

Making Collective Decisions

1. Record your individual ideas about the best ways of making collective decisions in one of the spaces around the circle.
2. Talk with your group members about their ideas and record some of their ideas in the other sections around the circle.
3. Underline all the words/ideas that are the same.
4. As a group, use the keywords you've underlined to reach group agreement (or consensus) on the best way to make collective decisions and record that idea in the centre circle.
