Manitoba Adult Literacy Strategy

Adult Learning Centres
in Manitoba

For you.
For your future.
For your family.

2016

2017

**MINISTER
OF EDUCATION AND TRAINING**

Room 168
Legislative Building
Winnipeg, Manitoba, Canada
R3C 0V8

Her Honour the Honourable Janice Filmon
Lieutenant-Governor of Manitoba
Room 235, Legislative Building
Winnipeg, MB R3C 0V8

Your Honour:

I have the privilege of presenting for the information of Your Honour the Annual Reports of the Manitoba Adult Literacy Strategy and Manitoba's Adult Learning Centres for the program year ending June 30, 2017.

Sincerely,

Original signed by

Ian Wishart
Minister

**Education and Training
Deputy Minister**

Room 162, Legislative Building, Winnipeg, Manitoba, Canada R3C 0V8

Honourable Ian Wishart
Minister of Education and Training
Room 168, Legislative Building
Winnipeg MB R3C 0V8

Dear Minister:

I have the pleasure of presenting the 8th Annual Report for the Manitoba Adult Literacy Strategy and the 14th Annual Report for Adult Learning Centres in Manitoba for the program year ending June 30, 2017.

Manitoba Education and Training is committed to providing educational opportunities for Manitobans from 'cradle to careers'. In 2016/2017, Manitoba continued to invest in adult learning programs as part of the foundation for supporting thriving citizens and families and building vibrant communities and a strong economy.

The Adult Literacy Act (2009) and the Adult Learning Centres Act (2003) require the tabling of annual reports. These annual reports provide a comprehensive overview of adult learning and literacy programming in Manitoba.

For the 2016/2017 program year, 33 agencies provided adult literacy programming at 51 locations and 42 registered adult learning centres provided high school programming for adults at 83 locations across Manitoba. In total, 10,102 adults attended certified adult learning and literacy centres across Manitoba. Of note, in 2016/2017, 550 graduates from adult learning centres, or 46 per cent of all graduates were Indigenous.

The department commends the program staff at Manitoba's adult literacy and learning centres for their contribution and commitment to creating better futures for Manitobans.

Respectfully submitted,

Original signed by

James Wilson
Deputy Minister

Éducation et Formation
Sous-ministre

Bureau 168, Palais législatif, Winnipeg (Manitoba) Canada R3C 0V8

Monsieur Ian Wishart
Ministre de l'Éducation et de la Formation
Palais législatif, bureau 168
Winnipeg (Manitoba) R3C 0V8

Monsieur le Ministre,

Je suis heureux de vous présenter le 8e Rapport annuel de la Stratégie visant l'alphabétisation des adultes du Manitoba et le 14e Rapport des centres d'apprentissage pour adultes au Manitoba pour l'année de programme terminée le 30 juin 2017.

Le ministère de l'Éducation et de la Formation du Manitoba s'est engagé à offrir des possibilités éducatives à la population manitobaine du « berceau aux carrières ». En 2016/2017, le Manitoba a continué d'investir dans les programmes d'apprentissage des adultes pour appuyer les citoyens et les familles prospères et bâtir des collectivités dynamiques et une économie forte.

La Loi sur l'alphabétisation des adultes (2009) et la Loi sur les centres d'apprentissage pour adultes (2003) exigent que les rapports annuels soient présentés au Parlement. Ces rapports annuels fournissent un survol complet des programmes d'apprentissage et d'alphabétisation des adultes au Manitoba.

Pour l'année de programme 2016/2017, 33 organismes ont fourni des programmes d'alphabétisation des adultes dans 51 centres et 42 centres d'apprentissage pour adultes enregistrés ont offert des programmes de niveau secondaire pour adultes dans 83 emplacements à l'échelle du Manitoba. Au total, 10 102 adultes ont fréquenté les centres d'apprentissage et d'alphabétisation pour adultes reconnus à l'échelle du Manitoba. Parmi les faits marquants de 2016/2017, 550 diplômés des centres d'apprentissage pour adultes, soit 46 pour cent des diplômés, étaient des Autochtones.

Le Ministère félicite le personnel du programme des centres d'alphabétisation et d'apprentissage des adultes pour leur contribution et leur engagement à la création d'un avenir meilleur pour les Manitobains.

C'est avec tous mes respects, Monsieur le Ministre, que je vous sou mets le présent rapport.

Le sous-ministre,

Original signed by

James Wilson

Appendix A:	Agencies Funded by the Manitoba Adult Literacy Program.....	19
Appendix B:	Operator(s) of Registered Adult Learning Centres	21

Introduction

Manitoba's adult learning and literacy programs ensure that opportunities are available for Manitobans to strengthen their foundations in education through improved literacy skills and increased high school credentials.

Literacy skills are integral to everything we do at home, in school, at work, and in the community. Increased literacy skills are associated with positive outcomes, such as successful participation in social and economic life, that lead to benefits for individuals, families, communities and the overall economy. Additionally, Manitobans who are equipped with high school credits and diplomas are better able to reach their employment goals or to pursue further education and training.

The Adult Literacy Act (2009) was enacted to address Manitoba's literacy challenge. The Manitoba Adult Literacy Program funds organizations to deliver programs that address the literacy needs of adult Manitobans.

The Adult Learning Centres Act (2003) establishes accountability standards for the registration and operation of adult learning centres in Manitoba. Adult learning centres deliver high school credits and graduation diplomas that are instrumental in preparing Manitobans for post-secondary education and employment opportunities.

This document fulfills the reporting requirements for The Adult Literacy Act and for The Adult Learning Centres Act and includes:

- the eighth annual report of the Manitoba Adult Literacy Strategy, including a summary of the Manitoba Adult Literacy Program, and
- the fourteenth annual report of Adult Learning Centres in Manitoba.

To be able to work with people and learn new ideas has helped me face new challenges and explore different perspectives. Most jobs and college and university programs require a Grade 12 Diploma. Completing the program would allow me to apply my skills in the most effective way in any other program.

Lisa, Assiniboine Community College Adult Collegiate Parkland Campus

Manitoba Adult Literacy Strategy Annual Report 2016/2017

Introduction

In Manitoba, adult literacy refers to the skill base that enables people to participate in, and adapt to, change in the workplace, the home, and community life. It provides a foundation for further learning and includes:

- reading, writing and document use
- numeracy skills
- thinking skills to learn and to solve problems
- oral communication and interpersonal skills

Recently published reports on the results of the Programme for the International Assessment of Adult Competencies (PIAAC) conducted in 2013 provide further analysis of Canadian proficiency in three foundational skills: literacy, numeracy and problem-solving in technology rich environments. The summary reports, including: *The Health and Social Dimensions of Adult Skills in Canada (2018)*, *Skills Proficiency of Immigrants in Canada (2017)*, *Post-secondary Education and Skills in Canada (2016)* are available online at www.piaac.ca and further affirm the link between health and social outcomes and educational attainment:

- Canadians with strong literacy, numeracy and problem solving skills typically report being in better health and being more connected to their communities and society.
- Immigrant and Canadian-born populations with higher educational levels perform better in the three skill domains than those with lower levels of education.
- High scores in literacy, numeracy and problem solving skills together with post-secondary attainment are associated with better employment and social outcomes.
- The gap in skills between Indigenous Canadians (residing off-reserve) and non-Indigenous Canadians narrows and even disappears for Indigenous people with post-secondary credentials.

These results underscore the importance of adult literacy skills as a factor contributing to Manitoba's economic health.

Strong literacy and numeracy skills together with higher educational attainment are essential to participation in employment opportunities and to the ability to adapt to increasingly technological workplaces. Increased literacy skills lead to significant social benefits including self-reported good health, trust and personal empowerment, volunteering, political efficacy, social cohesion, and active citizenship. Higher literacy skills lead to reduced poverty and improved well-being for individuals, families and the community.

Adult Literacy with a Workforce Development/Employment Focus

In 2014, Manitoba announced funding for a pilot full-time literacy program designed to incorporate a comprehensive wrap-around service model for Manitobans who are seeking employment and are in receipt of employment and income assistance. The on-site wrap-around service model includes additional supports for learners, essential skills training, culturally appropriate programming, career exploration and development, job search and transition to further education or employment.

In 2016/2017, 42 adults participated in full-time instruction in literacy, numeracy, computer literacy and career development through this pilot program.

Other Certified Adult Learning and Literacy Centres in Manitoba support the workforce and employment goals of adult learners by offering:

- flexible programming hours, when possible, for employed learners who seek to improve their employment prospects by improving their literacy skills
- adult literacy programming with an essential skills focus that builds workplace related skills in reading, writing, document use, oral communication, numeracy and computer skills
- up to four additional high school credit courses available to high school graduates who aspire to meet prerequisite requirements for post-secondary education or employment
- Grade 9 to 12 course credits in career development and work experience placements
- access to Technology Education credit courses and pre-apprenticeship programs, including the High School Apprenticeship Program
- dual credit courses and school-initiated courses

In partnership with other departments, funding was provided for Career Cruising. This comprehensive, on-line career exploration tool provides learners with access to career interest assessments, in-depth occupational profiles, multimedia informational interviews, comprehensive college and university information, online portfolio development and an annual education plan.

We are here because we all had goals and dreams and we let nothing stop us from reaching them.

Holly, Fieldstone Ventures Education and Training Centres

Adult Literacy with an Indigenous Focus

Adult Learning and Literacy supports the enhancement and development of programming and curricula for adult learning and literacy centres that are culturally, regionally and educationally appropriate for Indigenous adult learners.

Support was provided to Indigenous educators to participate in two professional development opportunities focused specifically on Indigenous themes:

- the Circle of Aboriginal Educators (ACE) 14th Annual Conference
- the Mamatowisiwin professional development series of workshops

Adult Learning and Literacy also supported the Adult Secondary Education Council to organize professional learning conferences for adult educators from across Manitoba with an emphasis on building competencies through Indigenous perspectives.

Participation in adult literacy programs by Indigenous learners has increased from 33 per cent in 2009/2010 to 45 per cent in 2016/2017. In the same period, participation in adult learning centres by Indigenous learners has increased from 40 per cent to 47 per cent. The number of Indigenous learners achieving a high school diploma at adult learning centres has increased by 14 per cent since 2009/2010.

I came back to school because I wanted a career, not just a job. I want my daughter to see how important having an education is, and to know that no matter how old you are it is always possible.

Tawny, Kelsey Learning Centre

Summary of the Manitoba Adult Literacy Program

The Manitoba government provides funding for the delivery of adult literacy programming to eligible agencies through the Manitoba Adult Literacy Program (MALP).

The following table highlights the adult literacy enrollment and program funding information for the 2016/2017 program year (see Appendix A for a list of all MALP funded adult literacy programs in Manitoba).

Number of Learners Enrolled in Adult Literacy Programming	1,991
Number of Agencies Funded	33
Total MALP Operating Grants	\$2,650,855

Of the 33 agencies receiving MALP funding, twelve agencies provided literacy instruction as part of a continuum with adult learning centre programming. One agency provided francophone adult literacy programming at nine locations and two agencies provided programming in four correctional institution settings.

MALP and the Manitoba Stages Framework

In MALP funded programs, adult literacy instruction is based on the Manitoba Stages Framework. Designed for adult learners, the Stages Framework supports instruction for adults with diverse goals including gaining or improving employment, accessing education or training opportunities, and addressing personal literacy needs that support individuals to engage fully in society.

This Framework is aligned with Canada's essential skills and is used in Manitoba as a guide to assess literacy skills, to customize instruction and to measure learning progress.

The Stages Framework is also aligned with Grade 10 English Language Arts. A learner completing a Stage 3 portfolio may apply to an adult learning centre or high school to have their portfolio assessed and be awarded up to two elective high school credits for work completed at the Grade 9 and 10 levels.

Manitoba Stages Framework Examples of reading tasks at different levels

STAGE 1

- Read relatively short texts to locate a single piece of information.
- Follow simple written directions.

STAGE 2

- Read more complex texts to locate a single piece of information or read simpler texts to locate multiple pieces of information.

STAGE 3

- Choose and integrate information from various sources or from several parts of a single text.
- Make low level inferences from multiple sources.

Professional Development for Adult Literacy Instructors

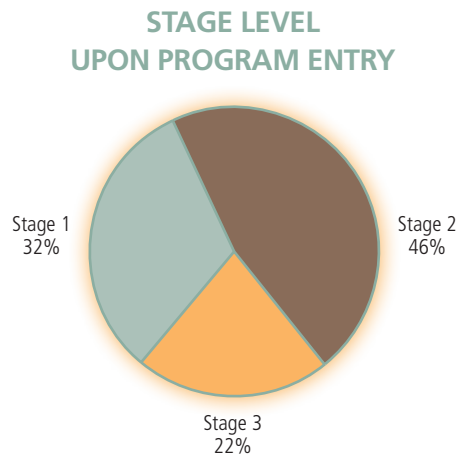

In Manitoba, adult literacy instructors are required to obtain a Level One Certificate in Adult Literacy Instruction. Bursary support to cover the cost of the University of Manitoba course, *Adult Literacy: From Theory to Practice*, is available through the MALP to assist instructors in obtaining this certification.

Remaining components of the Level One Certificate are offered by the Adult Learning and Literacy unit and include training in the Manitoba Stages Framework and in the Manitoba Adult Literacy Learner Assessment (MALLA) process.

Reading Levels of Learners Entering Adult Literacy Programs

The Manitoba Adult Literacy Learner Assessment (MALLA) process provides MALP funded agencies and program staff with recommended literacy assessment tools to determine learners' literacy levels and their progress in adult literacy programming. Common assessment practices that are aligned with the Stages Framework provide a basis for consistent assessment of learners with diverse learning goals and needs, and for reporting of outcomes.

In 2016/2017, reading assessment results for learners conducted at the time of enrollment in adult literacy programming identified that the largest segment of learners (46 per cent) entered programming with Stage 2 reading levels.

Manitoba Recipient of the 2017 Council of the Federation Award

The Council of the Federation Literacy Award celebrates outstanding achievement, innovative practice and excellence in literacy in each of Canada's 13 provinces and territories. In 2017, the award recipient for Manitoba was Christian Haines of Winnipeg, Manitoba.

Christian Haines began attending upgrading classes at the Open Doors Adult Literacy Program in September 2015. Chris identified two goals: to successfully write his GED high school equivalency tests and to enrol in courses in preparation for a career in addictions counselling. As Chris made significant strides in the program, his confidence increased. He not only persisted with attending literacy classes, but also became a peer tutor and enrolled in additional courses to further his literacy skills and personal development. In an effort to assist the community with a growing fentanyl drug problem, Chris shared his story with local media.

Chris earned high scores on the GED exams, obtained his high school equivalency certificate, and enrolled in post-secondary studies. Chris is an inspiration and a role model to others.

Demographic Information for Learners in Adult Literacy Programming

MALP funded agencies report statistical and demographic information to Adult Learning and Literacy each program year. Statistical data is collated by the programs to ensure confidentiality for individual learners and to provide an overview of the adult learner populations that the programs serve.¹

Learners who participated in adult literacy programming in 2016/2017 represented all adult age categories. Learners under the age of 35 accounted for 53 per cent of program participants.

Female learners represented a greater percentage compared to male learners.

AGE OF ADULT LITERACY PROGRAM LEARNERS

GENDER OF ADULT LITERACY PROGRAM LEARNERS

¹ The demographic data in this report is provided by learners voluntarily and on a self-declared basis. An Undeclared option remains available for reporting purposes.

Approximately 46 per cent of learners who enrolled in adult literacy programs did so within 10 years of last attending school. At least 40 per cent of learners had previously attained less than Grade 10 in the public school system.

EDUCATION HISTORY: LAST ATTENDED SCHOOL

EDUCATION HISTORY: LAST GRADE COMPLETED

In 2016/2017, 35 per cent of learners in adult literacy programs self-identified as speakers of English as an additional language while 16 per cent of learners self-identified as recent immigrants.

ADULT LITERACY PROGRAM LEARNERS: ENGLISH AS AN ADDITIONAL LANGUAGE

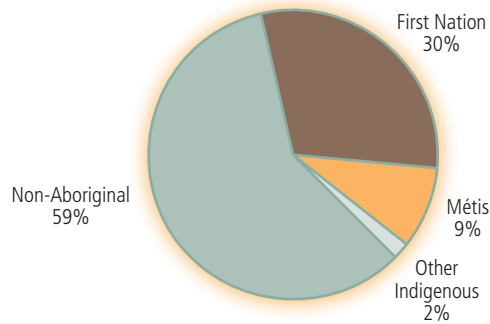

ADULT LITERACY PROGRAM LEARNERS: RECENT IMMIGRANT (5 YEARS OR LESS)

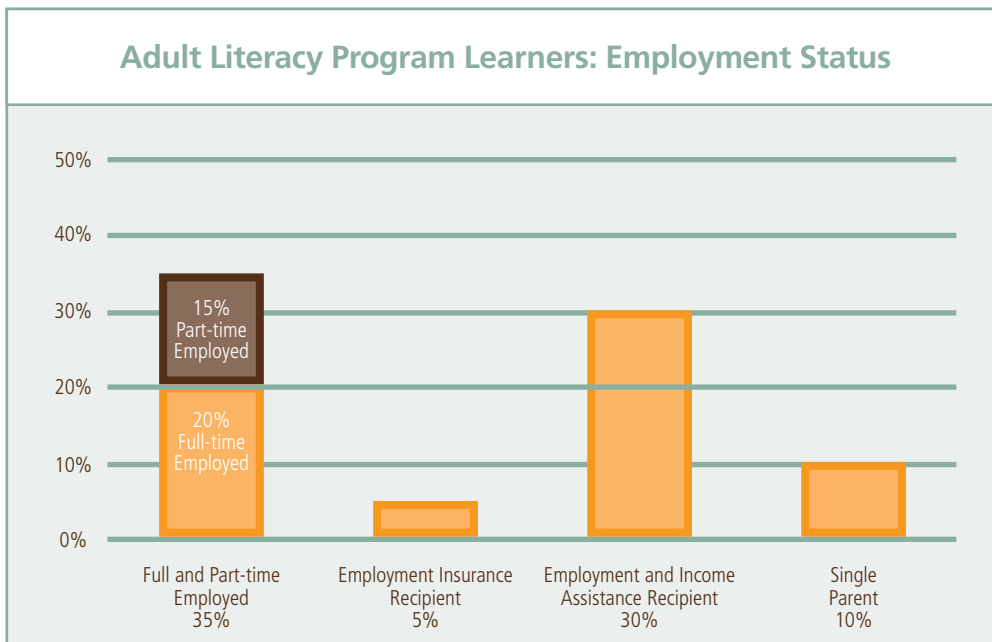

Slightly over 41 per cent of adult literacy learners self-identified as Indigenous in 2016/2017.

ADULT LITERACY PROGRAM LEARNERS: INDIGENOUS STATUS

Single parents with children under the age of six constituted 10 per cent of the learners in adult literacy programs in 2016/2017. Thirty-five per cent of learners who attended adult literacy programs did so while working full or part-time. Thirty per cent of learners attending adult literacy programs self-declared as recipients of employment and income assistance.

Adult Literacy Program Learners: Employment Status

Adult Learning Centres in Manitoba Annual Report 2016/2017

High school credits and graduation diplomas are instrumental in preparing Manitobans for employment and for access to post-secondary education.

In Manitoba, adult learning centres (ALCs) deliver tuition-free high school credits and upgrading courses, which may lead to a Manitoba high school diploma. Credit courses delivered by registered ALCs are taught by Manitoba certified teachers and follow *Manitoba Curriculum Frameworks*. Graduation requirements for both the Provincial High School Diploma and the Mature Student High School Diploma are the same as in the high school system.

Adult learning centres in Manitoba reported the following information for the 2016/2017 program year:

Number of learners registered at ALCs	8,111
Number of courses completed for credit	10,636
Total number of ALC graduates	1,207
Number of Indigenous graduates	550

The Adult Learning Centres Act and General Regulation establish registration criteria and accountability standards that must be met by operators of ALCs. Funding for the operation of an ALC may be provided through Adult Learning and Literacy or through other sources. Organizations delivering ALC programming are required to apply to register their programs annually.

In 2016/2017, ALC programming was delivered by 42 agencies at 83 locations across Manitoba (see Appendix B for a complete list of programs). Of these, twelve agencies also received funding under the Manitoba Adult Literacy Program (MALP) to include literacy-level instruction for those learners needing to upgrade their skills prior to enrolling in high school courses. One organization delivered francophone ALC programming and one delivered programming in a correctional setting.

Total number of registered ALCs	42
Number of registered ALCs funded by Adult Learning and Literacy	39
Number of registered ALCs funded entirely by other sources	3
Total ALC operating grants	\$17,549,952

While high school graduation is a goal for many adults, others attend ALCs to obtain specific credits to pursue employment or to meet entrance requirements for training or post-secondary education.

In Manitoba, high school graduates may enroll, tuition-free, in up to four additional credit courses at adult learning centres. In 2016/2017, 2,654 adults who have already earned a high school diploma registered in 3,749 courses at ALCs for the purpose of completing credits to pursue post-secondary education, training or employment opportunities.

ALCs also provide options such as school-initiated courses (SICs), dual credit courses, High School Apprenticeship Program, and recognition of prior learning (RPL) to help adult learners achieve their education and training goals.

Dual Credits

Dual credits at ALCs are courses delivered by recognized post-secondary institutions that have been registered and approved for high school credit. A learner who successfully completes a registered dual credit course receives both a post-secondary credit and a high school credit.

In 2016/2017, ALCs partnered with three post-secondary institutions in Manitoba to register 107 dual credit courses. Examples of post-secondary courses approved for dual credit include Water Resource Management offered by Assiniboine Community College and Safety in Health Care offered by Red River College.

*I am ready for college now and
feel confident I will succeed.*

**Derek, Assiniboine Community College
Adult Collegiate Parkland Campus**

Recognition of Prior Learning in Adult Learning Centres for 2016/2017

Many adults who return to education programming bring with them a wealth of learning gained through work or life experiences. Recognition of Prior Learning (RPL) is the process used to identify, document and assess skills and knowledge previously acquired outside of the formal education system and to apply this learning toward recognized high school course credits. The RPL process ensures that adults returning to school avoid unnecessary duplication of learning and achieve their educational goals efficiently.

Qualified program staff at adult learning centres guide candidates in the requirements leading to credit recognition. Full and partial high school course credits may be awarded through the RPL process.

ALCs reported the following RPL activity for 2016/2017:

Number of learners who received RPL advising	299
Number of full credits awarded through RPL	444
Number of partial credits awarded through RPL	68
Number of graduates with RPL credits	137

Supporting Transitions from Adult Literacy to Adult Learning Centre Programming

The transition of learners from adult literacy to adult learning centre programming is supported where possible through the co-location of programs and by the recognition of high school level achievement previously attained through adult literacy or other adult basic education programming. Up to four elective high school credits may be awarded by ALCs and recognized towards achieving a Mature Student High School Diploma.

Demographic Information for Learners in Adult Learning Centre Programming

Adult learning centres report statistical and demographic information to Adult Learning and Literacy each program year. The demographic data in this report is based on information provided by learners voluntarily and on a self-declared basis². Statistical data is collated by the programs to ensure confidentiality for individual learners and to provide an overview of the adult learner populations served by the programs.

Learners who attended ALCs represented all adult age categories. Learners under the age of 35 accounted for 79 per cent of program participants.

Female learners represented a greater percentage compared to male learners.

AGE OF ADULT LEARNING CENTRE LEARNERS

GENDER OF ADULT LEARNING CENTRE LEARNERS

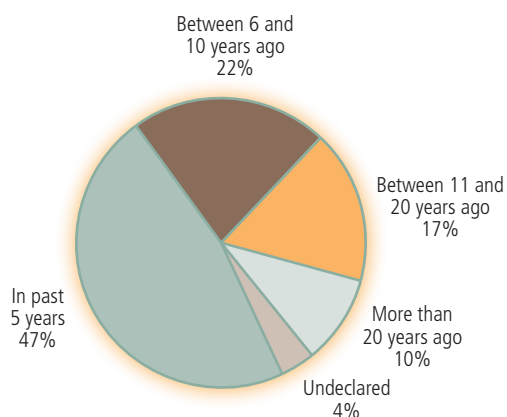

² An Undeclared option remains available for reporting purposes.

In 2016/2017, 69 per cent of adult learners who enrolled at ALCs did so within 10 years of last attending school. Forty per cent of learners had previously attained Grade 10 or 11 while 23 per cent had previously attained less than Grade 10.

Approximately 33 per cent had already achieved Grade 12 or equivalent representing individuals who attended an ALC to complete specific courses as pre-requisites for post-secondary education or employment opportunities.

**EDUCATION HISTORY:
LAST ATTENDED SCHOOL**

**EDUCATION HISTORY:
LAST GRADE COMPLETED**

In 2016/2017, 14 per cent of learners at ALCs self-identified as speakers of English as an additional language and eight per cent self-identified as recent immigrants.

**ADULT LEARNING CENTRE LEARNERS:
ENGLISH AS AN ADDITIONAL LANGUAGE**

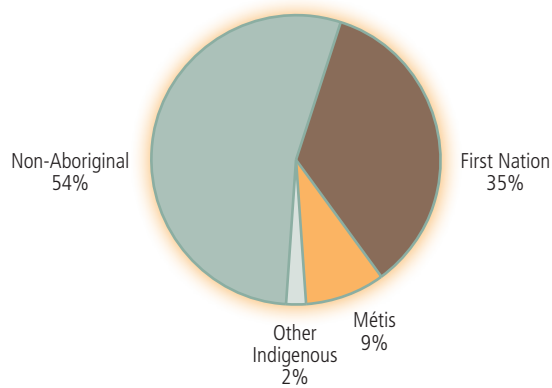

**ADULT LEARNING CENTRE LEARNERS:
RECENT IMMIGRANT (5 YEARS OR LESS)**

In 2016/2017, 46 per cent of learners enrolled at ALCs self-identified as Indigenous.

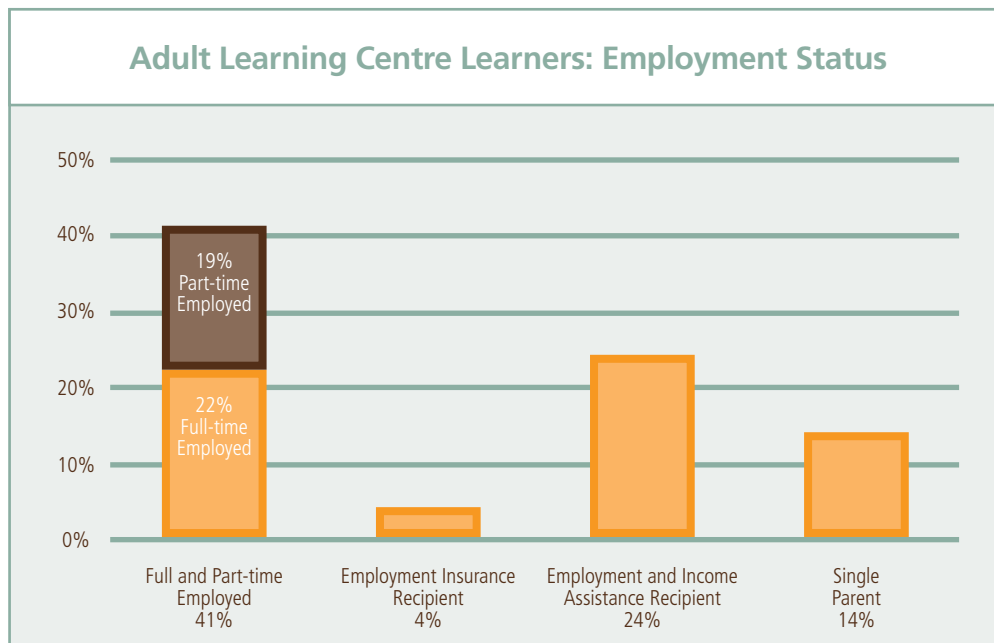

ADULT LEARNING CENTRE LEARNERS: INDIGENOUS STATUS

Single parents with children under the age of six represent 14 per cent of the learners at ALCs.

Forty-one per cent of learners who attended ALCs did so while working full or part time.

Twenty-four per cent of learners self-declared as recipients of employment and income assistance.
