**Physical Activity Safety Checklists**

**Softball (Slo-pitch, Modified, or Fast Pitch)**

| Softball is a team sport descended from baseball that is played with a larger and softer ball by two teams of nine players on a field with four bases, which mark the course the batters must take to score runs. The three forms of softball are: fast pitch, modified pitch (orthodox), and slo-pitch. | Risk Factor Rating 2 |

### General Learning Outcome

The student will demonstrate safe and responsible behaviours to manage risks and prevent injuries in physical activity participation and for daily living.

### Risk Management Strategies

Safety information and recommendations contained in this safety checklist are believed to reflect best practice to reduce risk. The suggested risk management strategies are considered minimum standards for physical activity in an organized or formal setting. They may not apply to all situations (e.g., home-based, recreational, or modified activities), and more stringent safety standards may be applied by instructors/coaches/program leaders of OUT-of-class physical activities in organized programs.

### Instruction

**Note:** The amount and level of instruction/directions required by the student may vary based on circumstances such as the student’s personal experience, skill level, and physical condition. The use of media resources, such as books and instructional videos, may replace direct instruction if deemed appropriate and safe.

- Instruction is received from a trained/certified National Coaching Certification Program/Softball Canada coach or an experienced coach capable of demonstrating competencies of a certified coach as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill (If participating in a league, there may be a coaching certification requirement.)
- All sessions are conducted in a safe environment, with students being aware of the potential risks involved in softball
- Softball safety rules (e.g., safe base running) and etiquette (e.g., dropping the bat after hitting the ball) are learned prior to participation
- Skills/movements are learned in proper progression, especially higher-risk activities such as sliding
- Each session is conducted with a proper warm-up, cool-down, and appropriate fitness work
- Drinking water is available and consumed as needed
# Physical Activity Safety Checklists

## Softball
(Slo-pitch, Modified, or Fast Pitch)

### Supervision

**Note:** The level of supervision is provided as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill.

- [ ] Recommended level of supervision: on-site supervision
- [ ] Safety rules and procedures are enforced (e.g., non-participants are in a safe area and an adequate distance from the batter)
- [ ] Designated person is present with basic first aid training
- [ ] Emergency action plan is in place to deal with accidents/injuries

### Facility/Environment

- [ ] Local weather conditions, forecast, and wind chill are checked prior to outdoor session
- [ ] The facility is checked prior to use for hazards
- [ ] Bases are secured
- [ ] Diamond is groomed and level, free of holes, rocks, or other obstacles
- [ ] Backstop is free of holes or broken wires and is checked prior to each game or practice
- [ ] Entrance gates to diamond must stay closed at all times
- [ ] Dugout is screened to protect players and coaches
- [ ] If the field is deemed to be unsafe, a game/practice must be rescheduled to a new field or new date, and a report must be submitted to the appropriate authorities
- [ ] When training indoors the site is suitable for the activity being practiced (e.g., a school gymnasium may be suitable for a pitching practice but not for batting practice)
- [ ] Instructions for use of facility are posted

### Equipment

- [ ] Equipment to be used is suitable and in good condition
- [ ] Equipment (bats, helmets) are checked by a qualified person before every session
- [ ] Bats are the appropriate size (length and weight) for each participant
- [ ] Safety bases are used
- [ ] Helmets (CSA-approved) are used in accordance with Softball Canada directives
- [ ] Catchers wear approved protective equipment as per Softball Canada directives
- [ ] Equipment not being used as part of the game must be kept out of the playing area
- [ ] First aid kit and phone are available

### Clothing/Footwear

- [ ] Appropriate footwear is worn
- [ ] Laces are tied and open-toed shoes are avoided
- [ ] Jewelry is removed or secured when safety is a concern
- [ ] Appropriate clothing is worn (t-shirt and shorts), permitting unrestricted movement
- [ ] Clothing must meet requirements of club or competition
- [ ] Suitable protection from the sun and insects is used
### Physical Activity Safety Checklists

**Softball**
(Slow-pitch, Modified, or Fast Pitch)

**Other Considerations**

- ☐ The student has completed a regular medical checkup and a medical history prior to starting the program.
- ☐ The student has submitted the signed Parent Declaration and Consent & Student Declaration Form (student under 18) or Student Declaration Form (student 18 and over) prior to beginning the program.
- ☐ Registration in an accident insurance plan is encouraged.
- ☐ Students who suffer an injury are referred to appropriate medical personnel for treatment and rehabilitation, and should not return to training until cleared by a qualified medical professional.
- ☐ The activity is suitable to the student’s age, ability, mental condition, and physical condition.
- ☐ The student demonstrates self-control at all times and avoids any behaviour deemed inappropriate.
- ☐ The student’s choice of this activity as part of the OUT-of-class component of the physical education/health education course has been presented to the parent/guardian (student under 18 years of age) and to the teacher.
