**General Learning Outcome**

The student will demonstrate safe and responsible behaviours to manage risks and prevent injuries in physical activity participation and for daily living.

**Risk Management Strategies**

Safety information and recommendations contained in this safety checklist are believed to reflect best practice to reduce risk. The suggested risk management strategies are considered minimum standards for physical activity in an organized or formal setting. They may not apply to all situations (e.g., home-based, recreational, or modified activities), and more stringent safety standards may be applied by instructors/coaches/program leaders of OUT-of-class physical activities in organized programs.

**Instruction**

**Note:** The amount and level of instruction/directions required by the student may vary based on circumstances such as the student’s personal experience, skill level, and physical condition. The use of media resources, such as books and instructional videos, may replace direct instruction if deemed appropriate and safe.

- Instruction is received from a trained/certified National Coaching Certification Program/Canadian Cricket Association coach, or an experienced coach capable of demonstrating competencies of a certified coach as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill
- All sessions are conducted in a safe environment, with students being aware of the potential risks of cricket
- Safety rules and procedures are learned prior to participation including safe bowling practice
- Skills/movements are learned in proper progression
- Each session is conducted with a proper warm-up, cool-down, and appropriate fitness work
- Drinking water is available and consumed as needed
- All non-participating players are in a place safe from the batter

**Supervision**

**Note:** The level of supervision is provided as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill.

- Recommended level of supervision: **on-site supervision** during instruction
- Safety rules and procedures are enforced
- Emergency action plan is in place to deal with accidents/injuries
### Cricket Safety Checklists

#### Facility/Environment
- Local weather conditions, forecast, humidity, and temperature are checked prior to outdoor session
- Activity area is level and free of hazards/debris while providing adequate footing
- Activity area is clearly marked with adequate out-of-bounds areas, which are also free of hazards/debris
- Proper lighting and ventilation, when applicable, are provided
- Safety rules/regulations are taught and posted
- Emergency exit of indoor facility is clearly marked
- Designated area is identified for non-participating players and in a place safe from the batter

#### Equipment
- Equipment to be used is suitable and in good condition
- Equipment (bats, stumps, and pads) are checked by a qualified person before every session
- Wicket keepers wear appropriate cricket pads and gloves
- Batters wear appropriate helmet and gloves when batting
- Suitable ball is used to match the experience and environment the game/practice is held in (e.g., tennis ball or indoor cricket ball when indoors)
- Instructions are given regarding the proper maintenance of cricket equipment
- First aid kit and phone are readily available

#### Clothing/Footwear
- Appropriate footwear is worn
- Laces are tied and open-toed shoes are avoided
- Jewelry is removed or secured when safety is a concern
- Appropriate clothing is worn, permitting unrestricted movement
- Clothing must meet requirements of club or competition

#### Other Considerations
- The student has completed a regular medical checkup and a medical history prior to starting the program
- The student has submitted the signed Parent Declaration and Consent & Student Declaration Form (student under 18) or Student Declaration Form (student 18 and over) prior to beginning the program
- Registration in an accident insurance plan is encouraged
- Students who suffer an injury are referred to appropriate medical personnel for treatment and rehabilitation, and should not return to training until cleared by a qualified medical professional
- The activity is suitable to the student’s age, ability, mental condition, and physical condition
- The student demonstrates self-control at all times and avoids any behaviour deemed inappropriate
- The student’s choice of this activity as part of the OUT-of-class component of the physical education/health education course has been presented to the parent/guardian (student under 18 years of age) and to the teacher
