

Landforms and Vegetation—Key

5.1.2
d

Sort the landform and vegetation types into their natural regions. You may repeat words under each of the regions. Add words to describe the natural landscape of each region. Share your ideas with peers and use an atlas to check your answers.

<p>Landform and Vegetation Types:</p> <ul style="list-style-type: none"> • tundra • coniferous forest • deciduous forest • transition forest (shrubs, low density, mixed forest) • coastal mountains • permafrost • grassland • low elevation • Laurentian Mountains • Cape Breton Island • high elevation • Lake Superior • Rocky Mountains • flat land • Fraser Plateau • Laurentian Plateau • Appalachian Mountains • Queen Charlotte Islands • Mackenzie Mountains • Baffin Island • Anticosti Island • rocky soil • Lake Winnipeg • Lake Michigan 	<p>Western Cordillera</p> <ul style="list-style-type: none"> • coniferous forest • coastal mountains • Queen Charlotte Islands • Fraser Plateau • high elevation • Rocky Mountains 	<p>Prairies</p> <ul style="list-style-type: none"> • grassland • low elevation • flat land • transition forest (shrubs, low density, mixed forest)
