Introduction

1

Purpose of This Document

1

Numeracy

2

Rationale

2

Time Allotments

2

Mathematical Processes

3

Reference to Manitoba EAL Framework and the Manitoba Mathematics Curriculum

4

LAL Domains

4

a) Foundational Linguistic Competence

5

b) Foundational Competence in Contextual Applications

5

c) Foundational Strategic Competence

6

d) Foundational Intercultural Competence and Global Citizenship

9

Spiral Learning

10

Lesson Planning Considerations

10

Instructional Focus

10

Resources for Lesson Planning

11

Language Goals

12

What Is a Language Objective?

13

Possible Language Objectives

13

Possible Teaching Strategies

13

Language Acquisition Strategies

13

Instructional Strategies

14

Environmental Strategies

14

Calculators and Technology

15

Problem Solving

15

Open Problems

15

Word Problems That Focus on Operations

15

Problem-Solving Teaching Strategies

15

Financial Literacy

16

Assessment

16

Grade Reporting

17

LAL Numeracy: Progression of Mathematics Learning

19

LAL Numeracy: Topic Layout and Explanation

29

LAL Foundational Numeracy 1A—Half-Course Credit

31

LAL Foundational Numeracy 1B—Half-Course Credit

65

LAL Transitional Numeracy 2A—Half-Course Credit

101

LAL Transitional Numeracy 2B—Half-Course Credit

129

Bibliography

157
