COMMENTS

Safety Standards (MPI)

- Good information presented (3)
- "Don't put buses out of service."

Biodiesel & Proper Use of Additives (Western Turbo)

- Good information presented (3)
- "Outlaw bio-diesel fuel."

Diagnostic & Maintenance Procedures (Cummins Engines)

- Presentation too focused on sales (1)
- Need for more Cummins engine information (1)

Importance of Proper Maintenance (PTU)

- Good presentation (2)
- Very informative regarding procedures (1)

Special Tool Requirements/Various Topics (International)

- Good presentation (1)
- No new information presented (1)

Diagnostic Tools & Emission Controls (Thomas)

- Good presentation/information (4)
- Not as much information presented/offered as had been hoped (1)

Open Forums

- "Informative as always."
- More information obtained in second day open forums than first day (1)

General Comments

- Generally good seminar/good information (4)
- Would like more school bus manufacturers at seminar (1)
- Would like information on tires presented (1)
- Presenters must stay away from the "sales pitch" (1)
- Open forums present information on real problems that occur every day (1)
- Would have liked more information from MPI on safety issues being experienced (1)
- Would have liked more dialogue/information from presenters pertaining to questions posed (1)
