## **CD-ROM for Senior 4 APPLIED MATH 40S Shareware Resources**

Dear student,

Welcome to the Senior 4 Applied Math 40S course. This course utilizes four computer programs at different points throughout the course. All of these programs have been provided on the included CD-ROM and may be uploaded to your computer from this disc. These programs are

- Winmat
- Winstats
- Curve Expert
- Euklid

In order to use Winmat and Winstats, you should copy each of the folders to your C drive. Each time you want to run one of these programs, you will need to open the required folder and double-click on the .exe file.

In order to install Euklid you will need to run the euklid.exe file found on the CD-ROM. This file will install the Euklid program on your computer.

In order to install Curve Expert you will need to run the setup.exe file found on the CD-ROM. This file will install the Curve Expert program on your computer.

Good luck with your studies.
