW reports age at the end of April therefore historical part-time totals will be higher than those in Table 1.2.2.
 6. Due to student tracking system constraints, BU cannot completely reconcile its part-time figures to those in Table 1.2.2.

As shown in Table 1.2.5 (a), Students 25 years of age and younger comprised 79.2% of the undergraduate regular session enrollment in 2010/11 this is relatively constant over the last five years. Also note that 43.6% of part-time students are 26 years of age or older.

Undergraduate Enrolment Age Distribution (2001/02 to 2010/11)

1.2.6 Undergraduate Credit Hours

Credit hours are defined as the hours of weight associated with a course, indicating the relative weight of the course in a program of study. Total credit hours are the sum of all credit hours taught by faculty. As the data indicate, credit hours at each institution generally follow the same trend as enrollment.

Notes:

- Undergraduate Student Credit Hours (UGSCH) are the hours of weight associated with a course indicating the relative weight of the course in the program of studies. There is often a correlation between lecture class hours and hours of credit; for example, a full course carrying six (6) hours of credit may entail three (3) hours of lectures per week, both terms. This report includes: (a) distance education credit hours - students taking all of their courses through a distance method of delivery, such as Independent Study, on-line web, video conferencing, computer mediated study, telecourse or community based study; (b) all courses taught off-campus with stipend from other than faculty or school resources;
- The Asper School of Business was formerly reported as the Faculty of Management.
- The increase is due largely to the introduction of a new major in Supply Chain Management.
- The Department of Mechanical and Industrial Engineering changed its name to the Department of Mechanical and Manufacturing Engineering in 2004.
- The Departments of Environmental Science and Geography combined to form the Department of Environment and Geography.
- Previously reported under Medical Rehabilitation.
- The Department of English changed its name to the Department of English, Film, and Theatre in January 2008.
- New in 2009/10.
- Health Program, Interdisciplinary was previously reported within Core Human Ecology.
- The Department of Botany, the Department of Zoology, and the Introductory Biology Program merged into the Department of Biological Sciences in July 2007.

1.2.8 Undergraduate Course Sections

Course section size is defined as the number of three credit hour equivalent sections taught. Table 1.2.8 shows course sections by class size which is equal to enrollment in each course section. Total course sections are the sum of all courses taught.

1.2.9 Undergraduate Enrollment of International Students

Table 1.2.9 shows that in general, undergraduate international student enrollment increased significantly over the ten-year period at all universities. The majority of undergraduate international students that came to Manitoba universities were from Asia, Africa and Europe.

GRADUATE ENROLLMENT

1.3 Graduate Enrollment

1.3.1 Graduate Enrollment – All Sessions

Table 1.3.1 shows that in 2010/11, UM accounted for just over 81.9% (3,981 students) of total graduate enrollment. This is to be expected, given that the other universities are primarily undergraduate institutions.

1.3.3 Graduate Enrollment – Spring/Summer Session

Tables 1.3.2 and 1.3.3 shows that over the ten-year period, regular session graduate enrollment comprised over 82% of the total graduate student enrollment. And the overall graduate spring and summer session enrollment accounted for approximately 6.5% of total spring and summer session enrollment. (All graduate students taking part in spring and summer session are considered part-time.)

Notes: UM

1. The reporting of degrees is based on a calendar year (February, May and October graduands).

2. In September 2001, the Department of Mechanical and Industrial Engineering introduced a new program in Manufacturing Engineering, replacing the Industrial Engineering program. Students enrolled in the Industrial Engineering program prior to this change are permitted to continue their program until graduation.

3. In 2007, the Faculty of Physical Education and Recreation Studies was renamed the Faculty of Kinesiology & Recreation Management.

4. In 2005, the Bachelor of Exercise and Sport Science was renamed the Bachelor of Kinesiology.

5. In 2004, the Bachelor of Recreation Studies was renamed the Bachelor of Recreation Management and Community Development.

6. Occupational Therapy previously an undergraduate program. New Master's of Occupational Therapy program included in graduate figures.

7. The Faculty of Music changed its name to the Marcel A. Desautels Faculty of Music in 2008.

CHAPTER 2 - COLLEGES

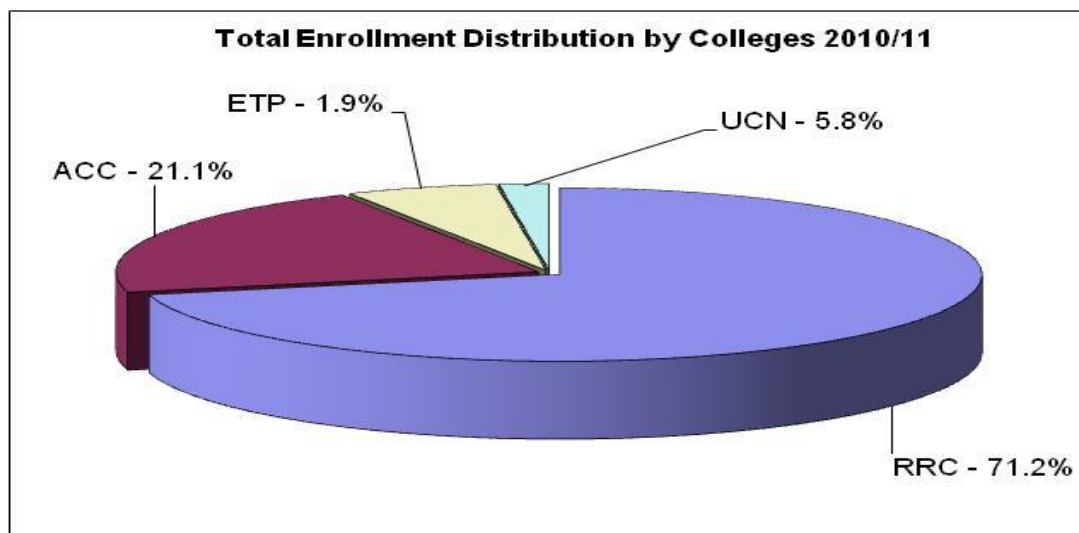

CHAPTER 2 – COLLEGES

2.0 Background

The data in this chapter reports on community college activity for the ten year period between 2001/02 and 2010/11. Established in July 2004, University College of the North (UCN) replaced Keewatin Community College (KCC), offering both university degree programs and college programs in 2005/06 and only college programs data are included in this chapter. The other institutions that are included in this section are Red River College (RRC), Assiniboine Community College (ACC) and École technique et professionnelle (ETP), the community college division of Université de Saint Boniface.

2.1 Enrollment

College enrollment data are collected and reported in conjunction with Statistics Canada reporting methods. Data are reported annually as of August 31.

Notes:

1. Census Date: End of the academic year.
2. Includes students enrolled in regular programs, apprenticeship and studying full time at regional Centres.
3. FTE = (total academic hours+(total Practicum hours/3))/900 academic equivalent hours or 180 training days.
FTE figures are calculated and provided by institutions.
4. Formerly known as the Keewatin Community College (KCC), UCN degree programs are excluded

2.1.2 Enrollment by Gender

In 2010/11, male comprised 55.1% of total enrollment, female at 42.1% and 2.8% are unreported.

Notes:

1. Enrollment is as of program start date.

2. Enrollment by Age is a unique count of students regardless of number of programs enrolled. Therefore figure may be different from Table 2.1.1 (Total enrollment by College).

3. Totals may not add to 100% due to rounding.

4. Totals in table 2.1.3 will not be the same as table 2.1.1 due to UCN unable to separate students in degree or college program by age.

5. Exclude unknown age groups

CHAPTER 3 – UNIVERSITY AND COLLEGE RETENTION

CHAPTER 3: UNIVERSITY AND COLLEGE RETENTION

3.0 Background

This chapter presents data showing retention and graduation rates of full-time students in credit programs at Manitoba's universities and colleges.

Universities and colleges do not have the capacity to track students who leave to attend another post-secondary institution. University data have been adjusted based on surveys to provide an estimate of the number of students transferring to another post-secondary institution. This analysis helps to report the most complete information regarding the success of students in the post-secondary system in Manitoba.

A 'cohort' refers to those students who entered a program in a particular year. For Example: The 2001 cohort refers to those students who entered their program in 2001. Rates are calculated after the end of the first year, fifth year and seventh year of studies after entry into the program. Thus, the 2001 cohort is assessed in 2002 (end of first year), 2006 (end of fifth year), and 2008 (end of seventh year).

3.1 University Retention

Table 3.1a shows graduation and retention rates for students who enter university as full-time students in programs that do not require previous post-secondary studies (“First Entry Programs”).

Notes:

1 Table excludes students switched from a first entry program (e.g. University 1) to a "second entry program" such as medicine.

2. Due to rounding total may not equal to 100%

3. UCN first cohort added to data collection.

4. Universities' graduation and retention data may have been revised to reflect corrections in data received by universities, as well as to account for students changing program, and going from full- to part-time studies and vice versa.

5: Due to student information system change in 2006, University of Manitoba 2006 cohort data is problematic and incomplete. Therefore 2005 cohort is used as an estimate for 2006 cohort year.

Table 3.1b shows graduation and retention rates for students who enter a program that requires previous post-secondary study ("Second Entry Programs").

Notes:

1. Table includes students entering a second program with a degree or transferring in from another program within the same university to a program requiring prerequisite university studies. Students in co-operative education programs are excluded.

2. Due to rounding total may not equal to 100%

3. Due to student information system change in 2006, University of Manitoba 2006 cohort data is problematic and incomplete. Therefore 2005 cohort is used as an estimate for 2006 cohort year.

Table 3.1c shows graduation and retention rates for students in co-operative education programs. Co-operative education programs are tracked differently from First and Second Entry Programs, recognizing the fact that work placements require periods away from formal study, lengthening the duration of the program.

Notes:

1. Only University of Manitoba reports data for co-operative education programs.

2. In recognition that co-operative education programs by definition require students to leave formal study for periods of work-placements. Co-op students are tracked after 1 year, 6 years and 8 years, as opposed to 1.5 and 7 years after program entry for First and Second Entry Programs.

3. Note: due to rounding total may not equal to 100%

4: Due to student information system change in 2006, University of Manitoba 2006 cohort data is problematic and incomplete. Therefore 2005 cohort is used as an estimate for 2006 cohort year.

3.2 Colleges Retention

Table 3.2a shows that 58% of full-time certificate students entering a program in 2007 completed their program within two years. After four years, 62.5% of students had graduated from their certificate program.

CHAPTER 4

UNIVERSITY AND COLLEGE STAFFING

CHAPTER 4 – UNIVERSITY AND COLLEGE STAFFING

4.0 Background

This chapter includes two sections of data and analysis on the universities and colleges for the years 2006/07 to 2010/11. The first section includes data on staffing at the universities and the second section is on staffing at the colleges. Each section provides data on the number of academic faculty and support staff at each institution, as well as rank, gender and salary levels.

4.1 University

4.1.1 All Staff by type (Total Staffing)

“All staff” refers to everyone employed at a university. This includes all administrators, academic faculty, administrative staff, librarians, as well as trades people and janitorial staff. It is the sum of all full-time and part-time staff at each university in Manitoba. Full time term staff works equal or greater than 12 months, while part time term refers to those individuals who work for less than 12 months.

Full-time staff is shown in four categories permanent, term, reduced appointments and geographic. Part time staff is shown in three categories permanent, term and casual. A permanent staff member has a continuing appointment with no fixed end date, while staff members with term appointments work on a contract with a fixed duration. A reduced appointment is a full-time staff member working less than a full staff year with full benefits. This reduced appointment can be voluntary or required at age 69, at some universities. Full-time geographic appointment reported only at the UM, this category includes; medical doctors who, in addition to their academic appointment, have a clinical practice, or casual staff who are generally on contract for short time spans. Staffing numbers are reported as of October 1 each year.

4.1.1 – University All Staff by Type

In 2010/11, Academic staff comprised 44.3% (4,696) of total staff and 55.7% (5,905) is in the Administrative component. Over 55.7% of academic staff is full-time and 44.3% teaches part-time. Administrative staff also has similar distribution, over 50 percent are full-time.

CHAPTER 5

ACCESS PROGRAMS

CHAPTER 5 – ACCESS PROGRAMS

5.0 Background

The ACCESS Programs were developed in the 1970's to maximize access to post-secondary education among under-represented groups that face significant academic, financial, social and personal barriers. Priority groups are those of Aboriginal ancestry, northern residents, people with disabilities, visible minorities, women, single parents, and immigrants and refugees. Integral to ACCESS Programs are the academic and personal supports provided to students to complete their program successfully.

Data provided in this Chapter may differ from the Fall 2011 edition. Data in this document should be considered correct, as some of the institutions have revised their data. Where this has occurred, "Revised" will be noted.

5.1 ACCESS Programs by Institution

Institution	ACCESS Program
Brandon University	<ul style="list-style-type: none"> • Brandon University Northern Teacher Education Program (BUNTEP) An off-campus community based Bachelor of Education program for students in northern and rural Manitoba. The last cohort of BUNTEP will have finished as of Spring 2012.
University of Manitoba	<ul style="list-style-type: none"> • University of Manitoba ACCESS Program (UMAP) A program providing access to educational opportunities on-campus at the UM for northern and rural students • Health Careers ACCESS Program (HCAP) In 2006, Nursing ACCESS Program (NAP) and Special Pre-Medical Studies Program (SPSP) were merged under a new name. HCAP includes students in the faculties of Medicine, Dentistry, Dental Hygiene, Pharmacy, Medical Rehabilitation (Physical and Respiratory Therapy) and Nursing • Professional Health Program (PHP) A program providing support to students in the faculties of Medicine, Dentistry, Pharmacy, and Medical Rehabilitation for those who have gained admission to these faculties • Aboriginal Nursing Cohort Program (ANCP) Established in 2008, this program provides capacity for up to 16 students to pursue a cohort-based nursing program in Faculty of Nursing. Notes:

1. New Intake - Number of new students accepted in Year 1 of the Program

2. Enrolment - Active students continuing in program, regardless of the entrance year to program.

3. BUNTEP - Program to be transferred to UCN by 2012/13 academic year. No new intake since 2007/08.

4. Graduates - Number of students graduate in that year, regardless of the entrance year to program.

5. CATEP - new program introduced in 2005/06.

6. The previous Nursing Access Program (NAP), the Pre-Nursing Access Program, and the Special Pre-Medical Studies Program (SPMP) were merged under the new Health Careers Access Program (HCAP) in 2006. HCAP includes students in the faculties of Medicine, Dentistry, Dental Hygiene, Pharmacy, Medical Rehabilitation (Physical and Respiratory Therapy) and Nursing. Pre-HCAP students are students who have expressed an interest in Nursing, however, they have not yet gained admission to the faculty.

7. HEAP and PHC were merged under a new Health Transition Certificate program (HTCP) in September 2009.

5.3 Student Demographics

Table 5.3 has been modified to illustrate demographic profile of new intake of students enrolled in ACCESS programs between 2006 and 2010. In 2010, Aboriginal students comprised an average of 71.8% of the total students by demographic group. Aboriginal female distribution increased to 81.9% from 75.8% in 2010.

Financial assistance is limited to a specific number of seats annually and is provided to eligible students through federal loans and provincial bursaries. In 2010, 65.9% of ACCESS students have received financial support from various organizations and 34.1% are students are self supporting or by other means.

5.4 Graduate Employment Outcomes

ACCESS program graduates are surveyed annually to determine their employment outcomes. As table 5.4 shows, in 2010 (65%) ACCESS graduates either found employment or were continuing their education and 30% are of unknown employment status. Data also show that in 2010, 70.5% of employed graduates found work related to their field of study.

CHAPTER 6

OTHER FUNDED PROGRAMS AND INSTITUTIONS

6.1 Campus Manitoba

6.1.1 Background

Campus Manitoba (CMB) is a consortium of Manitoba's publicly funded universities and colleges. Funded by Council on Post-Secondary Education, CMB coordinates the registration of students and the delivery of certificate, diploma and degree courses/programs offered by the participating universities and colleges. CMB courses are delivered by means of a variety of learning technologies and web based platforms directly to the student or to a CMB Centre. CMB provides alternate options and increased flexibility to students living in rural, urban centres and northern Manitoba.

CMB began as the First Year by Distance Education (FYDE) pilot project in September 1990. FYDE provided full-time first year university study in Arts and Science by distance education in the four northern and remote centres of Dauphin, Thompson, The Pas, and Flin Flon. In 1998, the mandate of the FYDE program was expanded, and the program was officially renamed Campus Manitoba to reflect the wide ranging courses offered by Brandon University, University of Manitoba, and University of Winnipeg at the undergraduate level. In 2006-07, the three universities collectively offered 57 distinct courses through Campus Manitoba.

Includes University and College registrations.

6.2 Inter- Universities Services

6.2.1 Background

Inter-Universities Services (IUS) is a consortium of UM, UW, and BU that was established in 1971/72 to deliver undergraduate courses and related student support services in communities north of the 53rd parallel. Students who register through IUS may transfer courses, grades and credits between the three universities. All courses satisfy the residency requirements for degrees at each university.

IUS is administered by UCN. IUS offers courses primarily in arts, social sciences, history, native studies and business administration. IUS also provides electives to support other university programming in the north.

The On-Site programs offered by IUS provide both full and part time study opportunities by instructors who travel to the northern communities. Credit courses are offered in response to identified needs, subject to budget limitations.

6.3 Private Religious Institutions

6.3.1 Background

There are four private religious degree-granting institutions that receive a portion of their funding from the Council on Post-Secondary Education. This funding is to support enrollment in non-theological, non-denominational courses. The private religious institutions are the Canadian Mennonite University (CMU), Providence University College (PUC), Booth University College (BUC), and Steinbach Bible College (SBC). Five years of enrollment and graduation data from the private religious institutions are available: 2006/07 and 2010/11.

CHAPTER 7 – TUITION FEES

CHAPTER 7 – TUITION FEES

7.0 Background

The information presented on tuition fees was obtained from a variety of sources. In 2007, Statistics Canada made change to the annual *Tuition and Living Accommodations Survey*. The Classification of Instructional Programs (CIP) coding was adopted to be used for all postsecondary surveys and Census of population. This allows the use of more recent and more accurate university enrolment data, which are also based on CIP, for the calculation of weighted tuition fees.

However, in some cases (e.g., medicine, education and a few others), the classification remained consistent. For these disciplines, only 2 factors affect the comparability of weighted averages to previous year: the number of institutions that provided tuition data and the more recent enrolments counts used in the calculations. In other cases (e.g., arts and sciences), the category no longer exists and the tuition for programs under that category may now appear under two or three different categories. It is not possible to map the tuition provided in the new categories to the categories used in preceding years. This data are found in Tables 7.2.1. Additional tuition fee information is found in Tables 7.1.1, 7.1.2 and 7.3.1 and was provided by the institutions annually.

Statistics Canada weighted tuition fees using historic enrollment data. Table 7.2.1 Weighting tuition fees provide an accurate and reliable indicator of the amount paid by the majority of undergraduate students are paying when seeking historical comparison. A weighted average considers the proportion of students in each field of study, allowing for a consistent view of fees over time. It is noted that weighting at the provincial and institutional levels is different. Institutional data cannot be averaged to equal the provincial data.

Community colleges provided the data directly to the Council on Post-Secondary Education, as Statistics Canada no longer collects this data.

7.1 Manitoba Universities and Colleges

In 2000/01, the Government reduced tuition fees by 10% and kept fees at that level until 2008/09. The 10% reduction applied to all full and part time students in for-credit programs leading to a graduate or undergraduate degree.

In 2010/11, tuition was allowed to increase by 5% for universities.

Notes:

1. Table figures does not equal to Table 7.2.1 due to difference in weighted average formula.
2. Includes data only for arts and science faculties (based on 30 credit hours) and excludes professional faculties or schools.
3. Tuition freeze removed in academic year 2009/10.

7.1.2 Colleges

The provincial policy for the 10% fee reduction from 2000/01 to 2008/09 was applied to students in for-credit Council funded programs leading to a certificate or diploma.

College tuition was allowed to increase by \$150 in 2010/11 academic year.

Notes:

1. Using the most current enrollment data available, average tuition fees have been weighted by the number of students. Statistics Canada believes a weighted tuition fee provides an accurate and reliable indicator of the majority of undergraduate students are paying when seeking historical comparison. A weighted average considers the proportion of students in each field of study. This allows a consistent

2. BC tuition average includes both public and private institutions.

3. Fees for in and out of province students are included in this calculation. Quebec began charging non-Quebecois Canadians residents a differential fee in 1997/98.

4. Tuition freeze removed in academic year 2009/10.

7.2.2 College Tuition

Manitoba has had the third lowest average college tuition fees in Canada at \$1,543. Quebec has the lowest tuition in Canada.

Notes:

1. Data includes basic college tuition costs. It excludes other fees such as student fees, endowment fees, health plans or technical, lab fees.

2. The Province of Quebec does not charge tuition fee at colleges (CEGEP).

3. Saskatchewan re-stated tuition fees for all years up to reflect average tuition for a 30 week certificate or diploma program.

4. Tuition freeze removed in academic year 2009/10.

7.3 Private Religious Institutions

As part of the funding arrangement with the Government of Manitoba, private religious institutions are expected to charge tuition for academic programs at a rate that is not less than tuition fee rates at public post-secondary institutions in Manitoba offering comparable courses.
