The LwICT Model

Literacy with ICT

Health and Safety

- Reflect
- Question and Plan
- Gather and Make Sense
- Produce to Show Understanding
- Communicate

Ethics and Responsibilities

The literacy with information and communication technology (LwICT) model is a visual representation of the relationship between the big ideas and guidelines of the *Developmental Continuum for Literacy with ICT Across the Curriculum*.

Big Ideas

The five big ideas form a **continuous learning process** in which students

- question and plan
- gather and make sense
- produce to show understanding
- communicate
- reflect

Guidelines

The health and safety guidelines and the ethics and responsibilities guidelines support the learning process. **Health and safety** form the foundation for learning, and **ethics and responsibilities** are central to and infused throughout the learning process.

Resources supporting *Literacy with ICT Across the Curriculum* are available on the Manitoba Education and Training website at www.edu.gov.mb.ca/k12/tech/lict/.
