Fair Play – Fair Pay

	TRUE	FALSE
In today's workplace, men and women receive equal pay for equal work.		
Equal numbers of men and women are found in all occupations.		
In two-income families, both husband and wife earn equal incomes.		
Women are starting businesses at three times the rate of men.		
Household work in Canada is valued at \$285 million annually.		
Sexual harassment in the workplace only applies to women.		
Women working full-time earn, on average, 72 cents for every dollar men earn.		
Between 1981 and 1994, the number of self-employed women in Canada increased by 97.8%.		
Most single-parent families are headed by men.		
Employment equity means that men and women are considered equally for jobs.		

## Gender Equity: Facts and Figures

### WOMEN AND EDUCATION

### WOMEN AT WORK

*In 1991, 71% of women were employed in just five occupational groups:*

### *Families with Dependents – Conflicting Responsibilities*

"I can't take on those extra work projects."	F 16% M 12%
"I can't accept that job or promotion or transfer."	F 12% M 8%
"I can't make it to the business meeting."	F 14% M 9%

*Women are starting small businesses at three times the rate of men, and are more successful.*

*Women working full time earn on average \$0.72 for every \$1.00 men earn.*

Husbands earned more than wives in 75.4% of all dual earner families. In 2% of families, earnings of both spouses were the same.
