

World Leaders

7.2.4

a

Use the Internet to find the names of as many world leaders as possible from their position titles on this list. Consult a news website to find names of other leaders who are currently in the news. Cut and paste names to make sure the spelling is correct, and retain the website addresses and photos (if available) in a separate electronic file. Note the keywords you used to locate the information. Be prepared to locate each country on a map of the world.
