### Athletics—Throwing

Athletics (or track and field) is a collection of sporting events that involve running, throwing, and jumping. The throwing events include: discus, hammer, javelin, and shot put.

### General Learning Outcome

The student will demonstrate safe and responsible behaviours to manage risks and prevent injuries in physical activity participation and for daily living.

### Risk Management Strategies

Safety information and recommendations contained in this safety checklist are believed to reflect best practice to reduce risk. The suggested risk management strategies are considered minimum standards for physical activity in an organized or formal setting. They may not apply to all situations (e.g., home-based, recreational, or modified activities), and more stringent safety standards may be applied by instructors/coaches/program leaders of OUT-of-class physical activities in organized programs.

### Instruction

**Note:** The amount and level of instruction/directions required by the student may vary based on circumstances such as the student’s personal experience, skill level, and physical condition. The use of media resources, such as books and instructional videos, may replace direct instruction if deemed appropriate and safe.

- Instruction is received from a certified National Coaching Certification Program/Athletics Canada coach, or an experienced coach capable of demonstrating competencies of a certified coach as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill.
- All sessions are conducted in a safe environment, indoors and outdoors, with students aware of risks involved in training for the throwing events.
- Safety rules and procedures are learned prior to participation.
- Skills/movements are learned in proper progression.
- Students learn the proper mechanics of the throws.
- Each session is conducted with a proper warm-up, cool-down, and appropriate fitness work.
- Drinking water is available and consumed as needed.
- Coaches monitor weekly training load of athletes (i.e., weight training loads, distances, and increases) through a training log/journal.
# Physical Activity Safety Checklists

## Athletics—Throws

### Supervision

**Note:** The level of supervision is provided as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill.

- □ Recommended level of supervision: **constant visual supervision** during initial instruction and then **on-site supervision**
- □ As some training sessions will be conducted by the student on their own, students are encouraged to train in pairs
- □ The person responsible for providing first aid should be present during the entire session
- □ Safety rules and procedures are enforced
- □ Emergency action plan is in place to deal with accidents/injuries

### Facility/Environment

- □ Local weather conditions, forecast, humidity, and temperature/windchill are checked prior to outdoor session
- □ Prior to throw training, a safety check of the throwing areas (cage and throwing circles) has been performed, these areas are inspected on a regular basis.
- □ Activity area is free of hazards/debris and traffic with boundaries clearly marked
- □ Throwing surface is level and provides suitable footing
- □ Adequate space must be available behind the cages for non-throwers

### Clothing/Footwear

- □ Appropriate and properly fitted footwear is worn
- □ Laces are tied and open-toed shoes are avoided
- □ Jewelry is removed or secured when safety is a concern
- □ Appropriate clothing is worn, permitting unrestricted movement
- □ Suitable clothing and protection is used for weather, sun, and insects
- □ Clothing must meet the requirement of the club or competition

### Equipment

- □ Equipment to be used is suitable and in good condition
- □ Throwing implements must meet IAAF or Athletics Canada specifications
- □ First aid kit and phone are readily accessible

### Other Considerations

- □ The student has completed a regular medical checkup and a medical history prior to starting the program
- □ The student has submitted the signed Parent Declaration and Consent & Student Declaration Form (student under 18) or Student Declaration Form (student 18 and over) prior to beginning the program
- □ Registration in an accident insurance plan is encouraged
- □ Students who suffer an injury are referred to appropriate medical personnel for treatment and rehabilitation, and should not return to training until cleared by a qualified medical professional
- □ The activity is suitable to the student's age, ability, mental condition, and physical condition
- □ The student demonstrates self-control at all times and avoids any behaviour deemed inappropriate
- □ The student's choice of this activity as part of the OUT-of-class component of the physical education/health education course has been presented to the parent/guardian (student under 18 years of age) and to the teacher
