

PHYSICAL ACTIVITY SAFETY CHECKLISTS

SEPAK TAKRAW

Sepak takraw is a Southeast Asian sport that is similar to volleyball, except that it uses a rattan ball and only allows players to use their feet and head to touch the ball. It is also played on a badminton doubles-sized court.

Risk Factor Rating

2

General Learning Outcome

The student will demonstrate safe and responsible behaviours to manage risks and prevent injuries in physical activity participation and for daily living.

Risk Management Strategies

Safety information and recommendations contained in this safety checklist are believed to reflect best practice to reduce risk. The suggested risk management strategies are considered minimum standards for physical activity in an organized or formal setting. They may not apply to all situations (e.g., home-based, recreational, or modified activities), and more stringent safety standards may be applied by instructors/coaches/program leaders of OUT-of-class physical activities in organized programs.

Instruction

Note: The amount and level of instruction/directions required by the student may vary based on circumstances such as the student's personal experience, skill level, and physical condition. The use of media resources, such as books and instructional videos, may replace direct instruction if deemed appropriate and safe.

Instruction is received from an instructor capable of organizing, teaching, and demonstrating sepak takraw skills and activities as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill

All sessions are conducted in a safe environment, with students being aware of the potential risks involved in sepak takraw

Safety rules and procedures are learned prior to participation

Skills/movements are learned in proper progression

Each session is conducted with a proper warm-up, cool-down, and appropriate fitness work

Drinking water is available and consumed as needed

Supervision

Note: The level of supervision is provided as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill.

Recommended level of supervision: **on-site supervision** during initial instruction and then **in-the-area supervision**

Individual with first aid training is present

Safety rules and procedures are enforced

Emergency action plan is in place to deal with accidents/injuries

PHYSICAL ACTIVITY SAFETY CHECKLISTS

SEPAK TAKRAW

Facility/Environment

Local weather conditions, forecast, humidity, and temperature are checked prior to outdoor session
Activity area is free of hazards/debris
Activity area is clearly marked with adequate out-of-bounds areas
Proper lighting and ventilation, when applicable, are provided
Instructions for use of facility are posted
Emergency exit of indoor facility is clearly marked

Equipment

Equipment to be used is suitable and in good condition
Rattan balls are inspected prior to each use and replaced if damaged
Nets and poles are checked prior to use and stored safely when not in use
Instructions are given regarding setting up and taking down of equipment
First aid kit and phone available

Clothing/Footwear

Appropriate footwear is worn
Laces are tied and open-toed shoes are avoided
Jewelry is removed or secured when safety is a concern
Appropriate clothing is worn (t-shirt and shorts are best), permitting unrestricted movement.
Clothing must meet requirements of club or competition

Other Considerations

The student has completed a regular medical checkup and a medical history prior to starting the program
The student has submitted the signed Parent Declaration and Consent & Student Declaration Form (student under 18) or Student Declaration Form (student 18 and over) prior to beginning the program
Registration in an accident insurance plan is encouraged
Students who suffer an injury are referred to appropriate medical personnel for treatment and rehabilitation, and should not return to training until cleared by a qualified medical professional
The activity is suitable to the student's age, ability, mental condition, and physical condition
The student demonstrates self-control at all times and avoids any behaviour deemed inappropriate
The student's choice of this activity as part of the OUT-of-class component of the physical education/health education course has been presented to the parent/guardian (student under 18 years of age) and to the teacher
