## AEROBICS (DANCE, STEP)

Aerobics is a form of exercise, typically performed to music, often in a group setting with a leader.

Risk Factor Rating

2

### General Learning Outcome

The student will demonstrate safe and responsible behaviours to manage risks and prevent injuries in physical activity participation and for daily living.

### Risk Management Strategies

Safety information and recommendations contained in this safety checklist are believed to reflect best practice to reduce risk. The suggested risk management strategies are considered minimum standards for physical activity in an organized or formal setting. They may not apply to all situations (e.g., home-based, recreational, or modified activities), and more stringent safety standards may be applied by instructors/coaches/program leaders of OUT-of-class physical activities in organized programs..

### Instruction

**Note:** The amount and level of instruction/directions required by the student may vary based on circumstances such as the student's personal experience, skill level, and physical condition. The use of media resources, such as books and instructional videos, may replace direct instruction if deemed appropriate and safe.

Instruction is received from an instructor certified by the Manitoba Fitness Council or from an experienced instructor capable of demonstrating competencies of a certified instructor, as is appropriate depending on various factors such as level of risk, intensity, accessibility, experience, and skill

All sessions are conducted in a safe environment, with students aware of potential risks of aerobic activities with specific reference to certain exercises that might constitute part of the program

Safety rules and procedures are learned prior to participation

Skills/movements are learned in proper progression

Each session is conducted with an appropriate warm-up and cool-down

Drinking water is available and consumed as needed

Program adheres to basic fitness and training principles

### Supervision

**Note:** The level of supervision is provided as is appropriate, depending on various factors, such as level of risk, intensity, accessibility, experience, and skill.

Recommended level of supervision: **on-site supervision** during initial instruction

Safety rules and procedures are enforced

Emergency action plan is in place to deal with accidents/injuries
