

Guilds vs. Industrial Production

8.5.4
c

Compare and discuss the results of the two teams, the Craftspersons and the Industrial Workers, following your production simulation. Here are some suggested questions.

Which type of production took the longest time?	Which type of production produced the greatest <i>quantity</i> of products?
Which type of production produced the best <i>quality</i> of products?	Which type of production will make the most profits?
Which group's products are the most uniform (identical)?	Which group of workers enjoyed their work more?
Which type of production required greater skill in the workers?
