## Physical Activity Safety Checklists

### Fitness Training—Small Equipment

**E.g., Stretch Bands, Physio Balls, Jump Ropes, Agility Ladders, Medicine Balls**

| Fitness training is a collective term for a variety of forms of exercise. A fitness program includes sessions normally comprising exercises to improve all elements of fitness (flexibility, muscle strength, and cardiovascular fitness) and is often associated with weight-loss regimes. | Risk Factor Rating | 2 |

### General Learning Outcome

The student will demonstrate safe and responsible behaviours to manage risks and prevent injuries in physical activity participation and for daily living.

### Risk Management Strategies

Safety information and recommendations contained in this safety checklist are believed to reflect best practice to reduce risk. The suggested risk management strategies are considered minimum standards for physical activity in an organized or formal setting. They may not apply to all situations (e.g., home-based, recreational, or modified activities), and more stringent safety standards may be applied by instructors/coaches/program leaders of OUT-of-class physical activities in organized programs.

### Instruction

**Note:** The amount and level of instruction/directions required by the student may vary based on circumstances such as the student’s personal experience, skill level, and physical condition. The use of media resources, such as books and instructional videos, may replace direct instruction if deemed appropriate and safe.

- Instruction is received from an instructor certified by the Manitoba Fitness Council or from an experienced instructor capable of demonstrating competencies of a certified instructor, as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill.
- All sessions are conducted in a safe environment, with students aware of potential risks involved in fitness training with specific reference to certain exercises which might constitute part of the program.
- Safety rules and procedures are learned prior to participation.
- Skills/movements are learned in proper progression.
- Each session is conducted with an appropriate warm-up and cool-down.
- Drinking water is available and consumed as needed.
- Program adheres to basic fitness and training principles.

### Supervision

**Note:** The level of supervision is provided as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill.

- Recommended level of supervision: **on-site supervision** during initial instruction.
- Safety rules and procedures are enforced.
- Emergency action plan is in place to deal with accidents/injuries.
### Physical Activity Safety Checklists

**Fitness Training—Small Equipment**
*(e.g., stretch bands, physio balls, jump ropes, agility ladders, medicine balls)*

<thead>
<tr>
<th>Facility</th>
<th>Equipment</th>
</tr>
</thead>
<tbody>
<tr>
<td>□ Activity area is free of hazards/debris</td>
<td>□ Equipment to be used is suitable and in good condition</td>
</tr>
<tr>
<td>□ Activity area is clearly marked with adequate out-of-bounds areas</td>
<td>□ Equipment is checked regularly (steps, mats, dumbbells, etc.)</td>
</tr>
<tr>
<td>□ Proper lighting and ventilation, when applicable, are provided</td>
<td>□ Instructions are given regarding the proper maintenance/storage of equipment</td>
</tr>
<tr>
<td>□ Instructions for use of facility are posted</td>
<td>□ First aid kit and phone are available</td>
</tr>
<tr>
<td>□ Emergency exit of indoor facility is clearly marked</td>
<td></td>
</tr>
</tbody>
</table>

**Clothing/Footwear**

- □ Jewelry is removed or secured when safety is a concern
- □ Appropriate footwear and clothing is worn

**Other Considerations**

- □ The student has completed a regular medical checkup and a medical history prior to starting the program
- □ The student has submitted the signed Parent Declaration and Consent & Student Declaration Form (student under 18) or Student Declaration Form (student 18 and over) prior to beginning the program
- □ Registration in an accident insurance plan is encouraged
- □ Students who suffer an injury are referred to appropriate medical personnel for treatment and rehabilitation, and should not return to training until cleared by a qualified medical professional
- □ The activity is suitable to the student’s age, ability, mental condition, and physical condition
- □ The student demonstrates self-control at all times and avoids any behaviour deemed inappropriate
- □ The student’s choice of this activity as part of the OUT-of-class component of the physical education/health education course has been presented to the parent/guardian (student under 18 years of age) and to the teacher
