(The educational objectives are listed in the second bullet of the [“Selection Criteria”](#) section on the PEFE website.)

8. Measuring the Project's Impact on the Target Population

Referring to the need identified in question 6.1 and to the educational objectives of the PEFE, indicate two to three performance indicators in the table below. For each indicator, specify a performance target and the data collection tools that will be used. Indicate at what stage data will be collected.

Please note that in the *Final Report* you will need to provide a summary of the data collected.

Performance Indicator* <i>What factor or variable will you be measuring?</i>	Performance Target** <i>What goal do you want to achieve?</i>	Qualitative and/or Quantitative Data Collection Tools <i>When and how will you measure the progress made (e.g., questionnaire, survey, scorecard, observations, testimonials)?</i>
<i>Examples:</i> <ul style="list-style-type: none"> Teacher satisfaction rate. 	<i>Examples:</i> <ul style="list-style-type: none"> 90% of teachers report that the school program meets or exceeds their expectations 	<i>Examples:</i> <ul style="list-style-type: none"> Post-activity teacher survey.
<ul style="list-style-type: none"> Number of schools participating in the activity or program for the first time. 	<ul style="list-style-type: none"> Increase the number of schools participating in the activity/program for the first time to 4 from the 2023/2024 year (2023/2024 = 2 new schools) 	<ul style="list-style-type: none"> Analysis of school participation.

* A performance indicator is a factor or variable that provides a **reliable means to measure progress** towards your desired targets. Measurable and quantitative indicators are important to report on progress achieved through the project.

** A performance target is the **desired change** or **consequence attributable to the planned initiatives**. The target (preferably quantitative) is the means by which the organization will objectively assess the progress made. The performance target includes sufficient context to understand the expected result.
