To: Superintendents of School Divisions
Secretary-Treasurers of School Divisions

Dear Colleagues:

Subject: Financial and Workforce Impact Management Exercise

Thank you for your cooperation in identifying workforce and operational savings as part of the collective response to the significant fiscal pressures placed on the public sector by the COVID-19 pandemic.

We recognize that school divisions will face additional financial pressures as you adopt new measures associated with a safe return to classroom instruction in the 2020/21 school year. To support these efforts, the savings identified through the Financial and Workforce Impact Management Exercise can be redirected by the school division to address these adaptations and supports for students in their return to the classroom.

I look forward to our continued collaboration in supporting student learning in this unprecedented time.

Sincerely,
