How to Use KWL Charts

Step 1

Think about what you already KNOW about your topic. List those facts in the first column.

For example, if your topic is “How I Talk to Others in a New Language,” you may come up with these ideas.

| What I know | What I want to find out | What I have learned |
|--|-------------------------|---------------------|
| <ul style="list-style-type: none">• Can use hand gestures and facial expressions to help the other person understand• Don't be afraid to make mistakes! | | |

Step 2

Think of the kinds of information you WANT to find out. List specific questions in the second column.

| What I know | What I want to find out | What I have learned |
|--|---|---------------------|
| <ul style="list-style-type: none">• Can use hand gestures and facial expressions to help the other person understand• Don't be afraid to make mistakes! | <ul style="list-style-type: none">• What to do if I don't know how to say a word• What to do if I don't understand what the other person is saying | |

Step 3

LEARN the answers to your questions. List that information, and anything else that you learn about your topic, in the third column.

Microsoft Word allows you to create your own chart electronically using the options in the **Table** menu.
