Discipline Overview

The study of English language arts enables learners to explore, understand and appreciate language and its use in multidimensional ways-critical thinking, communicating, creating, collaborating, reflecting to empower learners to live Mino-Pimatisiwin (the Good Life) and contribute to their communities as global, literate citizens. Language enhances learning and is integrated across all other subjects/disciplines which fosters a love of deep literacy learning. Each learner develops their knowledge and skills through opportunities to listen, speak, read, write, view and represent in a variety of contexts.

The language arts are interrelated and interdependent; strength in one area reinforces and supports the development of skills in another area. All Kindergarten to Grade 12 teachers are teachers of language and contribute to learners' literacy growth in a variety of ways. Literacy is the foundation for all learning, and it is the gateway to self-knowing, being and doing.

Reading and creating texts requires learners to acquire the ability to be multiliterate. The texts that fill the world of today's learners are multimodal as they combine print, digital, oral, and a range of visual modes. The English language arts engage learners in multiple modes of communication (multiliteracies) in and across multiple contexts for the purpose of experiencing, questioning, investigating, creating, communicating, and reflecting to make sense of information in the world.

Through Kindergarten to Grade 12, learners continuously develop their global competencies in English language arts to build a sense of self, identity, community and knowledge about the world as they engage purposefully as active and responsible participants in their own and others' lives. English language arts spark the imagination, inspire a love for learning and develop appreciation for the rich diversity of human experiences shared through language, literature, and story.

Course Overview

In Grade 3, learners build on their foundational language skills by using listening, interacting and speaking to contribute to focused discussions, provoke their own and others' thinking and to collaborate with peers.

Learners in Grade 3 apply their growing understanding of how language works—through grammar, vocabulary, and word structure—to read more complex texts and communicate ideas clearly. They actively explore a broadening range of topics through multimodal sources, including nonfiction texts, digital content, and visual media, allowing them to expand their background knowledge across subject areas. They begin to analyze texts more deeply, identifying author's purpose, voice, and differing perspectives, while also recognizing bias and the influence of language choices.

As researchers and text creators, Grade 3 learners formulate questions, gather and organize information from multiple sources, and use this knowledge to inform their writing and presentations. They compose multimodal texts for a variety of purposes and audiences, with greater attention to clarity, cohesion of message and the effectiveness of design to ensure their ideas are fully formed. With increasing independence, they revise and refine their text for publishing or presenting to ensure it is engaging for an audience.

Enduring Understandings

Enduring understandings are the essential big ideas, residing at the heart of all disciplines. They are the principles educators interpret and use to guide planning for the implementation of the English language arts curriculum.

Language and literacies are central to all learning.

Today's learners need a broad communicative repertoire to interact with and navigate multiple forms of text and social contexts.

- *Reflection: How do I design learning experiences and assessment practices so that learners have meaningful opportunities to use language and literacies in all facets of learning?*

Language and literacies are context dependent.

Today's learners will understand how to use language and literacies for different contexts such as navigating different purposes, audiences and cultural contexts.

- *Reflection: How do I recognize and help others to recognize that the ways we use language, and literacies will change based on context?*

Language and literacy learning is complex, continuous, and recursive.

Today's learners will realize that language and literacy learning are dynamic and provide opportunities for learners to return to and reflect on their learning which expands their experiences, interactions, and relationships.

- *Reflection: How do I provide opportunities for learners to broaden, deepen, and transform their language and literacies?*

Language and literacies develop differently for each individual.

Today's learners have unique and diverse ways of developing and expanding their language and literacies.

- *Reflection: How do I learn about and harness the different ways of learning/knowing language and literacies in my classroom?*

Language and literacy learning and use are social.

Today's learners will experience language and literacies through the processes of communication, conversation, and collaboration to make meaning when interacting with text/creators of texts.

- *Reflection: How do I support collaboration in my classroom to build language and literacy among learners?*

Language and literacy demands are evolving.

Today's learners require the capacity and capability to navigate multiples uses of language, multiliteracies and multimodal texts (print, digital, physical, aural/oral, gestural, spatial and visual modes).

- *Reflection: How do I select, use, provide access to, and support the creation of multiple forms and modes of texts in my classroom?*

Language and literacy experiences inform and influence our developing sense of self.

Today's learners are affected by their language and literacies, and this defines how they construct their personal identity. English language arts are essential for all to live Mino-Pimatisiwin (the Good Life). English language arts curriculum acknowledges literacy as a fundamental right and that it is at the heart of the learner's knowing, being and doing.

- *Reflection: How do I learn about the multiple identities of learners in my classroom/school?*

Language and literacies are enacted through inextricably connected practices.

Today's learners will use a range of modes to make and communicate their meaning through language and literacy.

- *Reflection: How do I support focused and intentional teaching within meaningful language and literacy experiences?*
