</table>

#### General Learning Outcome

The student will demonstrate safe and responsible behaviours to manage risks and prevent injuries in physical activity participation and for daily living.

#### Risk Management Strategies

Safety information and recommendations contained in this safety checklist are believed to reflect best practice to reduce risk. The suggested risk management strategies are considered minimum standards for physical activity in an organized or formal setting. They may not apply to all situations (e.g., home-based, recreational, or modified activities), and more stringent safety standards may be applied by instructors/coaches/program leaders of OUT-of-class physical activities in organized programs.

#### Instruction

**Note:** The amount and level of instruction/directions required by the student may vary based on circumstances such as the student’s personal experience, skill level, and physical condition. The use of media resources, such as books and instructional videos, may replace direct instruction if deemed appropriate and safe.

- Instruction is received from a certified National Coaching Certification Program/Athletics Canada coach, or Manitoba Fitness Council certified instructor, physical education teacher, or an experienced coach capable of demonstrating competencies of a certified coach in preparing fitness running programs as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill.
- All sessions are conducted in a safe environment, with students aware of potential risks of jogging.
- Basic safety is learned prior to participation with reference to various terrains (including road safety and buddy system of running).
- Coach monitors weekly training load (distance) increases of athlete.
- Skills/movements are learned in proper progression.
- Length and difficulty of course must be appropriate for age and ability level of runner.
- Each session is conducted with an appropriate warm-up and cool-down.
- Drinking water is available and consumed as needed.

#### Supervision

**Note:** The level of supervision is provided as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill.

- Recommended level of supervision: *in-the-area supervision* for group runs.
- Students are encouraged to train in pairs.
- Safety rules and procedures are enforced.
- Emergency action plan is in place to deal with accidents/injuries.
## Physical Activity Safety Checklists

### Jogging

#### Facility/Environment
- □ Local weather conditions, forecast, humidity, and windchill are checked prior to outdoor session
- □ Route is relatively free of debris and obstructions
- □ Running surface is relatively level and provides suitable footing
- □ Traffic is avoided as permitted
- □ Routes that put runners at personal risk are avoided

#### Equipment
- □ Equipment to be used is suitable and in good condition
- □ Portable media players (such as an MP3 player) are avoided while running as they reduce the runner’s awareness to any potential dangers in his/her surroundings
- □ First aid kit and phone are available

#### Clothing/Footwear
- □ Appropriate footwear is worn
- □ Laces are tied and open-toed shoes are avoided
- □ Jewelry is removed or secured when safety is a concern
- □ Appropriate clothing is worn, permitting unrestricted movement
- □ Suitable clothing and protection is used for weather, sun, and insects

#### Other Considerations
- □ The student has completed a regular medical checkup and a medical history prior to starting the program
- □ The student has submitted the signed Parent Declaration and Consent & Student Declaration Form (student under 18) or Student Declaration Form (student 18 and over) prior to beginning the program
- □ Registration in an accident insurance plan is encouraged
- □ All injuries should be referred to appropriate medical personnel for treatment and rehabilitation
- □ The activity is suitable to the student’s age, ability, mental condition, and physical condition
- □ The student demonstrates self-control at all times and avoids any behaviour deemed inappropriate
- □ The student’s choice of this activity as part of the OUT-of-class component of the physical education/health education course has been presented to the parent/guardian (student under 18 years of age) and to the teacher
