Kindergarten Resources Organized by Learning Experiences

Sensitive Content and Local Selection of Learning Resources

Although each resource listed in this bibliography has been reviewed by a team of Manitoba social studies teachers, school divisions/districts are advised to review all learning resources locally before they are used with students. This will ensure that local sensitivities are considered and that appropriate resources are selected for use in social studies classrooms. Although a statement of **caution** appears at the end of those annotations with potentially sensitive content, as identified by teacher/evaluators, **all books/videos need to be reviewed for local sensitivities.**

Definitions of Terms Used in the Learning Experiences

The following terms and definitions are used to describe how the resources should be used.

- **Student Breadth:** identifies student learning resources that address a wide range of topics for a particular grade.
- **Student Depth:** identifies student learning resources that provide especially effective learning experiences for students for a particular grouping of learning outcomes.
- **Student Breadth and Depth:** identifies comprehensive learning resources that provide both breadth and depth dimensions for a particular grouping of learning outcomes.
- **Teacher Reference:** identifies classroom strategies to assist teachers in implementing the learning outcomes identified for Social Studies.

How To Access Learning Resources

The resources listed here are available from the Instructional Resources Unit (IRU), Manitoba Education, Citizenship and Youth, and accessible by Manitoba educators and registered patrons of the IRU.
