19. Northern Lights	4,617	211,342,050	22.03, 51.39, 39.70, 20.16
20. Frontier	5,302	60,841,310	<sup>5</sup> NA
21. Francophone	<sup>6</sup> 4,268	-	NA
<b>TOTALS</b>	<b>196,195</b>	<b>19,294,425,830</b>	

Figure 42

Following the maps of existing and recommended school divisions which appear on the next 8 pages, comprehensive information can be found detailing the make up of each new division, the old and new mill rates for each component, and the tax effect translated to residential property value.

<sup>1</sup> This column details the September, 1993 opening enrollments rearranged into the recommended divisional format. (Verified 1994 statistics were not available at time of publication.)

<sup>2</sup> Students from the Falcon Beach area have been included in the enrollment figure but assessment is not included in the portioned assessment listing because it is part of Whiteshell Provincial Park and has not been assessed.

<sup>3</sup> Students from the Shilo area have been included in the enrollment figure but assessment is not included in the portioned assessment listing due to the fact it is only now being assessed.

<sup>4</sup> Students from the Pinawa area have been included in the enrollment figure but assessment is not included in the portioned assessment listing due to its special financial arrangements.

<sup>5</sup> Frontier mill rate will have to be decided later based on its approved budget and revised assessment.

<sup>6</sup> Francophone students are included in their home based division and are thus not counted twice in the total.
