# Physical Activity Safety Checklists

## Tae Bo

Tae bo is an aerobic exercise routine developed by taekwondo practitioner Billy Blanks in 1989. It combines music with elements from his taekwondo and boxing training to form an intense workout regimen.

| Risk Factor Rating | 2 |

### General Learning Outcome

The student will demonstrate safe and responsible behaviours to manage risks and prevent injuries in physical activity participation and for daily living.

### Risk Management Strategies

Safety information and recommendations contained in this safety checklist are believed to reflect best practice to reduce risk. The suggested risk management strategies are considered minimum standards for physical activity in an organized or formal setting. They may not apply to all situations (e.g., home-based, recreational, or modified activities), and more stringent safety standards may be applied by instructors/coaches/program leaders of OUT-of-class physical activities in organized programs.

### Instruction

**Note:** The amount and level of instruction/directions required by the student may vary based on circumstances such as the student’s personal experience, skill level, and physical condition. The use of media resources, such as books and instructional videos, may replace direct instruction if deemed appropriate and safe.

- Instruction is received from an instructor certified by the Manitoba Fitness Council, a certified Tae Bo instructor or from an experienced instructor capable of demonstrating competencies of a certified instructor, as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill.
- All sessions are conducted in a safe environment, with students aware of potential risks of tae bo and aerobic activities with specific reference to certain exercises which might constitute part of the program.
- Safety rules are learned prior to participation.
- Skills/movements are learned in proper progression.
- Each session is conducted with an appropriate warm-up and cool-down.
- Drinking water is available and consumed as needed.
- Program adheres to basic fitness and training principles.

### Supervision

**Note:** The level of supervision is provided as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill.

- Recommended level of supervision: **on-site supervision** during initial instruction.
- Safety rules and procedures are enforced.
- Emergency action plan is in place to deal with accidents/injuries.
### Physical Activity Safety Checklists

#### Tae Bo

**Facility**
- □ Activity area is free of hazards/debris
- □ Activity area is clearly marked
- □ Proper lighting and ventilation, when applicable, are provided
- □ Safety rules/regulations are provided or posted
- □ Instructions for use of facility are posted
- □ Emergency exit is clearly marked

**Equipment**
- □ Equipment to be used is suitable and in good condition
- □ Equipment used is regularly checked by a qualified person
- □ Instructions are given regarding the proper maintenance/storage of equipment
- □ First aid kit and phone are available

**Clothing/Footwear**
- □ Appropriate and properly fitted footwear is worn
- □ Laces are tied and open-toed shoes are avoided
- □ Jewelry is removed or secured when safety is a concern
- □ Appropriate clothing is worn (e.g., aerobics wear) providing unrestricted movement

**Other Considerations**
- □ The student has completed a regular medical checkup and a medical history prior to starting the program
- □ The student should have completed a Registration/Informed Consent Form prior to beginning the program
- □ Registration in an accident insurance plan is encouraged
- □ Students who suffer an injury are referred to appropriate medical personnel for treatment and rehabilitation, and should not return to training until cleared by a qualified medical professional
- □ The activity is suitable to the student’s age, ability, mental condition, and physical condition
- □ The student demonstrates self-control at all times and avoids any behaviour deemed inappropriate
- □ The student’s choice of this activity as part of the OUT-of-class component of the physical education/health education course has been presented to the parent/guardian (student under 18 years of age) and to the teacher
