Welcome to the world of social studies, where students have opportunities to interact with each other in democratic groups and communities, and to acquire the knowledge, values, and skills they need to become active, responsible citizens within our Canadian society. As they grow and learn the skills of citizenship, they not only contribute to their learning communities, but also contribute to the betterment of our society.

What do active, responsible citizens look like? They are aware of the world in which they live, and they care about people around them—the people with whom they share this planet, both near and far away. They know that their actions affect others. They have informed opinions, and think critically about issues that concern themselves and others. They have the confidence to make their voices heard, to take a stand on issues, and to engage in social action when necessary. They are concerned with the well-being of the environment, and live their lives in ways that reflect that concern.

Background

This document was produced by Manitoba Education, Citizenship and Youth, in collaboration with Manitoba educators. It includes the core concept citizenship, and identifies general and specific learning outcomes. It integrates the four foundation skill areas of literacy and communication, problem solving, human relations, and technology, and provides ideas and strategies to support the implementation of social studies. It is mandated for use in all schools in Manitoba.

A Brief History of the Social Studies Curriculum

Just as knowing oneself means knowing one's history, fully understanding the new social studies curriculum requires knowing something of its history. The Manitoba curriculum was created through a culturally collaborative process; diverse voices guided the process, and the result is a social studies curriculum that better reflects the cultural reality of Canada.

The first stage of the process was the creation of the *Western Canadian Protocol (WCP) Common Curriculum Framework for Social Studies, Kindergarten to Grade 9 (2002). This was the first inter-provincial/territorial curriculum project to include both Aboriginal and francophone representatives as full and equal partners in the development process.

* In November 2003 the name was changed to the Western and Northern Canadian Protocol (WNCP) for Collaboration in Basic Education.
Manitoba’s involvement in the Western and Northern Canadian Protocol project, and in the next stage of adapting the *WCP Framework* to produce *Kindergarten to Grade 8 Social Studies: Manitoba Curriculum Framework of Outcomes*, was guided by three advisory groups:

- The **Manitoba Social Studies Steering Committee**, consisting of representatives from Manitoba educational stakeholders
- The **Manitoba Kindergarten to Senior 4 Framework Development Team**, comprising Early, Middle, and Senior Years teachers from English, Français, and French Immersion Programs, as well as Aboriginal educators and consultants, and university advisors in history, geography, and education
- The **Manitoba Cultural Advisory Team**, with representatives from 15 ethnocultural organizations in Manitoba

(See the Acknowledgments section for a listing of team members and organizations.)

Manitoba also solicited feedback from educational stakeholders during the development of the WCP and Manitoba frameworks. Regional consultations took place, as did a province-wide mailout, resulting in feedback from hundreds of Manitoba educators and stakeholders, including the Manitoba First Nation Education Resource Centre and the Manitoba Métis Federation.

**Contents of the Document**

This document contains the following sections:

- **Introduction**: The introduction describes the purpose, background, and contents of this document.
- **Social Studies in Manitoba—A Kindergarten to Senior 4 Overview**: This section presents an overview of the Kindergarten to Senior 4 social studies program in Manitoba.
- **Document Components and Structure**: This section presents the components of the Manitoba social studies curriculum and explains how the learning outcomes and strategies for teaching, learning, and assessment are organized within this document.
- **Kindergarten: Being Together**: This section contains the grade overview; cluster descriptions; skills, knowledge, and values learning outcomes; suggested strategies for assessment; and strategies to activate, acquire, and apply learning.
- **References**
- **Appendices**: This section contains the following appendices: A: Skills Assessment; B: Blackline Masters; C: Charts and Checklists; D: Vocabulary Strategies; E: Kindergarten to Grade 4 Cumulative Skills Chart; and F: Recommended Learning Resources.
SOCIAL STUDIES IN MANITOBA—A KINDERGARTEN TO SENIOR 4 OVERVIEW

Definition
Social studies is the study of people in relation to each other and to the world in which they live. In Manitoba, social studies comprises the disciplines of history and geography, draws upon the social sciences, and integrates relevant content from the humanities. As a study of human beings in their physical, social, and cultural environments, social studies examines the past and present and looks toward the future. Social studies helps students acquire the skills, knowledge, and values necessary to become active democratic citizens and contributing members of their communities, locally, nationally, and globally.

Vision
Social studies has at its foundation the concepts of citizenship and identity in the Canadian and global contexts. Intended to reflect the many voices and stories that comprise the Canadian experience, past and present, the social studies curriculum is inclusive of Aboriginal, francophone, and diverse cultural perspectives.

Social studies engages students in the continuing debate concerning citizenship and identity in Canada and the world. Through social studies, students are encouraged to participate actively as citizens and members of communities, and to make informed and ethical choices when faced with the challenges of living in a pluralistic democratic society.

Goals of Social Studies
Social studies enables students to acquire the skills, knowledge, and values necessary to understand the world in which they live, to engage in active democratic citizenship, and to contribute to the betterment of society.

The goals of social studies learning span Kindergarten to Senior 4, and are divided into five categories:

• Canada
• The World
• The Environment
• Democracy
• General Skills and Competencies
Overview

With respect to **Canada**, social studies enables students to

- acquire knowledge and understanding of Canadian history and geography
- appreciate the achievements of previous generations whose efforts contributed to the building of Canada
- critically understand Canadian political structures and processes and the institutions of Canadian society
- fulfill their responsibilities and understand their rights as Canadian citizens
- understand and respect the principles of Canadian democracy, including social justice, federalism, bilingualism, and pluralism
- analyze Canadian public issues and take rationally and morally defensible positions
- develop a sense of belonging to their communities and to Canadian society
- respect Aboriginal perspectives, francophone perspectives, and the perspectives of the many cultural groups that have shaped Canada, past and present

With respect to the **world**, social studies enables students to

- acquire knowledge and understanding of world history and geography
- respect the world’s peoples and cultures through a commitment to human rights, equity, and the dignity of all persons
- develop global awareness and a sense of global citizenship
- understand and appreciate the role of international organizations
- analyze global issues and take rationally and morally defensible positions
- develop a commitment to social justice and quality of life for all the world’s peoples
- assess questions of national self-interest and the interests of other countries and the world as a whole

With respect to the **environment**, social studies enables students to

- acquire and apply geographic skills, knowledge, and understanding
- recognize that a sustainable natural environment is essential to human life
- assess the impact of human interaction with the environment
- propose possible solutions to environmental problems
- live in ways that respect principles of environmental stewardship and sustainability
With respect to democracy, social studies enables students to
- critically understand the history, nature, and implications of democracy
- assess alternatives to democracy, past and present
- understand the history and foundations of parliamentary democracy in Canada
- demonstrate a commitment to democratic ideals and principles, including respect for human rights, principles of social justice, equity, freedom, dissent and differences, and willingness to take action for the public good
- participate in public affairs in accordance with democratic principles
- critically understand the role of various institutions in civil society
- recognize that democracy involves negotiation and that political and social problems do not always have simple solutions
- identify ways in which Canadian democracy could be improved, and work to improve it
- participate as informed citizens in the ongoing debates that characterize democracy in Canada and the world
- take a stand on matters of fundamental principle or individual conscience

With respect to general skills and competencies, social studies enables students to
- engage in disciplined inquiry, applying research skills, critical thinking, and decision making
- think historically and geographically
- critically analyze and research social issues, including controversial issues
- work collaboratively and effectively with others
- solve problems and address conflicts in creative, ethical, and non-violent ways
- develop openness to new ideas and think beyond the limits of conventional wisdom
- apply effective communication skills and enhance media literacy
- use and manage information and communication technologies
CITIZENSHIP AS A CORE CONCEPT IN SOCIAL STUDIES

Citizenship is the core concept that provides the learning focus for social studies at all grades. To identify the knowledge, values, and skills that students will need as active democratic citizens, social studies must take into account the society in which students live and anticipate the challenges they will face in the future. Citizenship is a fluid concept that changes over time: its meaning is often contested, and it is subject to interpretation and continuing debate.

Achievement of learning outcomes related to citizenship will prepare students to participate in the public dialogue that characterizes any democracy and that plays an important role in Canadian society. As students engage in this dialogue, they will enhance their understanding of citizenship in Canada and the world, and will be better prepared to become active participants in their communities, locally, nationally, and globally.

Rationale for Citizenship Education

Citizenship education is fundamental to living in a democratic society. The concept of citizenship takes on meaning in specific contexts and is determined by time and place. Diverse notions of citizenship have been used in the past and are being used in the present, for both good and ill. Throughout much of history, citizenship has been exclusionary, class-based, racist, and sexist. In Canada, for instance, First Nations parents were forced to send their children to residential schools in the interests of citizenship.

The concept of citizenship must be considered within the context of democracy, human rights, and public debate. Social studies provides opportunities for students to explore the complexities of citizenship in four areas:

- Active Democratic Citizenship in Canada
- Canadian Citizenship for the Future
- Citizenship in the Global Context
- Environmental Citizenship
Active Democratic Citizenship in Canada

Since citizenship issues are rooted in the past, Canadian history occupies an important place in the social studies curriculum. Canada is regionally diverse and geographically expansive. It is organized as a federal parliamentary monarchy, with a mixed, albeit largely capitalist, economy. It is a bilingual and multicultural country committed to pluralism, human rights, and democracy. Globally, Canada is regarded as a prosperous, peaceful, and democratic country, although it still has its share of economic and social injustices and inequities.

Canada is a complex country that requires special qualities in its citizens. These citizenship qualities include:

• knowledge of Canadian history and geography
• understanding of the distinctive nature of Canadian society, the Canadian state, and its institutions
• the ability to approach public issues critically, rationally, and democratically
• informed involvement in public affairs
• respect for human rights and democratic ideals and principles
• a commitment to freedom, equality, and social justice
• the ability to work through conflicts and contradictions that can arise among citizens
• a willingness to live with ambiguity and uncertainty
• civility and tolerance for dissension and disagreement
• a willingness to balance the pursuit of private interests with concern for the public good
• the ability to balance personal claims of conscience and principle against the similar claims of others
• a sense of shared identity as Canadians, combined with a realization that Canadian identity is multi-faceted, open to debate, and not exclusive of other identities

Canadian Citizenship for the Future

For the foreseeable future, Canadian citizens will likely continue to face issues such as

• balancing the jurisdictional claims of the provinces, territories, and the federal government
• redressing past and present injustices inflicted on Aboriginal peoples and other groups in Canada
• coming to terms with the complexities of Quebec’s place in Canada
• balancing regional and cultural diversity with national unity
• protecting Canadian identity and sovereignty
• assuring access to social services and quality of life for all
• eliminating inequalities related to race, gender, sexual orientation, age, class, and ethnicity
• protecting the environment
• ensuring the successful functioning of the economy

Overview
Citizenship in the Global Context

Canada is part of a global community that is becoming increasingly interconnected and interdependent. Many of the most serious problems facing our world must be dealt with on a global basis. The nation-state—including Canada—is under increasing challenge, externally from the forces of globalization, and internally from demands for more local or regional autonomy. The world also continues to be characterized by severe disparities between rich and poor countries. This disparity violates the basic principles of social justice and human dignity, and, at the same time, gives rise to dangerous tensions and rivalries. War, terrorism, and violence continue to be a means of addressing internal and international disputes, and, because of developments in weapons technology, are becoming ever more destructive. In these circumstances, Canadian citizens need to think and act globally as well as nationally.

Environmental Citizenship

Underlying both national and global realities, and the responsibilities they impose on citizens, is the increasing fragility of our natural environment. Quality of life depends upon the sustainability of our environment. This places a particularly important responsibility on citizens, who must ultimately balance the demands of economic growth and high living standards against respect for the environment and the needs of future generations.
The following six general learning outcomes provide the conceptual structure for social studies from Kindergarten through Senior 4. They are the basis for the specific learning outcomes for each grade.

**Identity, Culture, and Community**

Students will explore concepts of identity, culture, and community in relation to individuals, societies, and nations.

Many factors influence identity and life in communities, including culture, language, history, and shared beliefs and values. Identity is subject to time and place, and is shaped by a multiplicity of personal, social, and economic factors. A critical consideration of identity, culture, and community provides students with opportunities to explore the symbols and expressions of their own and others’ cultural and social groups. Through a study of the ways in which people live together and express themselves in communities, societies, and nations, students enhance their understanding of diverse perspectives and develop their competencies as social beings. This process enables them to reflect upon their roles as individuals and citizens so as to become contributing members of their groups and communities.

The specific learning outcomes within Identity, Culture, and Community include concepts such as human interaction and interdependence, cultural diversity, national identities, and pluralism.

**The Land: Places and People**

Students will explore the dynamic relationships of people with the land, places, and environments.

People exist in dynamic relationships with the land. The exploration of people’s relationships with places and environments creates an understanding of human dependence and impact upon the natural environment. Students explore how spatial and physical characteristics of the environment affect human life, cultures, and societies. They consider how connections to the land influence their identities and define their roles and responsibilities as citizens, locally, nationally, and globally.

The specific learning outcomes within The Land: Places and People focus on geographic understanding and skills, and concepts such as sustainability, stewardship, and the relationship between people and the land.
Overview

The past shapes who we are. An exploration of Canadian and world history enables students to acquire knowledge and appreciation of the past, to understand the present, and to live with regard for the future. An important aspect of this process is the disciplined investigation and interpretation of history. Students learn to think historically as they explore people, events, ideas, and evidence of the past. As they reflect upon diverse perspectives, personal narratives, parallel accounts, and oral and social histories, students develop the historical understanding that provides a foundation for active democratic citizenship.

The specific learning outcomes within Historical Connections enable students to develop an interest in the past, and focus on chronological thinking, historical understanding, and concepts such as progress, decline, continuity, and change.

Historical Connections

Students will explore how people, events, and ideas of the past shape the present and influence the future.

Global Interdependence

Students will explore the global interdependence of people, communities, societies, nations, and environments.

People, communities, societies, nations, and environments are interdependent. An exploration of this interdependence enhances students’ global consciousness and helps them develop empathy with respect to the human condition. Students critically consider diverse perspectives as they examine the connections that link local, national, and global communities. Consideration of global connections enables students to expand their knowledge of the world in which they live and to engage in active democratic citizenship.

The specific learning outcomes within Global Interdependence focus on human rights and responsibilities, diversity and commonality, quality of life and equity, globalization, international cooperation and conflict, and global environmental concerns.
Power and Authority

Students will explore the processes and structures of power and authority, and their implications for individuals, relationships, communities, and nations.

Power and authority influence all human relationships. Students critically examine the distribution, exercise, and implications of power and authority in everyday life and in formal settings. They consider diverse forms of governance and leadership, and inquire into issues of fairness and equity. This exploration helps students develop a sense of personal empowerment as active democratic citizens.

The specific learning outcomes within Power and Authority include concepts such as political structures and decision making, governance, justice, rules and laws, conflict and conflict resolution, and war and peace.

Economics and Resources

Students will explore the distribution of resources and wealth in relation to individuals, communities, and nations.

The management and distribution of resources and wealth have a direct impact on human societies and quality of life. Students explore the effects of economic interdependence on individuals, communities, and nations in the global context. They examine economic factors that affect decision making, the use of resources, and the development of technologies. As students explore diverse perspectives regarding human needs, wants, and quality of life, they critically consider the social and environmental implications of the distribution of resources and technologies, locally, nationally, and globally.

The specific learning outcomes within Economics and Resources include concepts such as trade, commerce, and industry, access to resources, economic disparities, economic systems, and globalization.
SOCIAL STUDIES SKILLS

Social studies skills are grouped into four categories:

• Skills for Active Democratic Citizenship
• Skills for Managing Ideas and Information
• Critical and Creative Thinking Skills
• Communication Skills

Skills for Active Democratic Citizenship

Citizenship skills enable students to develop good relations with others, to work in cooperative ways toward achieving common goals, and to collaborate with others for the well-being of their communities. These interpersonal skills focus on cooperation, conflict resolution, taking responsibility, accepting differences, building consensus, negotiation, collaborative decision making, and learning to deal with dissent and disagreement.

Skills for Managing Information and Ideas

Information-management skills enable students to access, select, organize, and record information and ideas, using a variety of sources, tools, and technologies. These skills include inquiry and research skills that enhance historical and geographical thinking.
Critical and Creative Thinking Skills

Critical and creative thinking skills enable students to make observations and decisions, to solve problems, and to devise forward-thinking strategies. These skills involve making connections among concepts and using a variety of tools. Critical thinking involves the use of criteria and evidence to make reasoned judgments. These judgments include distinguishing fact from opinion and interpretation, evaluating information and ideas, identifying perspectives and bias, and considering the consequences of decisions and actions. Creative thinking emphasizes divergent thinking, the generation of ideas and possibilities, and the exploration of diverse approaches to questions.

Communication Skills

Communication skills enable students to interpret and express ideas clearly and purposefully using a variety of media. These skills include the development of oral, visual, print, and media literacy, and the use of information and communication technologies for the exchange of information and ideas.
Learning in social studies is an active process. Active learning involves the construction of meaning through the interaction of prior knowledge, motivation and purpose, and new experiences. The process of learning varies from one individual to another, and is shaped by a multitude of factors, including personal, social, and cultural influences. Social studies learning is more meaningful when students are

- encouraged to broaden their perspectives through informed and focused interaction with others
- provided with opportunities to reflect critically on their own ideas and attitudes
- valued, respected, and acknowledged as individuals, whatever their situation or background

Social studies knowledge, values, and skills are interdependent aspects of learning, and need to be integrated in the learning process. Meaningful learning in social studies requires both depth and breadth of understanding. This includes the incorporation of basic general knowledge, as well as opportunities for more intensive study of selected topics.

Instructional Strategies for Active Learning

Social studies learning can be enhanced by using a variety of settings both in and outside of school, flexible student groupings, and numerous other strategies. A well-balanced social studies program includes individual, collaborative, and teacher-directed learning experiences, and provides students with a variety of conceptual tools and advance organizers.

Effective social studies instruction includes the use of strategies that promote student inquiry and interaction. These strategies include cooperative and peer learning, interviews, project-based learning, structured controversy or debate, teacher- and student-initiated inquiry and research, role-play, and sharing circles. These types of strategies make learning meaningful by encouraging critical reflection, questioning, and the consideration of diverse points of view.

It is through guided inquiry and interaction—within the school and in the community—that students construct meaning from their individual experiences. Students require opportunities to engage in authentic and relevant community issues and events. It is important that these experiences be integral to social studies learning, and not be contrived.
Active learning is encouraged through resource-based and experiential learning. These include on-the-land experiences, field studies, guided tours, and participation in diverse cultural activities. Social studies teaching offers the ideal opportunity to integrate literature and the arts, and to use information and communication technologies.

Effective practices in social studies actively engage students in democratic processes such as consensus building, collective decision making, student government, class meetings, student-generated topics of study, and school event planning. As well, social studies provides authentic opportunities for home and community involvement.

Resource-Based Learning

Social studies addresses a wide range of issues and topics at every grade. It is a subject that is particularly well-suited to resource-based learning, which moves beyond the single textbook approach and provides students with a variety of information sources. (See Appendix F for a list of recommended learning resources.)

There is a plethora of social studies resources available to teachers and students. These include primary information sources, print media, electronic media, art and artifacts, simulations and games, maps, field trips, as well as knowledgeable individuals from the local community.

Resource-based learning is a student-centred approach that adapts to student needs, interests, abilities, learning styles, and prior knowledge. An environment that is rich in resources allows students to explore and discover as they learn, and to make personal learning choices that are relevant and meaningful.

As our society continues to evolve, so do the roles of teachers and learners. The “sage on the stage” model is giving way to a more flexible model—one in which teachers facilitate the learning process, and students make decisions and assume responsibility for their learning. A resource-based learning approach ultimately helps students manage the information overload that typifies today’s society, and teaches them how to continue their learning outside of the school setting. While the development of fundamental knowledge is still essential in social studies, the student of the 21st century needs the skills to locate, access, and evaluate pertinent information.
Role of the Social Studies Teacher

Social studies accommodates a variety of teaching styles. Given the political nature of social studies issues and topics, a teacher’s personal beliefs and convictions may influence the presentation of content, as well as the selection of teaching strategies and learning resources. Complete neutrality is not always possible, nor necessarily desirable; however, teachers need to be aware of the implications of presenting their own beliefs and perspectives as fact rather than opinion.

Social studies is rich in opportunities to detect and analyze bias through the critical exploration of diverse points of view. When a classroom climate is open and fair, teachers and students together will establish a learning culture that integrates democratic principles and encourages active citizenship. It is important to note that student-centred classrooms are not necessarily democratic classrooms. Even activities that are democratic in nature, such as cooperative learning, can be undemocratic in practice, depending upon how they are used.

Finally, it is essential that teachers be well informed about social studies content and issues, and that they be prepared to provide students with guidance in selecting reliable information sources.

Dealing with Controversial Issues

A fundamental aspect of social studies learning and teaching—at all grade levels—is the consideration of controversial issues—issues that involve ethics, principles, beliefs, and values. Teachers should not avoid controversial issues. Diversity of perspectives, beliefs and values, disagreement, and dissension are all part of living in a democratic society. Furthermore, discussion and debate concerning ethical or existential questions serve to motivate students and make learning more personally meaningful.

The following guidelines will assist teachers in dealing with controversial issues in the classroom:

- approach all issues with sensitivity
- clearly define the issues
- establish a clear purpose for discussions
- establish parameters for discussions
- ensure that the issues do not become personalized or directed at individual students
- protect the interests of individual students by finding out in advance whether any student would be personally affected by the discussion
- exercise flexibility by permitting students to choose alternative assignments
- accept that there may not be a single “right answer” to a question or issue
- respect everyone’s right to voice opinions or perspectives
- help students clarify the distinction between informed opinion and bias
- help students seek sufficient and reliable information to support the various perspectives
- allow time to present all relevant perspectives fairly and to reflect upon their validity
SOCIAL STUDIES AS A CURRICULUM OF AND FOR DIVERSITY AND EQUITY

Inclusive Social Studies Classrooms

The social studies classroom plays an important role in helping students become engaged and caring citizens, locally, nationally, and globally. To do so requires teachers to use social studies classrooms as living laboratories for a more equal and just society than the one in which we now live. Schools in general, and the social studies classroom specifically, support the continued development of the multicultural, multiracial, and pluralist democracy that is Canada—a democracy that is capable of addressing the serious social and ecological challenges that face us now, and which threaten our collective future.

The events that take place in our classrooms both shape, and are shaped by larger social currents that define who we are and where we are headed as a society. To be successful, schools, and social studies classrooms in particular, must be guided by democratic social goals and values that celebrate our human diversity and demonstrate a quest for greater equity in our institutions and in society as a whole.

Social studies curriculum and instruction must be both visionary and practical: visionary because we need to go beyond narrow educational goals and look toward our collective future with hope; practical because the work of reshaping educational practice and countering negative social forces and conditions requires daily effort.

Teaching practices, educational activism, and dedication and creativity on the part of teachers and other educational partners are all part of this process. Efforts to transform the social studies classroom need to grow from a common social and pedagogical vision that strives for an inclusive classroom focused on social justice. Curriculum and practice must reflect certain essential characteristics, which are described below.

1. Multicultural, equity-focused, and anti-bias in nature

A curriculum grounded in social justice and awareness of social diversity must be inclusive of every student in every classroom. With our increasingly diverse student population and nation, the social studies classroom needs to directly address issues related to race, class, gender, and other aspects of educational equity. We need to do more than simply celebrate diversity. We need to take on the “hard stuff” of exploring why some differences translate into wealth and power, while others become the basis for discrimination and injustice. Social studies classrooms exist in a multicultural and multiracial society, and need to honestly face the truth about our past and present. The often exclusionary, traditional stories of history need to be revised to include the experiences and voices of Aboriginal peoples and people of colour, women, working peoples, and other diverse groups in our society.
2. **Grounded in the lives of students**
   Good teaching begins with respect and concern for children, their innate curiosity, and their capacity to learn. Curriculum needs to be rooted in the real lives and contexts of the students in the classroom. Creating effective learning environments requires that the lives of the students, as well as the topics they are exploring, provide the content of the classroom experience. Students need opportunities to consider and inquire how their lives connect to the broader society.

3. **Culturally sensitive**
   Classrooms that are places for critical teaching and learning are built on the premise that teachers “don’t know it all.” Each new class presents opportunities for teachers to learn from students, and requires teachers to be good researchers and listeners. Teachers will often work with children of diverse cultural origins and ethnicities, and may need to call upon parents and others in order to understand the needs of their students. Teachers must also draw on the cultural diversity of their colleagues and community resources for insights into the communities they seek to serve.

4. **Critical**
   The social studies curriculum should help equip students to engage in dialogue and to challenge the world. From Early Years onwards, students need to develop skills and insights that allow them to pose essential questions. Who holds power and makes decisions in society? Who is left out? Who benefits and who suffers? What is fair practice? What is discriminatory or unfair practice? How is change created? Students should have opportunities to examine and question social reality through critiques of media, public policy decisions, foreign policy choices, newspapers, historical accounts, and school life itself. Wherever possible, student learning should encompass issues and problems in the world outside the classroom walls.

5. **Participatory and experiential**
   Student involvement and initiative need to be emphasized; students should not be passive learners. Exploratory and experiential learning approaches, in which students are involved in planning and decision making, allow students to take responsibility for, and to manage, their own learning. Projects, role-plays, mock trials, and other learning activities involve students physically and cognitively. These are all essential to provoke students to develop democratic capacities: to question, to challenge, to make real decisions, and to solve problems collectively.

6. **Hopeful, joyful, caring, and visionary**
   Classrooms in which children feel significant and cared for are at the heart of an inclusive school. Unless students feel safe—emotionally and physically—they will not reveal their true selves or their real thoughts and feelings, and discussions will be artificial and dishonest. Teachers need to design learning experiences that help students learn to trust and care for each other.
7. Academically rigorous

An inclusive classroom focused on social justice equips students with the skills they need to navigate in the world, and to take action to change the world. When students create products for real audiences about significant issues, and discuss big ideas with compassion and intensity, academics come to life.

8. Supportive of students as social activists and engaged citizens

If we want students to see themselves as voices for justice and agents of change, it is important to encourage them to critique the world, and to be willing to act in ways that are meaningful. Part of the role of the social studies teacher is to reinforce the fact that ideas have real consequences and need to be acted upon. Students can draw inspiration from historical and contemporary individuals who struggled for social justice, peace, and human rights. A critical curriculum and classroom should reflect the diversity of people from all cultures and both genders who acted to make a difference, many of whom did so at great sacrifice. Students should feel connected to this legacy of resistance and social justice.

Creating inclusive and critical classrooms is not easy. It is complex and demanding work that requires vision, support, and resources. Sharing experiences with other educators, establishing support networks, and amassing diverse resources are critical components of inclusive classrooms.

Towards a Pedagogy for Social Justice

A social studies curriculum that advocates social justice is built upon the integration and exploration of issues related to inclusion, diversity, and racism. This approach requires a clear and well-developed understanding of multicultural/anti-racist teaching approaches. It should not be assumed that simply providing students with learning resources that are “multicultural” or that deal with issues of inequality or diversity is sufficient to create an inclusive social studies classroom. To have a positive effect, as well as an anti-racist/anti-bias impact on the classroom, multicultural materials need to be part of meaningful learning experiences that encourage students to critically explore and analyze the significance of the issues discussed or information presented, personally and collectively.

The quotation that follows illustrates the importance of anti-racism pedagogy in the use of multicultural resources in the classroom, and in the planning and implementation of learning activities. It is critical that educators be clear how a specific learning resource and related activities fit into their plan for the year and the anti-racism objectives that have been established.

“It should be remembered that multicultural curriculum can be taught in a traditional and racist way. The way out of this dilemma is through the intervention of anti-racist teaching. Anti-racist teaching would incorporate ‘education’ which is multicultural while the ‘teaching’ would be anti-racist. In this context, anti-racist teaching is seen as coming about through a teacher with the ‘right’ attitude, the appropriate knowledge, and the necessary skills to bring about learning that will challenge racism and change the bias of the traditional ethnocentric and biased education to which we are accustomed in Canada.” (Black Learners Advisory Committee [BLAC] Report on Education, December 1994, Nova Scotia)
The Transformative Curriculum: Education for Social Justice

An anti-racist pedagogy may be conceptualized as being education for change, social justice, or action. James Banks provides a conceptual model for analyzing the level of integration of multicultural content into the curriculum, which highlights the importance of a social action approach. In his perspective, a Transformation or Social Action Approach is essential if we wish to meaningfully address issues of diversity and inequality in the social studies classroom and in our schools.

**Figure 1:** From “Approaches to Multicultural Curriculum Reform” by James A. Banks. In *Multicultural Education: Issues and Perspectives*, J. Banks and C. Banks (Eds.).

**Levels of Integration of Multicultural Content**

- **Level 4: The Social Action Approach**
  Students make decisions on important social issues and take actions to help solve them.

- **Level 3: The Transformation Approach**
  The structure of the curriculum is changed to enable students to view concepts, issues, events, and themes from the perspectives of diverse and cultural groups.

- **Level 2: The Additive Approach**
  Content, concepts, themes, and perspectives are added to the curriculum without changing its structure.

- **Level 1: The Contributions Approach**
  Focuses on heroes, holidays, and discrete cultural elements.

**Diversity and Inequity: The Historical Context**

It is important that educators develop an informed understanding of the historical development of Canadian society and the history of diversity and inequality. Traditional approaches to Canadian history have often excluded or marginalized the experiences and perspectives of many diverse groups. Therefore, it is critical that educators broaden their understanding of history in a Canadian and international context.
The experiences of marginalized groups in Canada share many similarities with marginalized groups in other places. It is important to explore and critically consider these parallels. Furthermore, it is important to connect historical experiences to contemporary social conditions, such as continued inequities in employment, evidence of bias in medical research, attitudes towards interracial or same-sex marriages, the prevalence of negative stereotypes in media, and so on.

Identity, Culture, and Race

Educators also need to consider the social dynamics and patterns of intercultural interaction in the classroom in developing inclusive, multicultural, and pro-social justice learning experiences. The ethnocultural identity and self-concept of students play an important role in determining their response and willingness to engage in meaningful learning experiences related to diversity. Social and ethnocultural identity is characterized by a number of factors, including the following:

- An individual’s identity is complex and composed of various dimensions.
- Every individual has multiple identities, with ethnicity, class, gender, language, religion, racial origins, political beliefs, and other factors defining who we are.
- Not all factors have the same impact on our identity, and their relevance may change according to personal and social conditions and social context.
- Race, while it is a socially constructed concept, forms part of our sense of identity.
- Racial identity development is the result of the racialization of society, and is a complex and dynamic phenomenon.

Theories regarding the process of achieving an anti-racist group identity are a useful tool to guide exploration of the impact of race and racism in our classrooms. These theories also serve to guide educators in defining the objectives of anti-racism education. Ideally, schools should facilitate the movement of students to the highest level of anti-racist group identity.

Towards an Inclusive and Anti-Bias Identity

The process of undoing the profound impact of racism and other forms of discrimination and marginalization is a complex journey—a journey towards an inclusive and anti-bias identity. Psychologists researching race and identity issues have theorized that this journey may take different paths or stages of development for different groups, as members of these groups have been affected in differing ways by racism and discrimination.

Research suggests that people undergo a series of life transformations or stages of identity formation in terms of their self-concept and group identity. These stages of social identity formation are not inevitable, static, nor are they achieved for life. Life circumstances and experiences precipitate and support change either towards or away from anti-racism consciousness and behaviour. Alternatively, individuals may remain fixated at a particular stage of ethnic and group consciousness. (Derman-Sparks et al., 1997)
Towards an Anti-Bias/Anti-Racist Identity

William Cross’s (1991) model for the stages of Black identity development reflects the African American experience, but is relevant in a Canadian context. His model of the resocialization experience has five distinct stages of identity development: Pre-encounter, Encounter, Immersion/Emersion, Internalization, and Internalization-Commitment.

In Cross’s conceptual framework, individuals move from a state of unawareness of racism and discrimination to one of total awareness and social activism, known as the Internalization-Commitment stage. This final stage parallels Banks’ idea of the global ethnic identity, and is a fully developed anti-racist group identity. An individual at this stage is a social activist who recognizes the need for continuous efforts to challenge inequality in society on several fronts, and seeks to collaborate with others in meaningful social action.

Helms (1990) has taken a similar and comprehensive examination of the stages of white/dominant group identity development. Helms identifies the tendency of dominant group members in society to deny that their racial identity has any significance, preferring to view themselves as individuals and, consequently, not responsible for the perpetuation of a racist system.

Helms’ model of identity development is based on six distinct stages: Contact, Disintegration, Immersion/Emersion, Reintegration, Pseudo-Independent, Immersion/Emersion, and Autonomy. Individuals in this framework, like Cross’s, move from a stage of total ignorance to one of total awareness and engagement in social activism. In the final stage of identity, Autonomy, individuals are self-directed and self-actualized activists who join with exploited groups to change the racist system.

Both researchers see the highest form of identity formation to be one where individuals are aware of the realities of inequities in society and the reality of racism, coupled with the desire to work with others for change and meaningful social action.

Applying Racial Identity Development Concepts in the Classroom

There is a great deal of significance to identity formation for educators involved in anti-bias/anti-racism education within the social studies classroom. First, the two models detailed above present a framework for conceptualizing learning outcomes or objectives for anti-bias/anti-racist education in a school setting. Ideally, school experiences and learning activities will stimulate sustained exploration and development of students’ sense of identity, and encourage movement towards an anti-racist racial identity for all students. To achieve this, there needs to be a good understanding of both racism and of anti-racist educational practices.

Secondly, the two models provide tools to assist teachers in planning educational experiences for students. The stages students are at in their racial identity development affect how they interact with other students, and how they respond to learning experiences dealing with diversity or racism. Teachers may wish to reflect on the cultural composition of their classrooms and individual student sense of identity when planning learning activities. This reflection will provide insight as to how students may respond to multicultural learning resources, or educational activities related to diversity issues. It may also identify potential problems that may arise as a result of students being at different stages of identity development.
Finally, the models provide a tool for self-reflection and analysis, encouraging teachers to reflect on issues of race and power. For example, teachers may ask themselves:

- What stage am I at in my personal identity formation?
- How will my stage of identity formation affect my teaching of anti-bias/anti-racist content and issues?
- What is my pattern of interaction and relationships with people of diverse origins and disadvantaged groups, and how does this relate to my current stage of identity development?

**Isolation and Identity**

The exploration of Canadian and world history, and issues related to discrimination may be particularly challenging for students of marginalized or minority groups. A student may find herself or himself as the only one, or one of a small group, in an otherwise relatively homogeneous classroom setting. Such students may be at different stages of social or ethnic identity, and the overall classroom attitude and awareness of racism will greatly affect the dynamics in the classroom. It is important for teachers to recognize that

- racism and other forms of discrimination adversely affect student involvement in the classroom.
- experiences with racism and other forms of discrimination affect students’ lives and the lives of their family members.
- dealing with issues of race and racism and other issues of bias and discrimination is a deeply personal and emotional experience that may stimulate recall of repressed memories or emotions.
- for many students of visible minority origins, and other students of diverse origins, a sense of isolation or alienation is not uncommon.
- in such situations, even if the intent is anti-bias in nature, raising issues of racism and inequality in a classroom presents a challenge for most students. Very often students will feel as if “all eyes” are on them when racial incidents occur, racist language is expressed, or other issues related to prejudice and discrimination are discussed.
- being of visible minority origins may be an experience in diversity itself. Students are often of interracial and intercultural backgrounds. Teachers need to be sensitive to students’ personal definitions of their “identity” and group membership.
- students may not be comfortable with the role of representing or “speaking for” their particular cultural group. Depending on personal circumstances and social conditions, students may just be beginning, or have yet to begin, to explore their cultural origins.

This discussion of issues related to identity illustrates the complexity of intercultural and interracial dynamics in the classroom and society. It points to the need to carefully consider these dynamics when introducing challenging learning experiences. Most importantly, it highlights the need to have a clear and well-defined anti-bias/anti-racist teaching approach. It is about education for empowerment; it is about turning dreams into reality.
Overview

Strategies to Develop Positive Attitudes towards Diversity

- Initiate educational activities and discussions to build a positive racial and/or cultural self-identity.
- Initiate activities and discussions to develop positive attitudes toward diverse racial/cultural groups—encourage the exploration of groups different from students’ own reference groups.
- Always answer student questions about race, ethnicity, and cultures when questions are asked.
- Listen carefully and in a relaxed manner to student questions and comments. Be sure to understand what a student means and wants to know.
- Pay attention to feelings.
- Provide truthful information appropriate to students’ level of understanding.
- Help students recognize racial, cultural, social, and other stereotypes.
- Encourage students to challenge racism and other forms of discrimination by being a positive role model and displaying inclusive attitudes and behaviours.
- Cultivate understanding that racism and other forms of discrimination do not have to be a permanent condition—that people are working together for positive change.
- Remember that learning about racial and cultural identities is a lifelong process.

(Council for Interracial Books for Children, 1980)

Points to Consider When Using Multicultural Resources in the Classroom

1. **Remember that context is important when using literature or media that deal with issues of diversity and of inequality.**
   - How does the resource fit into the yearly plan or the curriculum?
   - Is the school environment positive and open to diversity?
   - What is the classroom composition in terms of diversity? How may this affect classroom dynamics?
   - Are students from the cultural backgrounds that are featured in the resource represented in the classroom? Is there a history of positive interaction between students of diverse cultural and racial origins?
   - What is the relationship and pattern of interaction between the teacher and minority students in the classroom? How may this affect the use of the resource in a classroom setting?
   - Is multicultural literature frequently used in the school and throughout various subject areas?
2. **What was the rationale for choosing the resources to be used?**
   - Were parents or community group members involved in the selection of the resources?
   - Has the impact of the resource on readers of different experiences and perspectives been considered?
   - Have questions of voice and authenticity been considered?
   - Have supplementary or complementary materials been considered?

3. **Has the stage been set for the introduction of the resource, including its content and major themes?**
   - Is the teacher sufficiently knowledgeable about the content and the historical context of the resource?
   - Are students sufficiently knowledgeable of the historical and social context addressed in the resource?
   - Have students explored issues related to the use of problematic terms and references made in the resource?
   - Have minority students and parents been consulted with respect to planned learning activities? Have they been given an opportunity to participate or to suggest strategies for the effective use of the resource?

4. **Does the classroom experience lend itself to anti-bias/anti-racist learning?**
   - Are students encouraged to critically analyze the resource and its significance in a contemporary setting?
   - Have arrangements been made to monitor the impact of the resource on students in the classroom, and to deal with issues as they arise?
   - Do the classroom activities allow students to voice their experiences, feelings, and ideas? Are minority students’ experiences, feelings, and ideas validated, or are they ignored and silenced?
   - Are students encouraged to explore the significance of the resource in terms of their own lives and social action?
   - Do classroom experiences provide an opportunity for students to interact and connect with the people or groups featured in the resource? Do students have a voice in the classroom?
   - Are connections made to other groups and their experiences in a way that encourages students to understand similarities and differences?
   - Has the use of additional resources that give a more complete picture been considered?
5. How does the resource or issue studied relate to other aspects of the curriculum and school experience?

- Have provisions been made to connect the issues and experiences explored to curricular learning outcomes?
- Is the impact of the resource on students, and on their interactions in the classroom, being monitored?
- Have students been given opportunities to reflect on learning experiences, and to share their thoughts and feelings?
- Have plans been made to provide students with opportunities to celebrate their diversity and unity with each other, their parents, and their community?

SOCIAL STUDIES AND CLASSROOM-BASED ASSESSMENT

Purpose of Assessment

The purpose of classroom-based assessment is to enhance student learning. Research continues to demonstrate that ongoing formative assessment contributes more significantly to learning than the more traditional focus on summative assessment, which is often referred to as assessment of learning. Formative assessment, also described as assessment for learning and/or assessment as learning, is most effective when it involves both the student and the teacher, and takes place throughout the learning process.

Each type of assessment serves its own purpose and contributes to student success in social studies. Classroom-based assessment for learning allows students and teachers to determine what students have learned, and what they need to learn next. Students need frequent opportunities for meaningful and relevant feedback. Descriptive or narrative feedback—that which includes analytical questions and constructive comments—provides information to students that they may use to adjust their learning processes, and is more helpful to them than a numerical or alphabetical grade. Assessment that is ongoing and meaningful provides opportunities for students to become reflective learners—to synthesize their learning, to solve problems, to apply their learning in authentic situations, and to better understand their learning processes—as well as opportunities for teachers to become reflective practitioners. Assessment of learning that takes place at the end of a cluster, or at the end of a year, provides important information about student progress and achievement, as well as instructional effectiveness. This information is usually shared with parents via report cards.

It is important that the purpose of assessment (of or for), as well as how assessment information will be used, is clear to both teachers and students. With a clearly understood purpose, students are encouraged to take more responsibility for their learning, and are better able to focus their efforts, while teachers can better select the instruction and assessment strategies and student learning resources that will improve student achievement.
Assessment and the Stages of Learning

Much of what goes on in classrooms can be described as assessment, and assessment takes place in each stage of learning including activating, acquiring, and applying. Assessment at each stage benefits both students and teachers.

Assessment during the **activating** stage prepares both teachers and students for the learning process, identifying gaps and strengths in student prior knowledge, and informing future instruction.

Assessment during the **acquiring** stage provides feedback as learning takes place, and allows teachers and students to make adjustments to strategies and activities. Well-timed, meaningful feedback as they are learning helps students improve the quality of their work and reach their learning goals. Assessment at this stage also allows for the gathering of evidence of student learning.

Assessment during the **applying** stage focuses on students using new understandings in meaningful and authentic ways. Authentic tasks are those that have worthwhile purposes and replicate as closely as possible the context in which knowledge, values, or skills will be applied beyond the classroom. Ideally, students should demonstrate their learning, and the relevance and importance of their learning, for real audiences and real purposes.

Information gathered at each of the three stages of learning is useful for teacher and student reflection regarding changes and adaptations to learning strategies, and in the selection of student learning resources. (See Figure 2: *Assessment at Different Stages of Learning*.)

*Figure 2:* Assessment at Different Stages of Learning
Collecting Assessment Information

Assessment of student learning is a complex and interactive process. At various times it involves teacher and/or student decision making, student self- and peer assessment, teacher observation of students, student-teacher dialogue, student reflection, and teacher reflection. Each stage of learning and assessment generates information about student needs, growth, and achievement, as well as information related to teaching and learning strategies and the appropriateness of student learning resources.

Collecting information about student learning helps build a positive learning environment and contributes to positive classroom relationships. Teachers use information they gather about their students to scaffold instruction, and to make decisions about the strategies and learning resources that will contribute to successful student learning. When assessment information is shared with students, they are better able to manage and take responsibility for their own learning—setting goals and identifying how they will achieve those goals.

Teachers learn about student progress through moment-by-moment observation of students in action, as well as through more formal activities, including projects, performances, tests, and examinations. Teachers cannot possibly assess all students, all of the time, and should consider a number of factors when determining how to focus their assessment observations. These factors include, among others, the nature of the learning outcomes, the structure of the learning activity (e.g., individual, small group, whole class), the time of year, and the stage of student development. Teachers may choose to focus assessment observation on one or two students or a small group at any one time to monitor their growth and progress at different stages of their learning. No matter what the type, an assessment activity should be based on criteria that are shared with students before they engage in learning. As well, having students participate in constructing assessment criteria further contributes to their success. When students know in advance what is to be assessed, and when their performances are compared to pre-determined criteria (and to their prior performances), students are better able to concentrate their efforts and focus their learning. Additionally, students need to be aware of what success looks like. Providing students with exemplars from previous years provides them with a model to strive toward, and assists them in reaching their learning goals.

Assessment Tools and Strategies

Just as diverse instructional strategies are important, so too are a variety of assessment tools and strategies. There are three types of learning outcomes in social studies—knowledge, values, and skills—and assessment needs to be congruent with each type of learning.

- **Assessing Knowledge**: Social studies places significant emphasis on the acquisition of knowledge. True understanding and appreciation of social studies issues does not occur if students simply memorize and recall information. Rather, students are encouraged to use the knowledge they acquire to synthesize and apply new understandings, and to demonstrate evidence of their learning.

- **Assessing Skills**: The assessment of social studies skills and processes requires different strategies than the assessment of knowledge. Since skill development is ongoing, students continue to practise skills from cluster to cluster and throughout the year. Skills are best assessed by observing students in action, by discussing their learning strategies during conferences and interviews, and by gathering data from student reflections and self-assessments.
• **Assessing Values:** Values are implicit in what students say and do, and are not always measurable in the same way that knowledge outcomes are measurable. Similar to skills, values are best assessed by observing students in action, looking for behavioural indicators as expressions of student values, and engaging students in critical dialogue.

A significant aspect of social studies is the development of values related to active democratic citizenship. The values related to citizenship do not apply solely within the confines of the classroom; a number of social studies learning outcomes refer to student attitudes and behaviours in groups and communities beyond the school. In those cases, assessment will include not only student self-assessment, but self-reporting.

In general, there are three main sources for teachers to gather student assessment evidence:

• observations of student learning (including student’s interactions with peers)
• observation and evaluation of student products and performances
• one-to-one conversations with students about their learning, including information gathered from self- and peer assessment

A broad range of tools and strategies are available to teachers to assess social studies learning. These include student portfolios, interviews, individual and group inquiry and research, journals, role-play and oral presentations, tests, hands-on projects, teacher observation checklists, peer assessment, and self-assessment. The most important aspect of each of these strategies is regular dialogue with students about their learning: asking them questions about their observations and conclusions as they learn, and stimulating and prompting them to higher levels of thinking and learning.

When teachers use a variety of assessment tools and strategies over a period of time, student learning patterns begin to emerge. Observation and knowledge of these patterns is necessary for planning effective instruction and for successful learning.

**Student portfolios** are a particularly useful approach in the assessment of social studies learning. Portfolios help teachers determine the degree to which students have mastered learning. The contents of student portfolios represent student growth and progress, and, when they are accompanied by interviews with students about their learning, provide valuable assessment information for communication to students, parents, and administrators.

Assessment of learning is also important. However, it must be noted that assessment information that is gathered at the end of a cluster will not always be completely summative in nature. Social studies learning outcomes—particularly skills outcomes that continue to develop through the year—are often interconnected, practised, and reinforced throughout every cluster. Therefore, the level of growth that students demonstrate at various times during the year may not adequately reflect their progress at the end of the year. Student achievement may need to be reviewed at year’s end, and “summative” assessments that were made earlier may need to be revised.
Teachers may wish to consider end-of-cluster assessments as *progress reports* rather than final assessments, and decide to provide students with additional opportunities to demonstrate their learning. End-of-year assessment, similar to assessment that takes place at the end of every cluster, should allow students to make connections in their learnings and to reflect on the applications of this new knowledge and understanding in their lives.

**Self-Assessment and Reflection**

Classroom-based assessment provides opportunities for both students and teachers to reflect on, and to enhance, the learning process.

When students are empowered to engage in self-assessment and reflection, they make better choices and assume more responsibility for their learning. Self-assessment significantly increases learning by promoting critical thinking and by allowing students to take ownership of their learning. They are better able to observe and analyze patterns in their thinking, to appraise their strengths, and to set realistic goals for themselves.

As teachers engage in regular conversations with students about their learning, teachers gain essential information to plan for the needs of individual learners.

Assessment, including student self-assessment, is facilitated when students are made to feel safe, secure, involved, and that their individual learning needs are being met. When assessment is equitable (i.e., focused on student growth and progress instead of student deficits, and *not* used for discipline or classroom control), student autonomy, responsibility, and motivation greatly increase. Students need to be encouraged to do their best as they learn, but also to take risks, and to not be afraid of making mistakes. Self-assessment depends on student empowerment. Empowerment needs to begin before any actual learning takes place, and continue through to the summative assessment stage.

Students who are empowered and autonomous learners are involved in the initial decision making about learning, expressing ideas about what and how they will learn. They plan their personal learning goals, decide how they will demonstrate their learning, and select products and performances for their portfolios, all in collaboration with their peers and/or teachers. Throughout the process, teachers engage students in critical dialogue about their decisions and their progress. Figure 3: *Student Empowerment in the Learning Process* illustrates this critical dialogue.

### Language to encourage self-assessment

**Students**
- I think I need to…
- I also want to…
- I was thinking that…
- I wonder…
- Next time I would…

**Teachers**
- Why did you choose to…?
- What options did you consider…?
- What changed in your thinking?
Teacher reflection is also essential to effective pedagogy, and there is no teaching tool or strategy more important than critical consciousness. As teachers assess and reflect on their instructional practices, and as they engage students in dialogue about learning, they become aware of student needs and are better able to adjust planning and teaching—before, during, and after learning.

Before learning begins, teachers engage students in strategies to activate learning. This provides opportunities for teachers to observe students, to assess their prior knowledge, and to make initial adjustments to the learning process that is about to begin.

Once learning is underway, teachers continuously observe students and engage them in dialogue about their learning. They are aware of changing student needs, and adapt and adjust learning strategies as needed.

Finally, when all of the learning and assessing activities have been completed, teachers critically reflect on the whole learning process, evaluating their strategies and approaches, and deciding what changes need to be made for next time.
A Social Studies Model for Classroom-Based Assessment

The assessment model presented in this document provides a series of processes and tools to facilitate classroom-based assessment.

In each grade, the knowledge, values, and skills learning outcomes have been organized into thematic groups referred to as clusters; there are three to five clusters in each grade. Each cluster is further divided into learning experiences, where a small number of related learning outcomes are grouped together. Each learning experience provides a series of activating, acquiring, and applying strategies.

In this model, assessment tools and strategies have been created for use

• at the beginning of each cluster
• within each learning experience
• at the end of each cluster

The following assessment strategies and tools are referenced at the beginning of each cluster. The reproducible charts are found in Appendix C.

• **Skills Progress Chart:** This teacher tool lists every skills learning outcome for a particular grade. It is intended to monitor individual student progress related to skills in each cluster and throughout the grade. (Appendix C)

• **Student Portfolio Tracking Chart:** This chart is intended for student use, and lists the titles of each learning experience within a cluster. Students use the chart to track the portfolio selections from each learning experience they will use to demonstrate their learning at the end of the cluster. (Appendix C)

• **Engaging Students in the Cluster:** This section provides suggestions to teachers to activate a cluster, prior to engaging students in learning experiences. These activities are intended to stimulate student interest, and to provide opportunities for teachers to assess student prior knowledge.

The following assessment tools are included within every learning experience:

• ![Skills Set](image)
  **Skills Set:** This icon is attached to every strategy in a learning experience, and includes an appendix reference. Appendix A lists the skills learning outcomes that may be targeted for assessment, and provides assessment suggestions.

• ![Suggested Portfolio Selections](image)
  **Suggested Portfolio Selections:** Selected strategies in each learning experience are identified with this icon, indicating that the strategy may result in the creation of products, processes, or performances for inclusion in student portfolios. (See the description of Student Portfolio Tracking Chart above.)

A portfolio is a purposeful collection of work over time that shows the evidence of a student’s knowledge and understanding. Selection is made with regard to student learning goals and/or criteria, and involves self-assessment and reflection. Portfolios show growth and the achievement of learning outcomes.
The following assessment tool appears at the end of every cluster:

- **Connecting and Reflecting**: Every cluster ends with an assessment activity entitled *Connecting and Reflecting*. During this activity, students review their cluster portfolio selections to synthesize their learnings throughout the cluster, and reflect on the implications of those learnings in their daily lives as citizens of their school, their local community, of Canada, or the world. This end-of-cluster activity is an important culminating step. It provides information to both teachers and students about student achievement regarding the essential ideas and understandings of the cluster.

**DOCUMENT COMPONENTS AND STRUCTURE**

The student learning outcomes presented in this document address the four foundation skill areas and nine essential elements common to all Manitoba curricula. The following conceptual map illustrates the foundation skill areas, essential elements, and other key components upon which the Manitoba social studies curriculum is based.

![Conceptual Map](image)

**Figure 4**: Conceptual Map

**General Learning Outcomes**
- Skills
  - Skills for Active Democratic Citizenship
  - Skills for Managing Ideas and Information
  - Critical and Creative Thinking Skills
  - Communication Skills

**Specific Learning Outcomes**
- Knowledge and Values (Organized into Clusters)

**Essential Elements to Be Integrated into Manitoba Curricula**
- Sustainable Development
- Aboriginal Perspectives
- Resource-Based Learning
- Differentiated Instruction
- Gender Fairness
- Subject-Area Connections
- Age-Appropriate Portrayals
- Human Diversity
- Anti-Racist/Anti-Bias Education

**Foundation Skills to Be Integrated into Manitoba Curricula**
- Information Technology
- Problem Solving
- Human Relations
- Literacy and Communication
Core Concept

As illustrated in the preceding Conceptual Map, the core concept of citizenship provides a focus for social studies learning at all grades. Citizenship knowledge, values, and skills learning outcomes are included in each grade. (See page 6.)

Diverse Perspectives

The concept of diversity is integrated throughout the social studies curriculum. Knowledge and values learning outcomes are inclusive of diverse perspectives, and encourage critical consideration of differing viewpoints as students engage in purposeful dialogue with others.

General and Specific Learning Outcomes

This document contains both general and specific learning outcomes. The general learning outcomes are broad statements that provide a conceptual structure for social studies, and are the basis for the specific learning outcomes in each grade. Specific learning outcomes are statements that describe the skills, knowledge, and values that students are expected to achieve in each grade. These three types of specific learning outcomes are interdependent and are intended to be integrated throughout the social studies learning process.

The six general learning outcomes (see page 9), which are the basis for the specific learning outcomes in each grade, are:

• **Identity, Culture, and Community:** Students will explore concepts of identity, culture, and community in relation to individuals, societies, and nations.

• **The Land: Places and People:** Students will explore the dynamic relationships of people with the land, places, and environments.

• **Historical Connections:** Students will explore how people, events, and ideas of the past shape the present and influence the future.

• **Global Interdependence:** Students will explore the global interdependence of people, communities, societies, nations, and environments.

• **Power and Authority:** Students will explore the processes and structures of power and authority, and their implications for individuals, relationships, communities, and nations.

• **Economics and Resources:** Students will explore the distribution of resources and wealth in relation to individuals, communities, and nations.

Skills Learning Outcomes

Social studies involves the development of discipline-related skills, including inquiry and research skills and methods, historical thinking, and geographic thinking. Social studies provides students with opportunities to refine the skills and competencies developed in other subject areas, such as skills in communication and media literacy, collaboration and cooperation, critical and creative thinking, problem solving, and decision making. As students apply these skills to complex social studies problems that may or may not have solutions, they develop competencies integral to active democratic citizenship.
Skills learning outcomes (see page 12) are organized into four categories:

- Skills for Active Democratic Citizenship
- Skills for Managing Information and Ideas
- Critical and Creative Thinking Skills
- Communication Skills

In this document, a list of grade-specific skills appears at the beginning of the grade description. The skills are also integrated in each learning activity in every grade.

A continuum of social studies skills for Kindergarten to Grade 4 is found in Appendix E.

**Knowledge and Values Learning Outcomes**

Knowledge learning outcomes and values learning outcomes are intended to complement one another. Both are presented under each of the six general learning outcomes at the beginning of a grade, and are also grouped according to essential ideas within the learning experiences.

**Distinctive Learning Outcomes**

Some specific learning outcomes are designated as distinctive learning outcomes for Aboriginal (First Nations, Inuit, and Métis) or francophone students. Distinctive learning outcomes complement the specific learning outcomes. They are intended to enhance the development of language, identity, culture, and community for Aboriginal and francophone students.

- Distinctive learning outcomes for **Aboriginal students** are intended for First Nations, Inuit, or Métis students in educational settings that include locally controlled First Nations schools, or settings where there are Aboriginal students, and where the school or school division has agreed that the distinctive learning outcomes be addressed. It is advisable that teachers selected to address the distinctive learning outcomes have a background in Aboriginal culture.

- Distinctive learning outcomes for **francophone students** are intended for students enrolled in schools where francophone programming has been developed within the context of Section 23 of the Charter of Rights and Freedoms.

**DOCUMENT STRUCTURE**

This document contains the following components:

- **Grade Overview**: A brief description of the content and focus of the grade is presented in the grade overview.

- **Cluster Descriptions**: The knowledge and values learning outcomes are organized into thematic groups referred to as clusters. The focus of each cluster is presented in the cluster descriptions.

- **Specific Learning Outcomes**: Skills, knowledge, and values specific learning outcomes are presented in the following order:
  - **Skills**: The skills learning outcomes are organized in four categories, and intended to be integrated through each cluster.
— **Knowledge and Values**: The knowledge and values specific learning outcomes are presented under the Core Concept: Citizenship, and under each of the six general learning outcomes.

— **Cluster/Learning Experiences Overview**: The knowledge and values learning outcomes within each cluster have been divided into smaller groups of related outcomes, referred to as learning experiences. The overview page presents each learning experience with the related knowledge and values learning outcomes.

- **Learning Experiences**: Each learning experience provides a series of activating, acquiring, and applying strategies to address related knowledge and values learning outcomes, and contains the following components:

  — **Skills Progress Chart** (teacher tracking tool)
  
  — **Student Portfolio Tracking Chart** (student tool)
  
  — **Engaging Students in the Cluster** (strategies to activate the cluster)
  
  — **Skills Set** (an icon indicating the skills targeted in the learning activity)
  
  — **Suggested Student Portfolio Selections** (an icon indicating that a strategy may result in the creation of products, processes, or performances for inclusion in student portfolios)
  
  — **Knowledge and Values Learning Outcomes** (targeted outcomes)
  
  — **Description of the Learning Experience**
  
  — **Vocabulary List**
  
  — **Connecting and Reflecting** (end-of-cluster summative assessment activity)

### Knowledge and Values Outcomes

- **Skill Categories:**
  - Active Democratic Citizenship
  - Managing Information and Ideas
  - Critical and Creative Thinking
  - Communication

- **Cluster 1:**
  - **Me**
  - **I Belong**
  - Our Local Community
  - Connecting with Canadians
  - Exploring the World
  - Living in Canada
  - First Peoples
  - Building a Nation (1867-1914)
  - World Geography
  - Understanding Societies Past and Present

- **Cluster 2:**
  - The People around Me
  - My Environment
  - Communities in Canada
  - Early European Colonization (1500 to 1763)
  - An Emerging Nation (1914 to 1945)
  - Global Quality of Life
  - Early Societies of Mesopotamia, Egypt, or the Indus Valley

- **Cluster 3:**
  - The World around Me
  - Connecting with Others
  - The Canadian Community
  - Communities of the World
  - Living in Manitoba
  - Fur Trade
  - Shaping Contemporary Canada (1945 to Present)
  - Ways of Life in Asia, Africa, or Australasia
  - Ancient Societies of Greece and Rome

- **Cluster 4:**
  - Exploring an Ancient Society
  - History of Manitoba
  - From British Colony to Confederation (1763 to 1867)
  - Canada Today: Democracy, Diversity, and the Influence of the Past
  - Human Impact in Europe or the Americas
  - Transition to the Modern World (Circa 500 to 1400)

- **Cluster 5:**
  - Canada’s North
  - Shaping the Modern World (Circa 1400 to 1850)
Guide to Reading the Learning Outcome Code

The first character refers to the learning outcome type:
- S – Skills
- K – Knowledge
- V – Values

The second character, where it appears, refers to the Core Concept or General Learning Outcome:
- C – Citizenship
- I – Identity, Culture, and Community
- L – The Land: Places and People
- H – Historical Connections
- G – Global Interdependence
- P – Power and Authority
- E – Economics and Resources

The third group of characters indicates the numerical order of the Specific Learning Outcome in that grade.

KE-025  Give examples of basic needs.
Examples: food, clothing, shelter...

KL-012  Describe characteristics of the local physical environment.
Include: natural and constructed elements.

Code Specific Learning Outcomes
KE-025  Give examples of basic needs.
Examples: food, clothing, shelter...

KL-012  Describe characteristics of the local physical environment.
Include: natural and constructed elements.

Examples:
- Provide ideas of what could be included (not mandatory).
- Include: Indicates a mandatory component of the specific learning outcome.

Code Distinctive Learning Outcomes
VI-002A  Value the special talents or strengths that are given to them.

KL-015F  Identify familiar places and landmarks.
Examples: parks, statues, buildings, natural landmarks...

Distinctive Learning Outcomes are indicated, at the end of the specific learning outcome code, by the following letters:
- A – Aboriginal
- F – Francophone
People everywhere have the same needs, although they may have different ways of meeting them. Students review the concept of needs and explore how people meet their needs in other places.

Note: Students focused on basic needs in K.1.2, Cluster 1, Learning Experience 2. (See page 62.)

Vocabulary: need, want, world, shelter (See Appendix D for Vocabulary Strategies.)

**KG-020**
Recognize that people all over the world have the same basic needs. 
**KG-021**
Recognize that they may have different ways of meeting their basic needs than people in other parts of the world.

Tip: Students learn about needs and wants in Cluster 1.

**BLM: Basic Needs in Other Places—Picture Sort**

Students browse a variety of pictures of people in other places. They each select one picture to share with peers and identify the basic need being met in the picture. Using clues in the picture, students brainstorm where in the world the picture may have been taken.

Tip: Select a variety of “people in other places” pictures that show people meeting their needs (e.g., carrying water, shopping in an outdoor market, harvesting food by hand…) and if possible, featuring identifiable geographic features and landmarks, as well as cultural images and icons.

**KC-006**
Students plan a class Remembrance Day ceremony and invite parents, community members, and school staff to attend. Activities might include the display of student work from this learning experience in a Gallery Walk, opportunities for students to publicly share their thoughts on Remembrance Day, performance of the “Peace March” or other dramatizations, etc.

Supporting websites can be found at [http:www3.edu.gov.mb.ca/cn/links/ss](http:www3.edu.gov.mb.ca/cn/links/ss)
BEING TOGETHER

Grade Overview
Specific Learning Outcomes
Learning Experiences
**Kindergarten** students explore who they are in relation to others in their world. They become aware of how people live, play, and work together in order to meet their basic needs. Students are encouraged to express interest in the experiences of others and discover their connections to the people around them. As they explore their social and natural environments, they become aware that they live in a country called Canada, and begin to see themselves as part of a larger world.
Cluster 1: Me

Students explore what makes them unique, considering their abilities and interests, and identify groups and places that are important to them. They also examine rules and responsibilities and study basic needs.

Cluster 2: The People Around Me

Students identify the people who care for them and influence their lives. They explore different ways of cooperating, communicating, and solving problems in order to live and work together with others. Students also begin to examine the concept of time by investigating recurring events in their lives.

Cluster 3: The World Around Me

Students study the world around them, exploring the physical environment of their local neighbourhood and learning that they live in a country called Canada. They learn that although all people have the same basic needs, they have different ways of meeting those needs.
Active Democratic Citizenship

Citizenship skills enable students to develop good relations with others, to work in cooperative ways toward achieving common goals, and to collaborate with others for the well-being of their communities. These interpersonal skills focus on cooperation, conflict resolution, taking responsibility, accepting differences, building consensus, negotiation, collaborative decision making, and learning to deal with dissent and disagreement.

Kindergarten students will...

<table>
<thead>
<tr>
<th>S-100</th>
<th>Cooperate and collaborate with others.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Examples: take turns, share space and classroom resources...</td>
</tr>
<tr>
<td>S-101</td>
<td>Consider others’ needs when working and playing together.</td>
</tr>
<tr>
<td>S-102</td>
<td>Interact fairly and respectfully with others.</td>
</tr>
<tr>
<td>S-103</td>
<td>Make decisions that reflect care, concern, and responsibility for the environment.</td>
</tr>
</tbody>
</table>

Managing Information and Ideas

Information-management skills enable students to access, select, organize, and record information and ideas, using a variety of sources, tools, and technologies. These skills include inquiry and research skills that enhance historical and geographical thinking.

Kindergarten students will...

<table>
<thead>
<tr>
<th>S-200</th>
<th>Gather information from oral, visual, material, or print sources.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Use appropriate terms or expressions to describe periods of time.</td>
</tr>
<tr>
<td>S-201</td>
<td>Use tools and technologies to accomplish given tasks.</td>
</tr>
<tr>
<td></td>
<td>Sort information using selected criteria.</td>
</tr>
</tbody>
</table>
Critical and Creative Thinking

Critical and creative thinking skills enable students to make observations and decisions, to solve problems, and to devise forward-thinking strategies. These skills involve making connections among concepts and applying a variety of tools. Critical thinking involves the use of criteria and evidence to make reasoned judgements. These judgements include distinguishing fact from opinion and interpretation, evaluating information and ideas, identifying perspectives and bias, and considering the consequences of decisions and actions. Creative thinking emphasizes divergent thinking, the generation of ideas and possibilities, and the exploration of diverse approaches to questions.

Kindergarten students will...

<tr>
<td>S-404</td>
<td>Relate events and stories in chronological order.</td>
</tr>
</tbody>
</table>
Core Concept: Citizenship

Students will develop the knowledge, skills, and values necessary to become responsible democratic citizens who are actively engaged in their local, national, and global communities.

Citizenship education is fundamental to living in a democratic society. A critical consideration of citizenship provides students with opportunities to explore democratic values, and to determine their responsibilities and rights as participants in civil society. Students explore the complexities of citizenship in Canada and in the global context, as well as environmental citizenship, and citizenship for the future.

This exploration of citizenship helps students develop the knowledge and skills they need to live with others, to understand social change, and to support and promote social well-being. As they engage in public dialogue and debate, students enhance their understanding of citizenship, and are empowered to be active democratic citizens who contribute to the local, national, and global communities to which they belong.

Kindergarten students will...

| KC-001     | Describe their responsibilities at home and in school. |
| KC-002     | Recognize that their actions affect others. |
| KC-003     | Identify people who are responsible for helping and caring for them at home, at school, and in the community. |
| KC-004     | Give examples of ways in which people cooperate in order to live together peacefully. |
| KC-005     | Recognize that they live in a country called Canada. |
| KC-006     | Identify Remembrance Day as a time to think about peace and war. |
| VC-001     | Be willing to contribute to their groups and communities. |

Being Together
**Being Together**

**General Learning Outcomes**

**Identity, Culture, and Community**

*Students will explore concepts of identity, culture, and community in relation to individuals, societies, and nations.*

Many factors influence identity and life in communities, including culture, language, history, and shared beliefs and values. Identity is subject to time and place, and is shaped by a multiplicity of personal, social, and economic factors. A critical consideration of identity, culture, and community provides students with opportunities to explore the symbols and expressions of their own and others’ cultural and social groups. Through a study of the ways in which people live together and express themselves in communities, societies, and nations, students enhance their understanding of diverse perspectives and develop their competencies as social beings. This process enables them to reflect upon their roles as individuals and citizens so as to become contributing members of their groups and communities.

The specific learning outcomes within Identity, Culture, and Community include concepts such as human interaction and interdependence, cultural diversity, national identities, and pluralism.

<table>
<thead>
<tr>
<th>KI-007</th>
<th>Identify groups that are important to them.</th>
</tr>
</thead>
<tbody>
<tr>
<td>KI-008</td>
<td>Recognize that everyone has particular interests and abilities.</td>
</tr>
<tr>
<td>KI-009</td>

</tbody>
</table>
General Learning Outcomes

The Land: Places and People

*Students will explore the dynamic relationships of people with the land, places, and environments.*

People exist in dynamic relationships with the land. The exploration of people's relationships with places and environments creates an understanding of human dependence and impact upon the natural environment. Students explore how spatial and physical characteristics of the environment affect human life, cultures, and societies. They consider how connections to the land influence their identities and define their roles and responsibilities as citizens, locally, nationally, and globally.

The specific learning outcomes within The Land: Places and People focus on geographic understanding and skills, and concepts such as sustainability, stewardship, and the relationship between people and the land.

<table>

Being Together

General Learning Outcomes

Historical Connections

Students will explore how people, events, and ideas of the past shape the present and influence the future.

The past shapes who we are. An exploration of Canadian and world history enables students to acquire knowledge and appreciation of the past, to understand the present, and to live with regard for the future. An important aspect of this process is the disciplined investigation and interpretation of history. Students learn to think historically as they explore people, events, ideas, and evidence of the past. As they reflect upon diverse perspectives, personal narratives, parallel accounts, and oral and social histories, students develop the historical understanding that provides a foundation for active democratic citizenship.

The specific learning outcomes within Historical Connections enable students to develop an interest in the past, and focus on chronological thinking, historical understanding, and concepts such as progress, decline, continuity, and change.

<table>
<thead>
<tr>
<th>KH-017</th>
<th>Give examples of repeating patterns and events in their lives.</th>
</tr>
</thead>

</tbody>
</table>
Global Interdependence

*Students will explore the global interdependence of people, communities, societies, nations, and environments.*

People, communities, societies, nations, and environments are interdependent. An exploration of this interdependence enhances students’ global consciousness and helps them develop empathy with respect to the human condition. Students critically consider diverse perspectives as they examine the connections that link local, national, and global communities. Consideration of global connections enables students to expand their knowledge of the world in which they live and to engage in active democratic citizenship.

The specific learning outcomes within Global Interdependence focus on human rights and responsibilities, diversity and commonality, quality of life and equity, globalization, international cooperation and conflict, and global environmental concerns.

<td>Recognize that people all over the world have the same basic needs. <em>Examples: food, clothing, shelter...</em></td>
<td>Recognize that they may have different ways of meeting their basic needs than people in other parts of the world.</td>
<td>Demonstrate interest in the larger world beyond their immediate environment.</td>
</tr>
</tbody>
</table>
Power and Authority

Students will explore the processes and structures of power and authority, and their implications for individuals, relationships, communities, and nations.

Power and authority influence all human relationships. Students critically examine the distribution, exercise, and implications of power and authority in everyday life and in formal settings. They consider diverse forms of governance and leadership, and inquire into issues of fairness and equity. This exploration helps students develop a sense of personal empowerment as active democratic citizens.

The specific learning outcomes within Power and Authority include concepts such as political structures and decision making, governance, justice, rules and laws, conflict and conflict resolution, and war and peace.

| KP-023             | Identify people who make decisions that influence their lives. |
| KP-024             | Recognize that disagreement or conflict may be part of living and working together. |
| VP-006             | Respect the rules of the classroom, playground, and school. |
Economics and Resources

Students will explore the distribution of resources and wealth in relation to individuals, communities, and nations.

The management and distribution of resources and wealth have a direct impact on human societies and quality of life. Students explore the effects of economic interdependence on individuals, communities, and nations in the global context. They examine economic factors that affect decision making, the use of resources, and the development of technologies. As students explore diverse perspectives regarding human needs, wants, and quality of life, they critically consider the social and environmental implications of the distribution of resources and technologies, locally, nationally, and globally.

The specific learning outcomes within Economics and Resources include concepts such as trade, commerce, and industry, access to resources, economic disparities, economic systems, and globalization.

Cluster 1
Learning Experiences: Overview

K.1.1 Interests and Abilities

KI-008  Recognize that everyone has particular interests and abilities.

VI-002  Value their own and others’ interests and abilities.

VI-002A Value the special talents or strengths that are given to them.

K.1.2 My Basic Needs

KE-025  Give examples of basic needs.

Examples: food, clothing, shelter...
K.1.3 My Important Groups

KI-007 Identify groups that are important to them.

K.1.4 Rules Help Us

KP-022 Give examples of rules and identify their purposes. *Examples: school rules, safety rules...*

VP-006 Respect the rules of the classroom, playground, and school.

VE-007 Respect their own and others’ property.

K.1.5 My Responsibilities

KC-001 Describe their responsibilities at home and in school.

KC-002 Recognize that their actions affect others.

K.1.6 Remembrance Day

KC-006 Identify Remembrance Day as a time to think about peace and war.
Cluster Assessment: Tools and Processes

- **Engaging Students in the Cluster:** These are suggested strategies to activate the cluster and help teachers assess student prior knowledge.

- **Suggested Portfolio Selections:** This icon is attached to strategies that may result in products, processes, or performances for inclusion in student portfolios.

- **Student Portfolio Tracking Chart:** This chart is designed for students to track their portfolio selections throughout the cluster. It is located in Appendix C.

- **Skills Set:** This icon identifies the skills that may be targeted for assessment during each strategy, and provides suggestions for that assessment. Skills assessment information is located in Appendix A.

- **Skills Progress Chart:** This teacher tool lists every skills learning outcome for a particular grade. It is intended to monitor individual student progress related to skills in each cluster and throughout the grade. It is located in Appendix C.

- **Connecting and Reflecting:** This is the end-of-cluster assessment activity.

Students explore what makes them unique, considering their abilities and interests, and identify groups and places that are important to them. They also examine rules and responsibilities and study basic needs.
Being Together

Engaging Students in the Cluster

- Invite guests (e.g., older students, staff members, community members…) to share their interests and abilities.
- Students contribute pictures of themselves engaged in a group activity to a bulletin board display.
- Take photos of students acting responsibly in the classroom and create a “Classroom Helpers” bulletin board display.
- Create a literature center of books featuring characters with a variety of interests and abilities.
- Share your abilities and interests with the class and describe why they make you unique.
- Provide students with mirrors to observe themselves and others and describe their interests and abilities and what makes them unique.
- Students make images of their fingerprints and examine them under magnifying glasses to observe how fingerprints are different and unique.
- Play “I’m thinking of someone in our class who…” Students describe a peer who acts responsibly.

Description of the Learning Experience

Every person belongs to a variety of groups and communities. Students explore the groups that are important to them.

Vocabulary: group, belong, play, work, family, people, school, community (See Appendix D for Vocabulary Strategies.)

K.1.3 My Important Groups

<table>
<thead>
<tr>
<th>Assessment</th>
<th>Outcomes</th>
<th>Strategies</th>
</tr>
</thead>
<tbody>
<tr>
<td>KI-007</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Identify groups that are important to them.

**Activate**

Students play “Musical Groups”. Based on Musical Chairs, students play a movement game to create groups with different numbers of members. Students stand in an area where they can move around. Students listen to music and move freely about the area, not touching each other. Stop the music and call out the size of a group, (e.g., “Make a group of two.”) Students join together to make groups of two. After they have done several variations of groups sizes, they discuss and define the meaning of the word “group”.

Tip: If space is not available to play this as a physical movement game, consider using concrete objects (e.g., blocks, marbles…) and have individual students make number groups with their objects.
### K.1.3 My Important Groups

**Teacher Reflections**
Description of the Learning Experience

Rules are necessary for people to live together in society. Respect for both rules and for the property of others allows us live together peacefully. Students explore the purpose of rules, and promote the importance of respecting rules and others’ property.

Vocabulary: respect, rules, property (See Appendix D for Vocabulary Strategies.)

### Learning Experience: K.1.4 Rules Help Us

| KP-022 | Give examples of rules and identify their purposes. Examples: school rules, safety rules...
| VP-006 | Respect the rules of the classroom, playground, and school.
| VE-007 | Respect their own and others’ property.

#### K.1.4 Rules Help Us

**Assessment**

| KP-022 | Give examples of rules and identify their purposes. Examples: school rules, safety rules...
| VP-006 | Respect the rules of the classroom, playground, and school.
| VE-007 | Respect their own and others’ property.

**Outcomes**

| KP-022 | Give examples of rules and identify their purposes. Examples: school rules, safety rules...
| VP-006 | Respect the rules of the classroom, playground, and school.
| VE-007 | Respect their own and others’ property.

**Strategies**

**Activate**

- Students brainstorm examples of groups that work and play together in their classroom, playground, and school. Students discuss the actions of group members that enable the groups to work and play together in a peaceful manner (e.g., sharing, respecting others...). As a class, students compose and sing a song describing ways in which groups work and play together (e.g., “I am a group member. This is what I do. I listen and take turns. I share things too... sung to the tune of “Frère Jacques”).

- Students listen to stories involving rules. Students discuss the purposes of rules and the consequences of characters’ actions and decisions related to obeying or disobeying rules. Students identify similar rules in their classroom, playground, and school.

**Teacher Reflections**

(continued)

Students share an example of a time they made a decision that demonstrated respect for rules and property, and a time that their lives were influenced by the decisions of others related to rules in the classroom, playground, or school. Students discuss why it is important to respect rules.

**Acquire (continued)**

Collaborative groups of students role-play classroom, playground, or school scenarios involving rules or respect for property. Students identify the rules being obeyed or disobeyed, describe the purpose of the rule being dramatized, and suggest alternative actions that may demonstrate respect for others.

**or**

Collaborative groups of students discuss rules that will make their classroom, playground, and school a safe and happy place. Students share their examples with the class and develop a set of rules for the classroom, playground, and school that everyone agrees are important.

**or**

Students view a video and/or digital pictures of students interacting in the classroom, playground, and school and discuss examples of ways in which students are obeying rules and respecting their own and others’ property. Students identify positive actions and describe ways in which they may improve their actions to better demonstrate respect for others.

Tip: Videotape or photograph students at work and play around the classroom, playground, and school for this discussion.

**Apply**

Students create posters illustrating examples of individuals obeying rules and respecting others’ property in the classroom, playground, or school. Students display their posters and describe them to the class.

TIP: Students may include digital photos of students in the classroom, playground, or school on their posters. Posters may be posted in public areas of the school to help promote respect for rules.

**Collaborative groups of students create a collage or mural illustrating examples of individuals obeying rules and respecting others’ property in the classroom, playground, and school. Students display their collages or murals and describe them to the class.**

| KP-022     | VP-006   | VE-007     |

**Collaborative groups of students compose and present piggyback songs that reinforce the importance of obeying rules and respecting others’ property. Students sing the songs during regular classroom routines (e.g., clean-up time, hometime, recess...). Tip: A piggyback song is created by writing new words to a familiar tune or nursery rhyme (e.g., “This is the way we clean the blocks, clean the blocks, clean the blocks. This is the way we clean the blocks, when we’re finished playing.” sung to the tune of “The Mulberry Bush”).**

| KP-022     | VP-006   | VE-007     |

**Students choose a class mascot to represent the importance of obeying rules and respecting others’ property in the classroom, playground, and school. If conflict arises, students role-play the situation with the mascot in order to find a peaceful resolution. As a class, students compose a story describing ways in which the class mascot obeys the rules and respects others’ property, and present the story to another class or at a school assembly.**

| KP-022     | VP-006   | VE-007     |

**Collaborative groups of students create a multimedia presentation illustrating examples of rules and their purpose, and the importance of respecting rules and others’ property. Students choose an area of the school (e.g., classroom, playground…) and create a slide illustrating examples of students interacting with one another. Students record and insert sound clips describing how the example illustrates respect for rules and others’ property. Using a map of the school and playground as the title slide create links to group presentations and compile in a class presentation.**

| KP-022     | VP-006   | VE-007     |

**Teacher Reflections**
Description of the Learning Experience

Just as respecting rules allows us to live together peacefully, so too does acting responsibly. Students explore various responsibilities they have at home and in school and identify ways in which their actions affect others.

Vocabulary: responsibility, actions, affect (See Appendix D for Vocabulary Strategies.)

### K.1.5 My Responsibilities

<table>

Through discussion and consensus decision making, they agree upon and conduct a community action project. Students present the results of their project during a school assembly and describe the positive influence their actions had on others. |

**Teacher Reflections**
Being Together

**Learning Experience: K.1.6 Remembrance Day**

**KC-006** Identify Remembrance Day as a time to think about peace and war.

---

**Description of the Learning Experience**

Remembrance Day is an important day in the lives of Canadians. Students explore the concepts of peace and war and peaceful conflict resolution, as well as the symbols of Remembrance Day.

**Note:** In order to provide students with appropriate learning activities and before introducing the concept of war, conduct a class inventory to determine if students have parents involved in the military, or friends or family members who are veterans, have personal experiences of war, and other related experiences. Be aware of students who may be refugee victims of war and who will require sensitivity during this learning experience.

**Vocabulary:** remember, remembrance, peace, war (See Appendix D for Vocabulary Strategies.)

Students go on a “Peace March”. They write a class poem/song for peace, using the model “1, 2 buckle my shoe” (e.g., 1, 2, peace for you 3, 4, no more war…). They memorize the poem/song and recite it while marching about the classroom.

Tip: Have students demonstrate their “Peace March” for other classes in the school.

| KC-006 |          | **or** |

Students plan a class Remembrance Day ceremony and invite parents, community members, and school staff to attend. Activities might include student work from this learning experience displayed in a Gallery Walk, opportunities for students to publicly share their thoughts on Remembrance Day, performance of the “Peace March”, or other dramatizations, etc.

Supporting websites can be found at [http://www3.edu.gov.mb.ca/cn/links/ss](http://www3.edu.gov.mb.ca/cn/links/ss)

---

**Teacher Reflections**
Using their “Me” portfolio, students share examples of ways they are unique and show how they can help others.
Cluster 2
Learning Experiences: Overview

K.2.1 Important People in My Life
- KC-003 Identify people who are responsible for helping and caring for them at home, at school, and in the community.
- KI-009 Identify groups in which people live, work, and play together.
- KP-023 Identify people who make decisions that influence their lives.

K.2.2 Different Types of Work
- KE-026 Give examples of different types of work in their families, schools, and communities.
- VE-008 Value the sharing of work and resources.
K.2.3 Communication

KI-010 Identify different ways people communicate.
   Examples: art, dance, song, facial expression, body language, sign language...

KI-010A Recognize the importance of non-verbal communication in their Aboriginal culture.

K.2.4 Stories and Celebrations

   KI-011 Recognize that people have diverse celebrations.
   Kh-019 Recognize that they can learn from stories of the past.
   VH-004 Demonstrate interest in stories of the past.

K.2.5 Getting Along

   KC-004 Give examples of ways in which people cooperate in order to live together peacefully.
   KP-024 Recognize that disagreement or conflict may be part of living and working together.
   VC-001 Be willing to contribute to their groups and communities.

K.2.6 Time

   KH-017 Give examples of repeating patterns and events in their lives.
      Examples: class routines, celebrations, Canada Day, Earth Day...
   KH-018 Distinguish between yesterday, today, and tomorrow.
Cluster Assessment: Tools and Processes

- **Engaging Students in the Cluster**: These are suggested strategies to activate the cluster and help teachers assess student prior knowledge.

- **Suggested Portfolio Selections**: This icon is attached to strategies that may result in products, processes, or performances for inclusion in student portfolios.

- **Student Portfolio Tracking Chart**: This chart is designed for students to track their portfolio selections throughout the cluster. It is located in Appendix C.

- **Skills Set**: This icon identifies the skills that may be targeted for assessment during each strategy, and provides suggestions for that assessment. Skills assessment information is located in Appendix A.

- **Skills Progress Chart**: This teacher tool lists every skills learning outcome for a particular grade. It is intended to monitor individual student progress related to skills in each cluster and throughout the grade. It is located in Appendix C.

- **Connecting and Reflecting**: This is the end-of-cluster assessment activity.

---

Students identify the people who care for them and influence their lives. They explore different ways of cooperating, communicating, and solving problems in order to live and work together with others. Students also begin to examine the concept of time by investigating recurring events in their lives.
Being Together

The People Around Me

Engaging Students in the Cluster

• Create a bulletin board of people responsible for caring for others.

• Students take a school or community walk to observe examples of people cooperating and helping others.

• Students contribute pictures of people working, living, or playing together in groups to create a class collage.

• Create a display of books featuring characters who are helpful, cooperative, and caring.

• Students come dressed in costume representing a person who helps others.

• Create an artifact center of various devices used to measure time.

**Teacher Reflections**
Being Together

The People Around Me

Learning Experience: K.2.4 Stories and Celebrations

KI-011 Recognize that people have diverse celebrations.
KH-019 Recognize that they can learn from stories of the past.
VH-004 Demonstrate interest in stories of the past.

Description of the Learning Experience

Every culture has traditional celebrations and stories. Students explore the diversity and importance of celebrations and come to understand the value of stories from the past.

Note: Some of the activities in this learning experience may require teacher sensitivity to student cultural background and/or family situations.

Vocabulary: celebration, past, tradition (See Appendix D for Vocabulary Strategies.)

<td></td>
<td></td>
</tr>
<tr>
<td>VC-001</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Skill 1**

- KC-004
- KP-024
- VC-001

Students identify groups to which they belong (e.g., clubs, sports, cultural groups...). Students describe the purpose of the group, ways in which group members cooperate with one another, and examples of how disagreement and conflict are resolved in the group. Students illustrate their interactions within the group and describe ways in which they are contributing group members.

**Skill 10** or **KC-004, KP-024, VC-001**

Students compare and contrast feelings related to cooperation and conflict. Students first give examples of times they have experienced disagreement or conflict, and brainstorm words to describe their feelings. Students identify strategies that help resolve disagreement or conflict, and discuss why it is important to cooperate in, and contribute to their groups and communities. Students then brainstorm words to describe their feelings when they are cooperating and contributing to their groups. Students illustrate their feelings when they cooperate and contribute to their groups and communities, and their feelings when they experience disagreement or conflict.

**Acquire**

Students create personal “Days of the Week” calendars. Students brainstorm a list of repeating school routines (e.g., gym class, assembly, piano lessons...). Using symbols and words, record the events on a large wall-size calendar. Students cut out the names of the days of the week and glue them into a “Days of the Week” calendar, and record repeating school events.

Tip: Alternately, brainstorm daily household routines. For this activity, choose either version of the weekly calendar - wheel or chart - depending on students’ needs. A wheel helps students understand the cyclical, repeating pattern of the days of the week, while the chart better resembles a real calendar.

BLM: Time—Days of the Week Wheel

**KH-017** or **KH-018**

BLM: Time—Days of the Week Chart

---

Students brainstorm yearly repeating patterns and events (e.g., birthdays, celebrations, weather patterns, seasonal routines...). Students browse calendars and identify the time of year the repeating events occur. Students illustrate symbols on sticky notes and place them on a class calendar to represent the repeating events.

TIP: Students may use a word-processing calendar template and insert images representing repeating events.

---

Students fold and divide a sheet of paper into three sections and label sections with the words yesterday, today, and tomorrow. Students survey peers to identify something they did at each of the three times, and illustrate the event in the appropriate section. Students share their three-day calendars with peers and identify repeating patterns and events.

### Teacher Reflections
Cluster 2—Connecting and Belonging:

Using their “The People Around Me” portfolio, students share examples of ways we depend on others and show how they can express appreciation to the people around them.

BLM: The People Around Me: Connecting and Reflecting

Teacher Reflections
Being Together

The World Around Me
Cluster 3
Learning Experiences: Overview

K.3.1 Landmarks in My Community

KL-014  Describe the location of their home in relation to familiar landmarks.
        Include: the name of their village, town, city, or First Nation community.

KL-015  Identify familiar places and landmarks.
        Examples: parks, statues, buildings, natural landmarks...

KL-015F Identify meeting places where they can associate with other francophones.

K.3.2 The Natural Environment

KL-012  Describe characteristics of the local physical environment.
        Include: natural and constructed elements.

KL-013  Give examples of how the natural environment influences daily life.
        Examples: work, play, clothing...

VL-003  Appreciate the beauty and importance of the natural environment.
KC-005 Recognize that they live in a country called Canada.

K.3.4 Canada, Our Country

KG-020 Recognize that people all over the world have the same basic needs. *Examples: food, clothing, shelter...*

KG-021 Recognize that they may have different ways of meeting their basic needs than people in other parts of the world.

K.3.5 Basic Needs in Other Places

KL-016 Recognize globes, maps, and models as representations of actual places.

VG-005 Demonstrate interest in the larger world beyond their immediate environment.

K.3.3 Globes, Maps, and Models
### Cluster Assessment: Tools and Processes

- **Engaging Students in the Cluster:** These are suggested strategies to activate the cluster and help teachers assess student prior knowledge.

- **Suggested Portfolio Selections:** This icon is attached to strategies that may result in products, processes, or performances for inclusion in student portfolios.

- **Student Portfolio Tracking Chart:** This chart is designed for students to track their portfolio selections throughout the cluster. It is located in Appendix C.

- **Skills Set:** This icon identifies the skills that may be targeted for assessment during each strategy, and provides suggestions for that assessment. Skills assessment information is located in Appendix A.

- **Skills Progress Chart:** This teacher tool lists every skills learning outcome for a particular grade. It is intended to monitor individual student progress related to skills in each cluster and throughout the grade. It is located in Appendix C.

- **Connecting and Reflecting:** This is the end-of-cluster assessment activity.

### Cluster Description

Students study the world around them, exploring the physical environment of their local neighbourhood and learning that they live in a country called Canada. They learn that although all people have the same basic needs, they have different ways of meeting those needs.
• Display a Canadian flag in the classroom year round and make reference to it at appropriate times (e.g., singing the national anthem, in discussions…).

• Display a poster of the national anthem lyrics and invite students to create pictures to illustrate the poster.

• Create a Canada bulletin board display with pictures representing every territory and province.

• Create a book display of Canadian landscapes.

• Create a Canada center with artifacts, icons, and art (e.g., coins, souvenirs, flag, reproductions, music…).

• Using pictures and guided imagery representing Canadian places, take students on an imaginary bus ride of Canada. Using the senses, children describe what they see, hear, and smell along the way.

• Students view video clips of people in other places in the world to observe various ways of meeting basic needs (e.g., food, clothing, shelter…).

• Display a Canadian wall map and have students mark places they have visited.

• Create a mapping center with a variety of globes, maps, and models representing Canadian places.

• Create a visual display illustrating examples of how our basic needs are met by the Canadian natural environment (e.g., food—wheat/bread, fish, fruit; water; shelter—trees/wood; minerals…).
Description of the Learning Experience

Students explore familiar places and landmarks in their community and explore how landmarks can be references to locate their homes and other familiar places.

Vocabulary: location, landmark (See Appendix D for Vocabulary Strategies.)

### K.3.1 Landmarks in My Community

<table>
<thead>
<tr>

Note: Francophone distinctive learning outcomes are not intended for all students (see page 36 of the Overview)

**Activate**

KL-014, KL-015

Students bring in photographs or pictures of familiar places and landmarks and share them with the class, describing the relative location of their home in relation to the landmark (e.g., “My apartment is in Winnipeg, on the river, close to Assiniboine Park.”; “My house is in Steinbach, one block from the water tower.”…). Students discuss why the places and landmarks are significant.

**Teacher Reflections**

Students brainstorm familiar places and landmarks in the community (e.g., park, statue, school, river...). Students discuss the importance of the landmarks and create an illustration of their homes in relation to local landmarks.

Students exchange invitations with a partner and describe aloud the relative location of their home and how to get there from the school.</td>
</tr>
</tbody>
</table>

### Teacher Reflections
Description of the Learning Experience

Our daily lives are influenced by and dependent on the natural environment. Students explore the physical characteristics of their community and discover its importance in their lives. As well, they learn that they can take personal action to support the environment.

**Vocabulary:** natural, constructed, physical, environment, influence, appreciate, beauty, beautiful, important, action (See Appendix D for Vocabulary Strategies.)

### K.3.2 The Natural Environment

<table>
<thead>
<tr>
<th>Assessment</th>
<th>Outcomes</th>
<th>Strategies</th>
</tr>
</thead>
<tbody>
<tr>
<td>KL-012</td>

<tr>
<td>KL-013</td>
<td>Give examples of how the natural environment influences daily life. Examples: work, play, clothing...</td>
<td></td>
</tr>
<tr>
<td>VL-003</td>
<td>Appreciate the beauty and importance of the natural environment.</td>
<td></td>
</tr>
</tbody>
</table>

**Activate**

As an Admit Slip, students submit “beautiful” pictures of the natural environment they bring from home and describe what they find to be beautiful in the images. Students post pictures on a bulletin board display entitled “Our Beautiful Land” and brainstorm examples of the importance and influence of the natural environment.

Discuss the difference between natural and constructed elements. In the classroom or playground students play “I spy with my little eye” to identify examples of natural and constructed elements (e.g., “I spy something that is tall.” “I spy something that is brown and green.” Answer: tree. “I spy something that is square.” “I spy something that is clear.” Answer: window). Once students identify the element, they state whether it is natural or constructed and discuss ways in which the natural elements influence their daily lives.

#### Apply

- **KL-012**
- **KL-013**
- **VL-003**

Students create a class book describing the local environment. Using sentence frames modelled after “Brown Bear, Brown Bear”, students illustrate examples of natural and constructed elements in their community, describe the beauty and importance of the natural environment, or give examples of ways in which the natural environment influences their daily lives.

**K.3.2 d** BLM: The Natural Environment—Class Book

---

- **VL-003**

Students view video images of Canadian landscapes and identify physical characteristics of the environment. They identify and discuss natural elements they perceive to be beautiful or important as they view the images.

Tip: View the video images twice. View once without interruption. On the second viewing, have students raise their hands as a signal to pause the video tape so they may immediately identify natural elements.

---

- **KL-012**
- **KL-013**
- **VL-003**

Collaborative groups of students create a multimedia presentation illustrating natural and constructed elements of the local environment. Students select digital or sketch-and-scan images of characteristics of the physical environment. They record and insert sound clips describing the beauty and importance of the environment, as well as ways in which the environment influences their daily lives. Compile group presentations in a class presentation.

---

- **KL-012**
- **KL-013**
- **VL-003**

Collaborative groups of students create a collage or mural illustrating natural and constructed features of the local environment. Students illustrate ways in which various elements influence their daily lives, and describe the beauty and importance of the natural environment.

(continued)

---

### Teacher Reflections
### K.3.2 The Natural Environment

<table>
<thead>
<tr>
<th>Assessment</th>
<th>Outcomes</th>
<th>Strategies</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td><strong>Apply</strong> (continued)</td>
</tr>
</tbody>
</table>

**or**

Collaborative groups of students use props (e.g., clothing, tools, sporting equipment…) to dramatize characteristics of the physical environment, examples of how the natural environment influences daily life, and to demonstrate their appreciation for the beauty and importance of the natural environment. They present their vignettes to peers, who try to determine the physical characteristics and influences being demonstrated. After each presentation, performing students point out examples from their performance that demonstrate the beauty and importance of the natural environment.

**or**

Students construct a model of the local physical environment, including examples of both natural and constructed elements. In a presentation to their peers, students indicate the natural and constructed elements in their model, explain the beauty and importance of the natural environment, and describe ways in which the natural environment influences their daily lives.

**or**

Collaborative groups of students plan and conduct a day to celebrate the physical environment. Students identify activities that are influenced by or dependent on natural and constructed elements in their local environment. Students create posters to highlight those activities and illustrate the beauty and importance of the natural environment. They may display their posters around the school and invite other students to participate in the celebratory activities.

Tip: Consider timing this strategy to coincide with Earth Day on April 22.

Supporting websites can be found at [www3.edu.gov.mb.ca/cn/links/ss](http://www3.edu.gov.mb.ca/cn/links/ss)

**or**

Students write letters to “Mother Nature”, thanking her for the characteristics of the local physical environment, identifying examples of how the natural environment influences their daily lives, and explaining why they appreciate the beauty and importance of the natural environment.

Tip: Consider writing similar letters to members of the community (e.g., politicians, conservation officers…) who are involved in decisions affecting the environment.

**Teacher Reflections**
### K.3.2 The Natural Environment

**Assessment**

<table>
<thead>
<tr>
<th>KL-012</th>
<th>VL-003</th>
</tr>
</thead>
</table>

**Outcomes**

Students engage in actions to support the environment. Students discuss the beauty and importance of the natural environment and identify actions they can take to support it (e.g., cleaning up litter, recycling, conserving water…). Ideas are recorded on a class “Environmental Actions” chart and posted in the classroom. Through guided discussion, students discuss the importance of taking action, in school and away from school. At regular times (e.g., once a week during opening exercises…) students share environmental actions they have taken.

**Strategies**

Tip: To encourage positive environmental behaviour, consider listing students names on the “Environmental Actions” chart and attaching a symbol (e.g., smiling sun…) beside their name as a reward for each time they share a positive action they have taken at school or home. As well, randomly “catch” students taking positive environmental action in the classroom or school yard and award symbols for the chart.

---

**Teacher Reflections**
Globes, maps, and models are abstract representations of real places on the earth. Students explore different representations of their world and become more aware of the larger world outside of their community.

**Vocabulary**: globe, map, model, representations, world, earth (See Appendix D for Vocabulary Strategies.)

### K.3.3 Globes, Maps, and Models

**Activate**

**K.3.4 Canada, Our Country**

### Assessment

#### Outcomes

#### Strategies

**Apply**

- **KC-005** Collaborative groups of students create Canadian symbols collages. Using a wall-sized outline of a particular symbol (e.g., maple leaf), for the shape of the collage, each group finds or draws pictures of maple leaves, cuts them out, and glues them to fit inside the borders of the maple leaf outline.

  Tip: Consider having each group create a collage of a different symbol and display all of the symbols in a public area of the school in anticipation of Canada Day. To draw a wall size image of a symbol, select an image from the BLM and, with an overhead projector, project it on the wall for easy enlarging.

  **BLM: Canada, Our Country—Collage Outlines**

- **KC-005** Students listen to stories and music by Canadian artists and discuss what it means to them to be a citizen of Canada.

- **KC-005** Students generate questions and invite a guest who has immigrated to Canada to visit the class and share why they chose Canada to be their home. Students compose a collaborative class thank you letter to mail to the guest.

- **KC-005** Students celebrate Canada Day at the end of the school year. Activities could include: the creation of oversize Canadian symbols to decorate the classroom or school; cooking or eating traditional Canadian foods (e.g., pea soup, bannock, maple candy, tourtière...); dressing in red and white, distributing miniature Canadian flags they have made to other students in the school, and awarding “Good Citizens” awards to deserving individuals in the school and community.

  Tip: Encourage students to attend a community Canada Day event with their parents on July 1st.

</table>
|          | KG-020   | KG-021   | **Students celebrate their connections to people in other places and recognize that people all over the world have the same basic needs by engaging in a “World Picnic”. Set up a food-tasting centre with a variety of imported fruits (e.g., pineapple from Hawaii, orange from Florida, banana from Columbia, kiwi from Australia…). Label each fruit with its country of origin, and as well, post the names of each represented country on a wall map of the world. Students taste each food item, and, using sticky notes, rate its flavour using a star system (e.g., one star for OK, four stars for very, very yummy). They note the country of origin label beside the food, and place their sticky note beside the matching name on the world map.**  

Tip: Play music from other countries or sing songs in different languages to add a musical dimension to the “World Picnic”. Consider asking parents to contribute the various fruits for this activity, (already cut up), making certain they indicate the country of origin. |

**Teacher Reflections**
Using their “The World Around Me” portfolio students share examples of things that are beautiful in the natural environment and explain why they are important to them.

1 – Active Listening

Skills

<table>
<thead>
<tr>
<th>S-102</th>
<th>Interact fairly and respectfully with others.</th>
</tr>
</thead>
<tbody>
<tr>
<td>S-200</td>
<td>Gather information from oral, visual, material, or print sources.</td>
</tr>
<tr>
<td>S-400</td>
<td>Listen actively to others.</td>
</tr>
</tbody>
</table>

Active listening is an integral component of all learning. Students use active listening skills in a wide variety of classroom experiences including brainstorming, discussion, collaborative group activities, listening to instructions and presentations, and viewing media. To develop active listening skills, students need opportunities to practise the physical behaviours, positive attitudes, and cognitive skills that enable them to become effective learners. Information on specific active listening strategies is found on page 8 of “Strategies That Make a Difference” (Manitoba Education and Training, 1996a).

Think about…

- Focusing assessment on a manageable number of outcomes/students
- Constructing student-generated criteria for What does an active listener look/sound like?
- Recording focused observations to monitor student growth over time as well as determine which students need differentiation
- Guiding self-assessment, using a Met/Not-Yet-Met strategy
- Orally guiding/facilitating reflection, using a Y-chart or journals

## Appendix A – Skills Assessment

### 2 – Brainstorming

<table>
<thead>
<tr>
<th>Skills</th>
<th>Description</th>
</tr>
</thead>
</table>
| S-100  | Cooperate and collaborate with others.  
  Examples: take turns, share space and classroom resources… |
| S-102  | Interact fairly and respectfully with others. |
| S-200  | Gather information from oral, visual, material, or print sources. |
| S-400  | Listen actively to others. |
| S-401  | Use language that is respectful of others. |

Brainstorming is an individual, small-group, or large-group strategy that encourages students to focus on a topic and contribute to a free flow of ideas to explore what they know or may want to know about a topic. The teacher or students may stimulate thinking by posing questions, reading brief text excerpts, or displaying pictures or other media. All ideas that are contributed are accepted, and no efforts are made to judge or criticize their validity or appropriateness. Individual brainstorming allows the student to focus on what he or she knows about a topic and a variety of possible solutions to a problem. Similarly, group brainstorming allows students to focus on what they know about the topic, but also exposes the students to the ideas and knowledge of others. This allows individuals to piggyback on the ideas of others, and to extend, revise, and incorporate new ideas into their thinking. Essential behaviours in brainstorming include active listening, acceptance of others’ contributions, temporary suspension of judgment, and openness to new ideas.

Think about…

- Focusing assessment on a manageable number of outcomes/students
- Recording focused observations to determine prior knowledge, gaps, and starting points for instruction
- Adding on to the initial brainstorm using a different-colour marker/font to show growth of knowledge, skills, and attitudes over time
- Orally guiding/facilitating reflection on What do we/I notice about our/my thinking; Evidence of our/my thinking is…, using a Y-chart or journals

### BLMs

Note: The following departmental publication is available at the Manitoba Text Book Bureau.  
*Independent Together: Supporting the Multilevel Learning Community*

- BLM 5: Focused Observation Form
3 – ORAL COMMUNICATION

3a – Discussion

<table>
<thead>
<tr>
<th>Skills</th>
<th>Description</th>
</tr>
</thead>
</table>
| S-100   | Cooperate and collaborate with others.  
Examples: take turns, share space and classroom resources… |
| S-102   | Interact fairly and respectfully with others. |
| S-200   | Gather information from oral, visual, material, or print sources. |
| S-400   | Listen actively to others. |
| S-401   | Use language that is respectful of others. |
| S-402   | Express reasons for their ideas and opinions. |

Discussion provides students with opportunities to generate and share their questions and ideas related to a concept, issue, object, or experience. Vary the setting of discussions to include both large- and small-group activities to encourage participation by all students. In the exchange of ideas that occurs in discussion, students contribute ideas, listen carefully to what others have to say, think critically, and develop positions or relevant arguments. Emphasize active listening during discussion, and model both the affective and cognitive skills students need to become active participants in discussions that reflect higher-order thinking. Discussions provide teachers with valuable information to assess student understanding, as well as the students’ values and attitudes.

Think about…

- Focusing assessment on a manageable number of outcomes/students
- Constructing student-generated criteria for What does a discussion group member look/sound like?
- Focusing assessment on the accuracy and completeness of the information
- Recording focused observations to determine affective and cognitive skills or higher-order thinking skills
- Guiding self-assessment, using a Met/Not-Yet-Met strategy
- Orally guiding/facilitating reflection, using a Y-chart or journals

BLMs

Note: The following departmental publications are available at the Manitoba Text Book Bureau.

Independent Together: Supporting the Multilevel Learning Community
- BLM 1: Reflection—Metacognition
- BLM 2: Constructing Student-Generated Criteria for Quality Work

3b – Sharing Personal Experiences

Skills

<table>
<thead>
<tr>
<th>Grade</th>
<th>Skill Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>S-102</td>
<td>Interact fairly and respectfully with others.</td>
<td></td>
</tr>
<tr>
<td>S-401</td>
<td>Use language that is respectful of others.</td>
<td></td>
</tr>
</tbody>
</table>

Opportunities to share personal experiences with the whole class or in smaller discussion groups allow students to develop confidence in communicating familiar events or experiences. This develops oral communication skills, sensitivity to diverse audiences, and awareness of protocols for being a respectful, attentive listener. It also allows students to connect experiences outside the school with learning in the classroom. Peers develop active listening skills as classmates learn to express their thoughts and ideas in an organized way. Encourage students to use W-5 questions (Who? What? Where? When? Why?) to communicate the personal experiences they are sharing.

Think about…

• Focusing assessment on a manageable number of outcomes/students
• Establishing a safe environment where students will feel comfortable sharing personal experiences
• Constructing student-generated criteria for What does a member look/sound like?
• Recording focused observations to determine oral communication skills, connections, or organization of thoughts and ideas
• Guiding self-assessment, using a Met/Not-Yet-Met strategy
• Orally guiding/facilitating reflection, using a Y-chart or journals

BLMs

Note: The following departmental publication is available at the Manitoba Text Book Bureau. *Independent Together: Supporting the Multilevel Learning Community*

- BLM 1: Reflection—Metacognition
- BLM 5: Focused Observation Form
3c – Relating Events

Skills

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>S-202</td>
<td>Use appropriate terms or expressions to describe periods of time.</td>
</tr>
<tr>
<td>S-401</td>
<td>Use language that is respectful of others.</td>
</tr>
<tr>
<td>S-404</td>
<td>Relate events and stories in chronological order.</td>
</tr>
</tbody>
</table>

Students may relate events orally, graphically, or through written text. Relating events provides students with opportunities in sequencing, identifying relationships or patterns between/among details, and chronologically retelling familiar events or experiences. Model various ways of sorting and organizing information and provide frequent opportunities for students to talk about the procedures they use to organize information. Provide direct instruction in the use of signal words (i.e., first, second, third, last, at the beginning, at the end, next, then, after, finally, at the same time). Observe students’ skills in identifying patterns and relationships among ideas and information.

Think about…

- Modelling and guiding Relating Events through literature and think-alouds
- Focusing assessment on the accuracy and completeness of the information
- Recording focused observations to determine skills in sequencing and identifying relationships
- Offering descriptive feedback

BLMs

Note: The following departmental publications are available at the Manitoba Text Book Bureau.

*Independent Together: Supporting the Multilevel Learning Community*

- BLM 5: Focused Observation Form

*Kindergarten to Grade 4 English Language Arts: A Foundation for Implementation, “Strategies That Make a Difference”*

- BLM 62: Story Map—B
- P. 211: Storyboards
- P. 212: Story Vines
Collaborative learning provides students with opportunities to work together to accomplish shared goals. Collaborative learning experiences help students develop greater self esteem and positive relationships with their peers, as well as skills related to problem solving, decision making, and critical/creative thinking. Frequent experience in a variety of collaborative groupings allows students to gain expertise in various roles (e.g., leader, recorder, reporter, timekeeper…) and practise interacting fairly and respectfully with one another. Emphasize that both the individual and group are accountable in collaborative learning experiences.

Think about…

• Focusing assessment on a manageable number of outcomes/students
• Constructing student-generated criteria for What does a quality collaborative group/group member look/sound like?
• Offering descriptive feedback
• Recording focused observations to assess group process
• Guiding self- and peer assessment, using a Met/Not-Yet-Met strategy
• Orally guiding/facilitating reflection, using a Y-chart or journals

BLMs
Note: The following departmental publications are available at the Manitoba Text Book Bureau.

• BLM 1: Reflection—Metacognition
• BLM 2: Constructing Student-Generated Criteria for Quality Work
• BLM 5: Focused Observation Form

Kindergarten to Grade 4 English Language Arts: A Foundation for Implementation, “Strategies That Make a Difference”
• BLM 56: Checklist and Learning Log
• BLM 57: Self-Assessment of a Collaborative/Co-operative Task
5 – Using Graphic Organizers

Frames and graphic organizers are tools that assist students with thinking, organizing, comprehending, and representing texts. Frames and graphic organizers are also referred to as thinking frames, webs, thinking maps, mind maps, semantic maps, and concept organizers. Model the use of frames (e.g., webbing brainstorming contributions, using various types of frames to organize the same information…), and discuss the role of frames in helping students organize their thinking. Provide frequent opportunities for students to practise using familiar frames and introduce additional types of frames as appropriate.

Think about…
• Teaching and modelling the use of one graphic organizer at a time (Note: It takes approximately 6-8 weeks for students to internalize and apply a new strategy independently.)
• Focusing assessment on the accuracy and completeness of the information
• Offering descriptive feedback
• Recording focused observations on students’ ability to organize thoughts and ideas with a graphic organizer
• Orally guiding/facilitating reflection, using a Y-chart or journals (e.g., A Y-chart helps me…because …; Evidence of this is…)

BLMs
Note: The following departmental publication is available at the Manitoba Text Book Bureau. Independent Together: Supporting the Multilevel Learning Community

- BLM 1: Reflection—Metacognition
- BLM 5: Focused Observation Form
6 – INQUIRY PROCESS

6a – Sorting and Classifying

<table>
<thead>
<tr>
<th>Skills</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>S-200</td>
<td>Gather information from oral, visual, material, or print sources.</td>
</tr>
<tr>
<td>S-201</td>
<td>Sort information using selected criteria.</td>
</tr>
<tr>
<td>S-300</td>
<td>Use comparison in investigations.</td>
</tr>
</tbody>
</table>

Sorting and classifying helps students make sense of new information. It also helps teachers and students identify student prior knowledge as they make connections between previous experiences and new information. Sorting is the process of identifying unique characteristics within a set and dividing the items based on their differences. Classifying involves identifying common characteristics and grouping items/ideas that share these characteristics into labelled categories. Students may sort and classify, or compare and contrast, based on student-generated or pre-determined criteria.

Think about…

• Teaching, modelling, and guiding the process of sorting and classifying
• Recording focused observations to determine sorting skills used to identify unique characteristics within a set
• Recording focused observations on students’ classifying skills
• Recording focused observations on students’ development to compare and contrast
• Orally guiding/facilitating reflection, using a Y-chart or journals (e.g., When we/I sort and predict; We/I think about…because…)

• P. 6.103: Compare and Contrast Frame
6b – Generating Questions

Generating their own questions provides students with opportunities to focus and plan their inquiry and identify purposes in their learning. When students search for answers to questions they believe to be important, they are better motivated to learn, and the result is deeper understanding. Framing research around an overall investigative question and then providing opportunities for groups or individuals to generate their own questions connects all stages of inquiry into a meaningful whole. Model the process of generating effective questions by using “Think-Alouds” (“Strategies That Make a Difference,” Manitoba Education and Training, 1996a, p. 288).

Think about…

• Focusing assessment on a manageable number of outcomes/students—keeping the end in mind
• Constructing student-generated criteria for What do quality questions look/sound like?
• Recording focused observations on students’ growing competence in asking initial and guiding questions
• Guiding self- and peer assessment, using a Met/Not-Yet-Met strategy
• Orally guiding/facilitating reflection, using a Y-chart or journals

Appendix A – Skills Assessment

6c – KWL

<table>
<thead>
<tr>
<th>Skills</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>S-200</td>
<td>Gather information from oral, visual, material, or print sources.</td>
</tr>
<tr>
<td>S-201</td>
<td>Sort information using selected criteria.</td>
</tr>
<tr>
<td>S-400</td>
<td>Listen actively to others.</td>
</tr>
<tr>
<td>S-403</td>
<td>Present information and ideas orally, visually, or concretely.</td>
</tr>
</tbody>
</table>

The acronym KWL stands for what I Know, what I Want to know, and what I have Learned. There are many variations of the KWL strategy and all of them provide a systematic process for accessing prior knowledge, developing questions, reviewing, and summarizing learning. A KWL is revisited throughout the learning process and provides opportunities for students to reflect on their learning. Model each of the phases of KWL and provide guided practice in the use of the strategy before expecting independent use. Younger students may use illustrations to construct a class KWL or a KWL wall.

Think about…

- Focusing assessment on a manageable number of outcomes/students—keeping the end in mind
- Recording focused observations to determine prior knowledge, gaps, curiosity, and starting points for instruction
- Adding on to the KWL chart using different-colour markers/fonts to show thinking and learning over time (Note: This is an obvious strategy for learners to observe their growth in knowledge and in questioning and reflecting skills over time.)
- Orally guiding/facilitating reflection, using a Y-chart or journals (e.g., *Our/my thinking today is... because...*)
- Adding a KWL chart to the learners’ portfolios as evidence of growth in thinking over time

*Success for All Learners*
- P. 6.94: KWL Plus
- P. 6.95: Knowledge Chart
6d – Preparing and Conducting Interviews

Interviews provide students with opportunities to collect and record information from a primary source and create avenues to authentic world expertise and experiences. After establishing the purpose of the interview (e.g., gathering facts, opinions, or stories), students identify appropriate candidates to interview and formulate questions that will elicit needed information during the interview. Questions should be clear and open-ended, and may include follow-up questions for in-depth information. Students need to consider how they will record information from the interview (e.g., audio recording, videotape, written notes), and practise both their questioning and recording information in mock interviews. Following the interview, students reflect on the information and process, and send thank-you acknowledgments to the interview subjects.

Think about…
• Focusing assessment on a manageable number of students/outcomes—keeping the end in mind
• Constructing student-generated criteria for What does a quality interview look/sound like?
• Recording focused observations to monitor student growth over time and to determine which students need differentiation and/or appropriate scaffolding
• Guiding self- and peer assessment, using a Met/Not-Yet-Met strategy
• Orally guiding/facilitating reflection, using a Y-chart or journals

BLMs
Note: The following departmental publication is available at the Manitoba Text Book Bureau.
Independent Together: Supporting the Multilevel Learning Community

• BLM 5: Focused Observation Form

Skills

| S-102 | Interact fairly and respectfully with others. |
| S-200 | Gather information from oral, visual, material, or print sources. |
| S-203 | Use tools and technologies to accomplish given tasks. |
| S-400 | Listen actively to others. |
| S-401 | Use language that is respectful of others. |
6e – Field Trips

<table>
<thead>
<tr>
<th>Skill</th>
<th>Description</th>
</tr>
</thead>
</table>
| S-100  | Cooperate and collaborate with others. *Examples: take turns, share space and classroom resources...*
| S-102  | Interact fairly and respectfully with others. |
| S-103  | Make decisions that reflect care, concern, and responsibility for the environment. |
| S-200  | Gather information from oral, visual, material, or print sources. |
| S-300  | Use comparison in investigations. |
| S-400  | Listen actively to others. |
| S-401  | Use language that is respectful of others. |

Learning happens best in a context that gives meaning to knowledge, values, and skills learning outcomes. Learning experiences that take students outside the classroom are more motivating and have a greater impact than activities that simulate the wider world. Capitalizing on community resources promotes knowledge and understanding of the broader environment and allows students to learn from the resources and expertise that are available in the community at large. Students gain authentic experience when they are involved in planning the purpose and logistics of the field trip. Teachers gain valuable insights into their students as they observe their interactions outside the classroom.

Think about…
- Engaging students in planning a field trip based on primary inquiry questions or the “W” in a KWL strategy
- Constructing student-generated criteria for *What does a quality field trip look/sound like?*
- Guiding self-assessment, using a Met/Not-Yet-Met strategy
- Orally modelling/guiding/facilitating reflection, using a Y-chart or journals to assess the outcomes of the field trip
- Recording focused observations to facilitate student inquiry (Note: Watch for individual student curiosity, expertise, interest, and so on.)

- BLM 6: Daily Observation Form

*Success for All Learners*
- P. 9.5: Teacher’s Planning Sheet for Learning Experiences Outside the Classroom
6f – Collecting and Observing Pictures

Skills

S-200 Gather information from oral, visual, material, or print sources.

Finding and observing pictures related to an idea or concept helps students acquire new information, stimulates questions, and provides opportunities for sorting and classifying. Pictures may include calendars, art, photographs, news and magazine clippings, and clip art. After establishing the criteria that the pictures are intended to represent (e.g., landforms, daily life, Canadian symbols…), students may browse a predetermined set of pictures or search for pictures matching the criteria. Encourage students to share thoughts and feelings evoked by the pictures they observe.

Think about…
- Connecting pictures to the topic/theme
- Asking new questions related to the inquiry
- Gathering information from the pictures
- Assessing the accuracy of the information in the pictures
- Using the information in acquiring and applying new learning and understandings

BLMs

Note: The following departmental publications are available at the Manitoba Text Book Bureau.

*Independent Together: Supporting the Multilevel Learning Community*
- BLM 6: Daily Observation Form

</thead>
<tbody>
<tr>
<td>S-200</td>
<td>Gather information from oral, visual, material, or print sources.</td>
</tr>
<tr>
<td>S-402</td>
<td>Express reasons for their ideas and opinions.</td>
</tr>
</tbody>
</table>

Video and media can offer students insights into experiences that would otherwise be unavailable to them. A key to teaching with video is to provide students with opportunities to be critical active viewers rather than passive recipients, and to include before-, during-, and after-viewing strategies. Introduce the video by setting the tone for viewing and explain how the segment relates to the ideas they are exploring.

Consider the following strategies before, during, and after viewing

**Before viewing**

- Establish a purpose for viewing by describing what the students are about to view and points to watch for.
- Activate with “story mapping”—predicting what the video might be about.
- Have students create questions about what they are wondering, or provide “focus questions” (i.e., informational questions, intuitive/interpretive questions…).

**During viewing**

- Silent viewing: Mute the volume to focus on cues (e.g., body language, setting, gestures, facial expressions…), and then review the segment with the sound. Discuss how perceptions changed with the sound.
- Sound only: Darken the screen to focus on audio cues (e.g., background noises, tone, sound effects…), and then review the segment with video. Discuss how perceptions changed with the video.
- Jigsaw: One group views silently, while the other group listens only to the soundtrack. Members from opposite groups collaborate to share their information and ideas. Alternately, one-half of the class, the “listeners,” sits with their backs to the screen while the other half of the class, the “viewers,” faces the screen. After the video segment, the listeners ask the viewers questions, and the viewers describe what was happening in response to the listeners’ questions.
- Freeze frame: PAUSE to freeze the picture. Discuss new vocabulary, make further predictions and inferences, or have small-group discussions about connections to the concept, topic, or theme.
6g – Viewing Video/Media (continued)

After viewing
- Students may ask new questions (e.g., Some of my questions that were answered were…; Now, I know/wonder…).
- Discuss and evaluate what they viewed and their feelings and connections to the content.
- Discuss examples of fact and opinion from the video/media.
- Represent their new learning, or add new information to their inquiry journal or notebook.

Think about…
- Reflecting on the purpose for viewing the video
- Observing for new or extending understanding of concept, topic/theme
- Observing for gaps in students’ understanding
- Recording focused observations to facilitate further student inquiry (Note: Watch for individuals’ curiosities, new questions, expertise…)

<td>Use tools and technologies to accomplish given tasks.</td>
</tr>
<tr>
<td>S-403</td>
<td>Present information and ideas orally, visually, or concretely.</td>
</tr>
</tbody>
</table>

Students need to understand that maps are abstract representations of places on the Earth, and that maps illustrate real geographic information through the use of points, lines, symbols, and colours. Maps help students understand how both physical and human features are located, distributed, and arranged in relation to one another.

Students need opportunities to both read/interpret and create different types of maps. Verbalize directions or read stories aloud and have students create illustrations of described places and spaces. Have students—individually or collaboratively—create maps from these oral sources of information to practise listening skills, and following directions.

Early Years students create maps with simple pictorial representations of their surrounding environment (e.g., the classroom, school, and neighbourhood…) in a variety of media. By beginning with objects, pictures, or drawings before moving to the use of abstract symbols, younger students come to understand the idea of symbolic representation. As students grow developmentally, the maps they create become increasingly more abstract, and students become proficient in the use of various map components (e.g., title, legend, compass rose, scale, latitude and longitude…). Map-making and map reading should eventually become as natural for students as reading and writing. Encourage students to incorporate maps in their daily work (e.g., journals, stories, research…).

Map construction can be an individual, small-group, or class learning experience, and provides students with opportunities to develop, clarify, and communicate their understanding of abstract ideas in a visual and symbolic format. Through the use of symbols and drawings in the creation of maps, students demonstrate their understanding of place, distance, and relationships.

Think about…
- Observing for students’ map-reading, interpreting, and creating skills
- Constructing student-generated criteria for What does a quality map look like? (e.g., accuracy, appropriate symbols, readability, consistent use of scale…)
- Focusing assessment on the accuracy and completeness of the information
- Recording focused observations to monitor student growth over time and to determine which students need differentiation
7a – Creating Maps (continued)

• Guiding self- and peer assessment, using a Met/Not-Yet-Met strategy
• Orally modelling/guiding/facilitating reflection, using a Y-chart or journals
• Adding drawn/created maps and reflections to the learners’ portfolios as evidence of understanding of mapping skills

BLMs

<td>Use tools and technologies to accomplish given tasks.</td>
</tr>
</tbody>
</table>

Students need to understand that maps are abstract representations of places on the Earth, and that maps illustrate real geographic information through the use of points, lines, symbols, and colours. Maps help students understand how both physical and human features are located, distributed, and arranged in relation to one another.

Students need opportunities to both read and create different types of maps. As students engage in strategies that involve map reading/interpretation, they learn that maps have particular components (e.g., title, symbols, legend, directions, scale…). Students also come to understand that maps are important sources of physical and human geographic information, and are fundamental to social studies inquiry. Maps help students think critically as they find locations and directions, determine distances, observe distributions of people and resources, and interpret and analyze patterns and relationships.

Encourage students to consult maps when they engage in individual research and when they are working in collaborative groups. As well, use and interpret maps as a whole-class learning experience. Maps, globes, and atlases are rich and engaging resources that stimulate questions, conversation, and critical thinking.

Think about…

- Teaching, modelling, and guiding map reading/interpreting skills
- Observing students’ knowledge and skills in reading, interpreting, and creating a variety of maps to plan for differentiation
- Observing students’ skills in connecting information from maps to other concepts
- Orally guiding/facilitating reflection, using a Y-chart or journals (e.g., *What I am learning about maps/mapping…; For example…*)
- Adding a drawn/created map and reflection to the learners’ portfolios as evidence of understanding of mapping skills
- Using a wall map or individual maps to assess students’ knowledge of geographic features

**BLMs**

7c – Interpreting Timelines

Skills

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>S-202</td>
<td>Use appropriate terms or expressions to describe periods of time.</td>
</tr>
<tr>
<td>S-203</td>
<td>Use tools and technologies to accomplish given tasks.</td>
</tr>
<tr>
<td>S-300</td>
<td>Use comparison in investigations.</td>
</tr>
</tbody>
</table>

Timelines generally consist of a vertical or horizontal line, with graduated marking points to indicate years, decades, centuries, or other periods of time. The points symbolically represent a chronological sequence of time, making past events more concrete in nature for students. The portrayal of significant dates, events, people, and ideas provides a visual reference for students, and helps them organize their thinking chronologically. Similar to maps, timelines require an understanding of proportion and scale, but they also use images, icons, and vocabulary that are associated with special events (e.g., birthday, holidays, first day of fall…).

Interpreting timelines through social studies inquiry helps students imagine and visualize events of the past, and therefore better understand abstract concepts related to history and chronology. Students need to see and interpret timelines, and understand their nature and purpose, before they are asked to create their own timelines.

Think about…

- Teaching, modelling, and guiding interpretation and creation of timelines
- Observing students’ knowledge and skills in organizing events chronologically, creating timelines and using information from timelines to plan for differentiation
- Observing students’ skills in connecting information from the past, present, and future, and descriptions of periods of time
- Orally guiding/facilitating reflection, using a Y-chart or journals (e.g., *What I am learning about timelines…; Evidence of my learning is…*)
- Adding a created timeline and reflection to the learners’ portfolios as evidence of understanding of events or historical periods

**BLMs**

Note: The following departmental publication is available at the Manitoba Text Book Bureau. *Independent Together: Supporting the Multilevel Learning Community*

- BLM 1: Reflection—Metacognition
- BLM 6: Daily Observation Form
7d – Creating Timelines

<table>
<thead>
<tr>
<th>Skills</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>S-200</td>
<td>Gather information from oral, visual, material, or print sources.</td>
</tr>
<tr>
<td>S-201</td>
<td>Sort information using selected criteria.</td>

<tr>
<td>S-300</td>
<td>Use comparison in investigations.</td>
</tr>
<tr>
<td>S-403</td>
<td>Present information and ideas orally, visually, or concretely.</td>
</tr>
<tr>
<td>S-404</td>
<td>Relate events and stories in chronological order.</td>
</tr>
</tbody>
</table>

Timelines generally consist of a vertical or horizontal line, with graduated marking points to indicate years, decades, centuries, or other periods of time. The points symbolically represent a chronological sequence of time, making past events more concrete in nature for students. The portrayal of significant dates, events, people, and ideas provides a visual reference for students, and helps them organize their thinking chronologically. Similar to maps, timelines require an understanding of proportion and scale, but they also use images, icons, and vocabulary that are associated with specific historical periods.

Before students create their own timelines, they need opportunities to use and understand the nature and purpose of timelines. Students first examine, discuss, and use prepared timelines. Next, they contribute to the making of a class timeline, discussing and placing events on the timeline. The timeline can be an ongoing project that is integrated into the instructional process (e.g., in Grade 4: throughout Cluster 4, History of Manitoba; in Grades 5, 6, 8, and Senior 3: throughout the entire year). Ideally, a class timeline would occupy the length of one wall of the classroom, providing room for all of the historical events that are discussed, as well as space for drawings, pictures, and illustrations. Finally, individually or in collaborative groups, students create their own timeline. Depending on developmental ability, younger students might simply label and illustrate events on a timeline that already has periods of time indicated. Older students, using mathematical skills, could determine and mark time periods before labelling and illustrating events.

Think about…

- Constructing student-generated criteria for *What does a quality timeline look like?*
- Focusing assessment on the accuracy and completeness of the information
- Offering descriptive feedback
- Recording focused observations to monitor student growth over time and to determine which students need differentiation
- Guiding self- and peer assessment, using a Met/Not-Yet-Met strategy
- Orally guiding/facilitating reflection, using a Y-chart or journals
- Adding a timeline and reflection to the learners’ portfolios as evidence of growth and understanding of timelines

Appendix A – Skills Assessment

7e – Social Action

Skills

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
</table>
| S-100 | Cooperate and collaborate with others.  
  Examples: take turns, share space and classroom resources… |
| S-102 | Interact fairly and respectfully with others. |
| S-103 | Make decisions that reflect care, concern, and responsibility for the environment. |
| S-203 | Use tools and technologies to accomplish given tasks. |
| S-301 | Identify consequences of their decisions and actions. |
| S-400 | Listen actively to others. |
| S-401 | Use language that is respectful of others. |
| S-402 | Express reasons for their ideas and opinions. |

As students are given opportunities to develop and use the skills of active responsible citizenship, they should also be encouraged—when necessary and in appropriate ways—to engage in social action.

Student social action involves students interacting with others for the purpose of change. Social action might involve just a few students, the entire class, several classrooms or grades, the entire school, or the greater community. As students develop knowledge, values, and skills related to citizenship, they need to understand that social action is not only a right, but is perhaps the most important responsibility for citizens living within a democratic society. They also need to learn that, in most cases, social action involves collaboration, cooperation, and being respectful of others.

Social action is a natural result of authentic social studies inquiry. As students learn about social issues that affect them or others, and as they become aware of problems and injustices in their communities, and if they are truly empowered to be active and responsible citizens, they are likely to take actions that initiate change. If and when they do take action, there is perhaps no better means of assessing student learning. As students engage in social action, their behaviours become an observable expression of the social studies knowledge, values, and skills they have been learning.

Empowered students might initiate social action on their own, or teachers may choose to encourage student social action. Student social action may be the culminating activity of a learning experience, a particular cluster, or the school year. It might take the form of a local classroom or school project, such as a recycling/anti-litter campaign, or the creation of a local nature preserve. Social action with a global focus might involve raising funds for a community well or sending school supplies to children in a developing country. Events such as UNICEF campaigns and Earth Day may trigger projects. Opportunities might also arise for students to be involved in more complex civil action, where projects involve the lobbying of policy/lawmakers and legislators.

(continued)
7e – Social Action (continued)

Social action is the ultimate application of social studies learning. It is through social action that students’ altruistic attitudes are expressed within the context of the knowledge and skills of the curriculum. Social action projects not only familiarize students with specific issues, but also provide opportunities to understand processes, such as conducting issue-based research, letter-writing campaigns, media publicity, the creation of surveys and petitions, and demonstrations and other civil actions.

Think about…

• Setting classroom goals for developing action plans and becoming active responsible citizens
• Constructing student-generated criteria for *What does a democratic classroom/an active responsible citizen look/sound like?*
• Offering descriptive feedback
• Recording focused observations to determine teaching points
• Guiding self- and peer assessment, using a Met/Not-Yet-Met strategy
• Orally guiding/facilitating reflection, using a Y-chart or journals
• Adding an account and/or images of evidence of social actions to the students’ portfolios

- BLM 93: Goal Setting
8 – Content Reading

Skills

S-200 Gather information from oral, visual, material, or print sources.

Content reading is integral to acquiring information and ideas for learning about a particular class topic or theme; and content subject areas are ideal contexts for improving, acquiring, and applying reading comprehension skills and strategies to make meaning of a variety of texts. Thus, teachers have an opportunity to extend reading instruction beyond the literacy workshop, and to offer learners another opportunity to practise and make connections to reading comprehension strategies in the content areas or inquiry workshop. Text sets are valuable resources for supporting content reading and a broad range of reading abilities. A text set consists of a variety of non-fiction and fiction texts on a theme or unit of study (e.g., picture books, visuals, short stories, historical fiction, songs, poetry, media texts, vignettes, textbooks…).

Competent readers use reading comprehension strategies independently before, during, and after reading. Developing readers need access to texts that they can read, and scaffolding and guided instruction to successfully access the required information and ideas from texts that they cannot yet read independently.

Think about…

• Using read-aloud, shared reading, guided reading, partner reading, and independent reading literacy contexts for assessing comprehension strategies and differentiating instruction
• Modelling before, during, and after reading comprehension strategies
• Monitoring students’ choices of texts for seeking information
• Observing comprehension strategies (e.g., predicting, questioning, imaging, self monitoring, re-reading, re-telling, summarizing, inferring, skimming and scanning…)
• Recording focused observations to determine students’ ability to get information and ideas from textual cues (titles, sub-titles, tables of content, images, captions…) and text structures/features (compare and contrast, sequential, description, cause and effect…)

- P. 6.114: Fact-Based Article Analysis
9 – WRITING

9a – Journals

Skills

S-401 Use language that is respectful of others.

Journals are notebooks in which students record their personal thoughts and ideas, as well as information and questions about, and reflections on, what they hear, view, read, write, discuss, and think. Journals provide students with the opportunity to use exploratory language. The responses in personal journals are based on personal and emotional reactions. Other journals explore, clarify, and discover ways of refining and assessing thinking. Journals may include both written and representational formats. They may be a separate notebook or a section of another notebook, and may be specifically devoted to response and used across curriculum areas.

Think about…

• Guiding/facilitating reflection orally and with a Y-chart before introducing independent journal writing
• Constructing student-generated criteria for *What does quality reflective journal writing look/sound like?*
• Offering descriptive feedback
• Recording focused observations to determine which students need differentiation
• Guiding self- and peer assessment, using a Met/Not-Yet-Met strategy
• Adding reflections to the learners’ portfolios as evidence of growth in metacognitive thinking over time
• Assessing the journal for growth over time and/or for summative purposes

Note: The following departmental publication is available at the Manitoba Text Book Bureau. *Independent Together: Supporting the Multilevel Learning Community*

<tr>
<td>S-402</td>
<td>Express reasons for their ideas and opinions.</td>
</tr>
<tr>
<td>S-403</td>
<td>Present information and ideas orally, visually, or concretely.</td>
</tr>
</tbody>
</table>

An Exit Slip is simply a brief note or conversation with students at the end of a lesson. Exit Slips provide students with opportunities to reflect on their learning and provide teachers with feedback to inform future instruction as students summarize their understandings of a lesson. Exit Slips may be open-ended, include a reflective stem (e.g., Today I learned…; I am still confused about…; I would like to know more about…; A question I have is…), or used to set a learning goal for the next day. Exit Slips may be completed individually or in small groups. Review Exit Slip responses to guide planning for future instruction.

Think about…

• Observing students’ perceived strengths and areas for further learning
• Focusing assessment on the accuracy and completeness of the information
• Observing students’ opinions, assumptions, and conclusions about their learning of a topic/issue/theme

<td>Present information and ideas orally, visually, or concretely.</td>
</tr>
</tbody>
</table>

RAFT (Role, Audience, Format, Topic) is a writing strategy that provides students with opportunities to creatively analyze and synthesize information by writing from a different viewpoint. Students assume a Role other than themselves (e.g., animal, historical figure, comic book character...). They choose an Audience (e.g., a person living in another time or place, a corporation, an inanimate object...). They select a Format (e.g., poem, letter, journal...) for their writing. They also choose a Topic (e.g., plea, persuasion, demand, excuse...) related to the inquiry. Because the focus of the writing is so well defined in a RAFT, students gain experience in clearly and completely explaining their point of view. A RAFT may be used as an activating strategy to help identify students’ prior knowledge or as a culminating task to demonstrate understanding.

Think about…

- Sharing and reflecting on examples of point-of-view genre in literature
- Modelling, guiding, and offering time to practise RAFT
- Constructing student-generated criteria for *What does a quality written point of view (RAFT strategy) look/sound like?*
- Focusing assessment on the accuracy and completeness of the information
- Recording focused observations to monitor student growth over time and to determine which students need differentiation
- Guiding self- and peer assessment, using a Met/Not-Yet-Met strategy
- Orally guiding/facilitating reflection, using a Y-chart or journals
- Adding a quality written point of view (RAFT strategy) to the learners’ portfolios as evidence of learning

<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>S-401</td>
<td>Use language that is respectful of others.</td>
</tr>
<tr>
<td>S-402</td>
<td>Express reasons for their ideas and opinions.</td>
</tr>
<tr>
<td>S-403</td>
<td>Present information and ideas orally, visually, or concretely.</td>
</tr>
</tbody>
</table>

Persuasive writing provides opportunities for students to present ideas and information and express their opinions and viewpoints on an issue. Students need to be aware of their intended audience as they state their view and present evidence and examples to support their position. Composing persuasive writing allows students to practise organizational skills and make connections between prior knowledge and new understandings. Persuasive writing can provide evidence of attitudinal changes as students evaluate and synthesize new knowledge and information.

Think about…
- Sharing and reflecting on examples of persuasive writing
- Modelling, guiding, and offering time to practise persuasive writing
- Constructing student-generated criteria for *What does quality persuasive writing look/sound like?*
- Focusing assessment on the accuracy and completeness of the information
- Recording focused observations to monitor student growth over time and to determine which students need differentiation
- Guiding self- and peer assessment, using a Met/Not-Yet-Met strategy
- Orally guiding/facilitating reflection, using a Y-chart or journals
- Adding a quality piece of persuasive writing to the learners’ portfolios as evidence of understanding and organizational skills

**BLMs**

Note: The following departmental publication is available at the Manitoba Text Book Bureau.

*Independent Together: Supporting the Multilevel Learning Community*

- BLM 1: Reflection—Metacognition
- BLM 2: Constructing Student-Generated Criteria for Quality Work
- BLM 5: Focused Observation Form
9e – Creating Plans/Outlines

Skills

S-201  Sort information using selected criteria.

Creating a written plan provides opportunities for students to establish a process for achieving their learning goals. This strategy should be modelled in the Early Years classroom. Students identify their goals, outline the steps they will use to achieve them, and determine how they will know their goals have been attained. As students engage in planning, they come to understand that the plan is a means to achieving an end, and not the end itself. Written plans may be developed collaboratively or individually in Grades 1 and 2.

Think about…

• Focusing assessment on a manageable number of learning outcomes/students
• Teaching, modelling, and guiding the creation of plans/outlines
• Constructing student-generated criteria for *What does a quality plan look/sound like?*
• Focusing assessment on the accuracy and completeness of the information
• Recording focused observations to monitor student growth over time and to determine which students need differentiation
• Guiding self- and peer assessment, using a Met/Not-Yet-Met strategy
• Observing students’ revisions to the plan throughout the inquiry
• Orally guiding/facilitating reflection on planning, using a Y-chart or journals

• BLM 94: Goal Setting
• BLM 96: Project Outline
As students are engaged in inquiry and research, they need to experience various strategies for recording and organizing acquired information. Strategies may include drawing, simple note-making skills, process notes, Slim Jims, concept maps, or graphic representations. Additional information on information processing strategies may be found in *Success for All Learners* (Manitoba Education and Training, 1996b, p. 6.49) and “Strategies That Make a Difference” (Manitoba Education and Training, 1996a, pp. 59–64 and 114–117). As students develop a repertoire of strategies, they become able to choose the most appropriate method related to the purpose and the type of information.

**Think about…**

- Teaching and modelling one strategy at a time for recording information (Note: It takes learners approximately six to eight weeks to internalize a strategy and to apply it independently.)
- Constructing student-generated criteria for *What does a quality Slim Jim look like?*
- Focusing assessment on the accuracy and completeness of the information
- Recording focused observations to determine which students need differentiation and scaffolding
- Guiding self- and peer assessment, using a Met/Not-Yet-Met strategy
- Observing students’ choices of strategies for recording information
- Orally guiding/facilitating reflection, using a Y-chart or journals

</tbody>
</table>

Presentations provide opportunities for students to synthesize new knowledge and share their understandings. Presentations allow students to creatively express their understandings through a variety of intelligences (Multiple Intelligences), and may include visual displays, art, drama, music, video, reenactments, or simulations. Presentations are often collaborative in nature and intended to be shared with a broader audience. In planning their presentations, students consider how the structure of the presentation will effectively communicate new information to their intended audience.

Think about…

- Focusing assessment on a manageable number of outcomes/students—keeping the end in mind
- Constructing student-generated criteria for *What does a quality presentation/representation look/sound like?*
- Focusing assessment on the accuracy and completeness of the information
- Recording focused observations to monitor student growth over time and to determine which students need differentiation
- Conferencing with students throughout the process
- Orally guiding/facilitating reflection, using a Y-chart or journals

**BLMs**

11 – INFORMATION AND COMMUNICATION TECHNOLOGIES

11a – Print and Electronic Research

<table>
<thead>
<tr>
<th>Skills</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>S-200</td>
<td>Gather information from oral, visual, material, or print sources.</td>
</tr>
<tr>
<td>S-201</td>
<td>Categorize information using selected criteria.</td>
</tr>
<tr>
<td>S-203</td>
<td>Use tools and technologies to accomplish given tasks.</td>
</tr>
<tr>
<td>S-300</td>
<td>Use comparison in investigations.</td>
</tr>
</tbody>
</table>

Print and electronic research facilitates the inquiry process as students acquire new information, knowledge, and understandings. The focus of the inquiry is often guided by knowledge learning outcomes in social studies. As they plan their research, guide students through the following stages in the inquiry process: choose a theme or topic; identify and record prior knowledge; ask initial questions; explore and select primary and secondary sources; and plan for inquiry. As students are engaged in research, observe and offer guidance as they gather, process, and record information and focus their inquiry. To help students experience success in their research, guide them to continually assess how they will express their learning (i.e., keep the end in mind).

Think about…

• Focusing assessment on a manageable number of outcomes/students—keeping the end in mind
• Constructing student-generated criteria for What does a quality inquiry look/sound like?
• Focusing assessment on the accuracy and completeness of the information
• Recording focused observations to monitor student growth over time and to determine which students need differentiation
• Conferencing with students throughout the inquiry process
• Guiding self- and peer assessment, using a Met/Not-Yet-Met strategy
• Orally guiding/facilitating reflection, using a Y-chart or journals

BLMs

• BLM 1: Reflection—Metacognition
• BLM 2: Constructing Student-Generated Criteria for Quality Work
• BLM 5: Focused Observation Form
11b – Using Graphics Software

Skills

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>S-203</td>
<td>Use tools and technologies to accomplish given tasks.</td>
</tr>
<tr>
<td>S-403</td>
<td>Present information and ideas orally, visually, or concretely.</td>
</tr>
</tbody>
</table>

Students may use graphics software to illustrate and label the concepts and ideas they explore. Images created with graphics software may be imported into other applications (e.g., word processor, presentation software…) and more fully explained. Students may change and adapt previously created images to reflect new understanding as additional information is acquired.

Think about…

- Focusing assessment on the communication of concepts and ideas in the images created
- Constructing student-generated criteria for *What do quality illustrations/diagrams look like?*
- Focusing assessment on the accuracy and completeness of the information
- Offering descriptive feedback
- Recording focused observations to monitor student growth over time and to determine which students need differentiation
- Guiding self- and peer assessment, using a Met/Not-Yet-Met strategy
- Orally guiding/facilitating reflection, using a Y-chart or journals

Note: The following departmental publication is available at the Manitoba Text Book Bureau. *Independent Together: Supporting the Multilevel Learning Community*

- BLM 1: Reflection—Metacognition
- BLM 2: Constructing Student-Generated Criteria for Quality Work
- BLM 5: Focused Observation Form
Appendix A – Skills Assessment

11c – Email

Skills

<table>
<thead>
<tr>
<th>Grade 11c – Email</th>
</tr>
</thead>
<tbody>
<tr>
<td>S-102</td>
</tr>
<tr>
<td>S-200</td>
</tr>
<tr>
<td>S-203</td>
</tr>
<tr>
<td>S-401</td>
</tr>
</tbody>
</table>

Email offers authentic opportunities for students to communicate with others, near and far. Students articulate ideas and information and analyze responses for relevancy and accuracy. Students may use email to conduct interviews, request information, state a position, or share understandings on a topic or issue. Help students identify the purpose of their email communications and model compositions to achieve each purpose, ensuring that students use language that is respectful of others. Teach students about safety on the Internet and the importance of not including personal information in email communication with people they don’t know.

Think about…

- Modelling appropriate Internet behaviours
- Focusing assessment on the clarity of student communication and the match of style and tone with purpose
- Constructing student-generated criteria for *What does a quality Internet communication look/sound like?*
- Offering descriptive feedback
- Recording focused observations to monitor student growth over time and to determine which students need scaffolding
- Guiding self- and peer assessment, using a Met/Not-Yet-Met strategy
- Orally guiding/facilitating reflection, using a Y-chart or journals

BLMs

Note: The following departmental publication is available at the Manitoba Text Book Bureau. *Independent Together: Supporting the Multilevel Learning Community*

11d – Desktop Publishing

<table>
<thead>
<tr>
<th>Skills</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>S-200</td>
<td>Gather information from oral, visual, material, or print sources.</td>
</tr>
<tr>
<td>S-201</td>
<td>Sort information using selected criteria.</td>
</tr>
<tr>
<td>S-203</td>
<td>Use tools and technologies to accomplish given tasks.</td>
</tr>
<tr>
<td>S-401</td>
<td>Use language that is respectful of others.</td>
</tr>
<tr>
<td>S-403</td>
<td>Present information and ideas orally, visually, or concretely.</td>
</tr>
</tbody>
</table>

Desktop publishing includes text, images, maps, and charts to communicate information and concepts. It provides opportunities for students to synthesize new knowledge and represent their understandings creatively. Examples of desktop-published products include brochures, posters, and newsletters. They may be produced collaboratively or individually. Encourage students to identify the purpose of the final product and to plan accordingly to ensure it communicates the purpose effectively to their intended audience.

Think about…

- Focusing assessment on the structure, organization, content choices, and whether the final product communicates the purpose effectively
- Constructing student-generated criteria for *What does a quality brochure look like?*
- Focusing assessment on the accuracy and completeness of the information
- Offering descriptive feedback throughout the process
- Recording focused observations to monitor student growth over time and to determine which students need scaffolding
- Guiding self- and peer assessment, using a Met/Not-Yet-Met strategy
- Orally guiding/facilitating reflection, using a Y-chart or journals

BLMs

Note: The following departmental publication is available at the Manitoba Text Book Bureau. *Independent Together: Supporting the Multilevel Learning Community*

- BLM 1: Reflection—Metacognition
- BLM 2: Constructing Student-Generated Criteria for Quality Work
- BLM 5: Focused Observation Form
11e – Word Processing

<table>
<thead>
<tr>
<th>Skills</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>S-200</td>
<td>Gather information from oral, visual, material, or print sources.</td>
</tr>
<tr>
<td>S-203</td>
<td>Use tools and technologies to accomplish given tasks.</td>
</tr>
</tbody>
</table>

Word processing supports students through the writing process and encourages them to revise initial drafts and organize their writing to best represent current understandings. Students may take advantage of standard word-processing features to improve their writing (e.g., spell and grammar check, thesaurus, formatting options…). Encourage students to save copies of their files as they work through the editing and revision process as evidence of their growth and improvement in the writing process.

Think about…
- Modelling and guiding the development of word-processing skills and strategies
- Recording focused observations to determine skills in organizing information and ideas, revising and editing, and saving copies of files
- Focusing assessment on the accuracy and completeness of the information
- Offering descriptive feedback
- Orally guiding/facilitating reflection, using a Y-chart or journals

BLMs
Note: The following departmental publication is available at the Manitoba Text Book Bureau. *Independent Together: Supporting the Multilevel Learning Community*
- BLM 1: Reflection—Metacognition
- BLM 5: Focused Observation Form
11f – Concept Mapping

Concept mapping involves the visual organization of ideas and information. This helps students identify patterns and relationships, build upon prior knowledge, and stimulate creative thinking. As students acquire new information, they can organize additional ideas and information graphically to integrate new knowledge and reinforce their understandings. This helps students identify misconceptions and clarify their thinking. The use of colours, symbols, and images reinforces written text. The ease with which changes in relationships can be represented makes concept mapping particularly helpful for some students. Concept mapping examples include facilitating brainstorming (activating), gathering information (acquiring), or displaying new understanding (applying).

Think about…

• Teaching and modelling concept mapping
• Constructing student-generated criteria for *What does a quality concept map look like?*
• Focusing assessment on the accuracy and completeness of the information
• Offering descriptive feedback
• Recording focused observations to monitor student growth over time and to determine which students need scaffolding
• Guiding self- and peer assessment, using a Met/Not-Yet-Met strategy
• Orally guiding/facilitating reflection, using a Y-chart or journals

BLMs

Note: The following departmental publication is available at the Manitoba Text Book Bureau.

<tr>
<td>S-203</td>
<td>Use tools and technologies to accomplish given tasks.</td>
</tr>
<tr>
<td>S-401</td>
<td>Use language that is respectful of others.</td>
</tr>
<tr>
<td>S-402</td>
<td>Express reasons for their ideas and opinions.</td>
</tr>
<tr>
<td>S-403</td>
<td>Present information and ideas orally, visually, or concretely.</td>
</tr>
</tbody>
</table>

Multimedia presentations provide opportunities for students to synthesize new knowledge and share their understandings. Multimedia presentations allow students to represent their understandings creatively by including text, images, sound clips, and links to further information supporting their ideas and information. Presentations are often collaborative in nature and intended to be shared with a broader audience. In planning their presentations, students consider how the structure of the presentation will communicate new information effectively to their intended audience.

Think about…
- Focusing assessment on a manageable number of outcomes/students—keeping the end in mind
- Constructing student-generated criteria for *What does a quality multimedia presentation look/sound like?*
- Focusing assessment on the accuracy and completeness of the information
- Offering descriptive feedback throughout the process
- Recording focused observations to monitor student growth over time and to determine which students need differentiation
- Guiding self- and peer assessment, using a Met/Not-Yet-Met strategy
- Orally guiding/facilitating reflection, using a Y-chart or journals

**BLMs**

Note: The following departmental publication is available at the Manitoba Text Book Bureau. *Independent Together: Supporting the Multilevel Learning Community*
- BLM 1: Reflection—Metacognition
- BLM 2: Constructing Student-Generated Criteria for Quality Work
- BLM 5: Focused Observation Form
11h – Creating Animations

Skills

<table>
<thead>
<tr>
<th>Skill Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>S-200</td>
<td>Gather information from oral, visual, material, or print sources.</td>
</tr>
<tr>
<td>S-201</td>
<td>Sort information using selected criteria.</td>
</tr>
<tr>
<td>S-203</td>
<td>Use tools and technologies to accomplish given tasks.</td>
</tr>
<tr>
<td>S-401</td>
<td>Use language that is respectful of others.</td>
</tr>
<tr>
<td>S-402</td>
<td>Express reasons for their ideas and opinions.</td>
</tr>
<tr>
<td>S-403</td>
<td>Present information and ideas orally, visually, or concretely.</td>
</tr>
</tbody>
</table>

Creating animations provides students with opportunities to apply new knowledge and graphically represent concepts and ideas. Students may create animations to illustrate patterns, cycles, changes over time, or cause-and-effect relationships. In creating animations, students develop skills in sequencing, timing, and duration of scenes/screens to communicate the concepts and ideas they are illustrating. The interactive and graphic nature of animations provides alternative ways for some students to demonstrate their learning.

Think about…

- Focusing assessment on how the animation creatively communicates the concept or idea
- Constructing student-generated criteria for *What does quality animation look/sound like?*
- Focusing assessment on the accuracy and completeness of the information
- Offering descriptive feedback
- Recording focused observations to monitor student growth over time and to determine which students need differentiation
- Guiding self- and peer assessment, using a Met/Not-Yet-Met strategy
- Orally guiding/facilitating reflection, using a Y-chart or journals

**BLMs**

Note: The following departmental publication is available at the Manitoba Text Book Bureau. *Independent Together: Supporting the Multilevel Learning Community*

- BLM 1: Reflection—Metacognition
- BLM 2: Constructing Student-Generated Criteria for Quality Work
- BLM 5: Focused Observation Form
11i – Using Software

Using software allows students to access new information and interact with simulations and/or animations to explore new concepts and ideas. Simulations provide an environment where students can explore, experiment, question, and hypothesize about real-life situations that would otherwise be inaccessible. Students can explore “what-if” scenarios as they predict the results of various actions, modify parameters accordingly, and evaluate the resulting outcomes. Simulations and animations allow students to visualize complex and dynamic interactions and develop deeper understandings than may be achieved through a text description. By exploring a simulated environment, students can “learn by doing.”

Think about…

- Focusing assessment on students’ skills in exploring concepts and ideas with simulations and/or animations
- Offering descriptive feedback on students’ explorations, deepening understandings and testing of hypotheses
- Recording focused observations to monitor student growth over time and to determine which students need scaffolding
- Orally guiding/facilitating reflection, using a Y-chart or journals (e.g., *Using software helps me...*)

BLMs

Note: The following departmental publication is available at the Manitoba Text Book Bureau. *Independent Together: Supporting the Multilevel Learning Community*

- BLM 1: Reflection—Metacognition
- BLM 5: Focused Observation Form
11j – Using Spreadsheets/Databases

Skills

S-200 Gather information from oral, visual, material, or print sources.
S-203 Use tools and technologies to accomplish given tasks.

Spreadsheets and databases allow students to record and graphically represent data, analyze relationships and patterns, and manipulate data to solve problems. There are several opportunities to integrate the acquisition of spreadsheet and database skills with social studies. With spreadsheets, students can enter formulas to calculate values (e.g., population density equals population divided by area). Additionally, students can chart their data by creating graphs to facilitate data analysis. Databases are particularly useful for students to make comparisons in their recorded research (e.g., characteristics of daily life in communities studied, location and characteristics of geographic regions…). Students may then query the data to identify patterns and relationships. As students develop the skills to use spreadsheets and databases, they are able to apply these skills in the context of analyzing issues and concepts related to their social studies investigations.

Think about…

• Modelling and guiding the use of spreadsheets/databases
• Focusing assessment on the analysis of patterns and relationships rather than isolated technology skills
• Focusing assessment on the accuracy and completeness of the information
• Recording focused observations to determine prior knowledge, gaps, points for instruction, and/or growth over time
• Offering descriptive feedback to improve understanding of relationships between various factors in data analysis and/or research

| S-400 Listen actively to others.  |
| S-401 Use language that is respectful of others.  |
| S-402 Express reasons for their ideas and opinions.  |
| S-403 Present information and ideas orally, visually, or concretely.  |
| S-404 Relate events and stories in chronological order.  |
Appendix D

Vocabulary Strategies
Vocabulary development is integrated within each learning experience, introducing or reinforcing understanding of specific words and concepts within the context of the learning experiences and the cluster. A variety of vocabulary strategies may be used to assist students in activating, acquiring, and applying the appropriate vocabulary. Strategies may be modified to suit different grades.

Activate

Students come to class dressed in a costume that represents a new vocabulary word. They guess the word's meaning or something the costume represents (e.g., a globe). Peers guess the vocabulary word. Grades K–4

Students come to class dressed in costumes that represent new vocabulary words. Peers guess the word. Grades K–4

Students come to class dressed in costumes that represent new vocabulary words. Peers guess the word. Grades K–4

Activate

Students may be dressed in costumes that represent new vocabulary words. Peers guess the word. Grades K–4

Grades K–2

Students may be dressed in costumes that represent new vocabulary words. Peers guess the word. Grades K–4

Apply

Students play "I Spy" with my little eye, providing clues to match something in the classroom. Grades K–4

Students match new vocabulary to magic pictures or clip art illustrating the new word. Grades K–4

Students may be dressed in costumes that represent new vocabulary words. Peers guess the word. Grades K–4

Apply

Students match new vocabulary to magic pictures or clip art illustrating the new word. Grades K–4

Students may be dressed in costumes that represent new vocabulary words. Peers guess the word. Grades K–4

Acquire

Students use sandpaper letters and crayons to do word rubbings for new vocabulary words. Grades K–2

Students may be dressed in costumes that represent new vocabulary words. Peers guess the word. Grades K–4

Acquire

Students use sandpaper letters and crayons to do word rubbings for new vocabulary words. Grades K–2

Students may be dressed in costumes that represent new vocabulary words. Peers guess the word. Grades K–4

TIP: Create your own "Etch-a-Sketch®." Mix tempera paint, cornstarch, and water to a fairly thick consistency, and place the mixture in self-sealing plastic bags. Students use their fingers or magic letters to label items displayed in an artifact centre (e.g., globe, maps).

Grades K–2

Students use sandpaper letters and crayons to do word rubbings for new vocabulary words. Grades K–2

Students may be dressed in costumes that represent new vocabulary words. Peers guess the word. Grades K–4

Apply

Students play "I Spy" with my little eye, providing clues to match something in the classroom. Grades K–4

Students match new vocabulary to magic pictures or clip art illustrating the new word. Grades K–4

Students match new vocabulary to magic pictures or clip art illustrating the new word. Grades K–4

Apply

Students play "I Spy" with my little eye, providing clues to match something in the classroom. Grades K–4

Students match new vocabulary to magic pictures or clip art illustrating the new word. Grades K–4

Acquire

Students may be dressed in costumes that represent new vocabulary words. Peers guess the word. Grades K–4

Students may be dressed in costumes that represent new vocabulary words. Peers guess the word. Grades K–4

Acquire
Students play “Spelling in Motion” to practice new vocabulary. Taking turns, one student calls out a new vocabulary word, then spells the word out loud (e.g., Citizen, c-i-t-i-z-e-n, Citizen, jumping jacks). Peers perform the action, spelling the word aloud (e.g., One student says “Citizen, c-i-t-i-z-e-n, Citizen, jumping jacks.” Peers do jumping jacks as they spell the word, performing one jumping jack for each letter).

This is an alphabetical list of resources for Kindergarten. The annotations are either in paragraph form or by topic. This list combines Integrated Resources, Series, Atlases, and Stand-Alone Resources.

These resources have been evaluated and recommended in 2003 and 2004 by a group of Manitoba teachers who were nominated by their school divisions. As additional materials are evaluated and recommended this resource list will be updated. Please check for updates online at <www.edu.gov.mb.ca/ks4/cur/socstud/index.html>.

A complete K–8 annotated bibliography of recommended learning resources is available online at <http://www.edu.gov.mb.ca/ks4/learnres/bibliographies.html>.

For information or assistance regarding the purchase of learning resources listed, please contact:

The Manitoba Text Book Bureau
Box 910
Souris, MB R0K 2C0
Toll free (in Manitoba and Saskatchewan): 1-866-771-6822

• Basic needs
Suggested Use: Kindergarten; Kindergarten—Cluster 1; Student—Depth
Date Recommended: 2003-Aug-25
In the Global Classroom 1

This is a softcover Kindergarten to Grade 8 teacher reference resource. This resource emphasizes a teaching and learning strategy that combines child-centred and world-minded educational thinking. It builds frameworks for cross-curricular delivery and offers a wealth of practical and engaging activities for students.

Themes within the text include: interconnections (perceptions, local and global communities); environment and sustainability (natural, built, social, and inner); health (physical, mental, emotional, spiritual, social, societal, and environmental); perception (perceptions and cross-cultural encounters); technology (benefits, tools, problem solving, technological change, social values, and consequences in the future); and futures (alternative, probable, and preferred).

The resource includes materials related to citizenship, diverse-perspectives, global, identity, and economic learning outcome experiences.

Comment: Charts are included at the beginning of each chapter to indicate activities within the chapter and the index. The grade level for which the activities are suggested is not included.

Suggested Use:

Is That Right? Critical Thinking and the Social World of the Young Learner

This teacher resource emphasizes that there is no better day than today to teach our children the value and rewards of critical thinking. It defines critical thinking as the ability to make reasoned judgments in problematic situations. It also demonstrates how critical thinking can be applied to social studies and other subject areas. It includes practical activities and assessment approaches (including rubrics). Chapters focus on critical thinking, teaching critical thinking, and assessing critical thinking.
This resource is based on current research. It is suitable for a wide range of learning styles, promotes active learning and creativity, and is well organized.
Suggested Use:
Kindergarten; Kindergarten—Cluster 2;
Grade 1; Grade 1—Cluster 3;
Grade 2; Grade 2—Cluster 3;
Grade 3; Grade 3—Cluster 1; Grade 3—Cluster 3;
Grade 4; Grade 4—Cluster 2;
Grade 5; Grade 5—Cluster 1;
Grade 6; Grade 6—Cluster 4;
Grade 7; Grade 7—Cluster 3; Grade 7—Cluster 4;
Grade 8; Grade 8—Cluster 1;

Lessons from Turtle Island: Native Curriculum in Early Childhood Classrooms
This softcover, 175-page professional resource contains valuable information on stereotypes and
misconceptions about Aboriginal peoples in America. It has a U.S. focus, and is a general
introduction to Aboriginal culture. Inuit or Canadian First Nations cultures are not featured.
It provides a detailed bibliography on Aboriginal culture, values, and heritage, including
children’s literature with suggested activities that support integration across subject areas. It
partially supports the Manitoba social studies curriculum outcomes for Kindergarten, Grades 1, 2,
4, and 5. It also provides age-appropriate learning activities.
Suggested Use:
Kindergarten; Kindergarten—Cluster 2;
Grade 1; Grade 1—Cluster 3;
Grade 2; Grade 2—Cluster 1; Grade 2—Cluster 2;
Grade 4; Grade 4—Cluster 3;
Grade 5; Grade 5—Cluster 1;

• Safety First (Big Book)

The guided reading books are available for purchase in packages of six and can also be used as a supplemental resource for ELA. Curricular connections can be made with art, math, music, drama, and science activities. The guided reading books are printed with a clear font and appropriately sized for Grade 1. These resources promote parental and family involvement and address citizenship issues.

Caution: It should be noted the guided reading books I Miss Grandpa and My Dog Kam deal with the sensitive issue of death.

Date Recommended: 2004-Mar-31

Nelson Language Arts InfoRead

This series of seven books comprised of the following: A Map to Fun, Dog Safety Rules, Season to Season, Snacktime, Solving Problems, We All Help, and We Care are part of a larger package that correlates with the Manitoba Kindergarten social studies curriculum outcomes to varying degrees. Each book is 16 pages in length and written at a level appropriate to beginning readers. Each book can be read aloud or used in guided reading.

Accompanying each book is a Teacher’s Lesson Card that provides activities for before, during, and after delivery of the material to students.

Comment: Internet access is required in order to use the assessment strategies, which are only delivered online. The online material has not been reviewed.

Date Recommended: 2003-Mar-10

Nelson Language Arts InfoRead: A Map to Fun with accompanying Teacher’s Lesson Card

This book supports the Manitoba Grade 1 social studies curriculum outcomes for mapping skills (Cluster 2: I Belong), as well as the outcomes for Cluster 3 (The World Around Me) in the Kindergarten curriculum. It can also be used as a supplemental resource for English language arts, and curricular connections can be made with art.

This 186-word beginner reading book is printed with a font that is clear and appropriately sized for Grade 1. This resource promotes parental and family involvement, and addresses citizenship issues by modeling values of helping one another and promoting the use of community facilities.

Suggested Use:

Kindergarten; Kindergarten—Cluster 3;
Grade 1; Grade 1—Cluster 2; Student—Breadth; Teacher Reference

Date Recommended: 2003-Mar-10
Nelson Language Arts InfoRead: Dog Safety Rules with accompanying Teacher’s Lesson Card

This book correlates with the Manitoba Grade 1 social studies curriculum. It is a 94-word beginner reading book that focuses on decision making, citizenship, rules and consequences, power, and authority.

It relates to other topics and subjects of interest for children, such as pets and treatment of animals. It also provides a model for relating to other people and to animals.

This book promotes respect for people and animals.

Suggested Use:
Kindergarten; Kindergarten—Cluster 1;
Grade 1; Grade 1—Cluster 3; Student—Breadth; Teacher Reference

Date Recommended: 2003-Mar-10

Nelson Language Arts InfoRead: Season to Season with accompanying Teacher’s Lesson Card

This resource is well suited to the Manitoba Grade 1 social studies curriculum. It supports the outcomes related to timelines, changing seasons, working and playing together, and cooperation.

This resource is a 325-word poetry book that includes amusing and creative pictures. The book provides curricular connections to science and art.

Suggested Use:
Kindergarten; Kindergarten—Cluster 2;
Grade 1; Grade 1—Cluster 3; Student—Breadth; Teacher Reference

Date Recommended: 2003-Mar-10
Recommended Learning Resources

Nelson Language Arts InfoRead: Snacktime with accompanying Teacher’s Lesson Card

This resource can be used in Kindergarten and Grade 1 classrooms, correlating with the citizenship outcomes.

This 49-word beginner reading book includes current and accurate photographs. Curricular connections are made with English language arts and health.

Suggested Use:

Kindergarten; Kindergarten—Cluster 1;
Grade 1; Grade 1—Cluster 3; Student—Breadth; Teacher Reference

Date Recommended: 2003-Mar-10

Nelson Language Arts InfoRead: Solving Problems with accompanying Teacher’s Lesson Card

This book supports many of the power and authority outcomes in the Manitoba Grade 1 social studies curriculum. It also supports learning outcomes related to bullying, decision making, and problem solving.

It is 247-word book that can be read aloud or used in guided reading. Curricular connections are made with health and English language arts.

Suggested Use:

Kindergarten; Kindergarten—Cluster 2;
Grade 1; Grade 1—Cluster 3; Student—Breadth; Teacher Reference

Date Recommended: 2003-Mar-10
Nelson Language Arts InfoRead: We All Help with accompanying Teacher’s Lesson Card

This book supports the Manitoba Grade 1 social studies learning outcomes related to citizenship in all three clusters.

It is a 59-word book, written at the Kindergarten and Grade 1 level, that promotes parental and family involvement. Curricular connections can be made to English language arts.

The book includes cultural diversity in its subject matter in that its illustrations depict a visible-minority family.

Suggested Use:
Kindergarten; Kindergarten—Cluster 2;
Grade 1; Grade 1—Cluster 1; Grade 1—Cluster 2; Grade 1—Cluster 3; Student—Breadth; Teacher Reference

Date Recommended: 2003-Mar-10

Nelson Language Arts InfoRead: We Care with accompanying Teacher’s Lesson Card

This 146-word beginner reading book supports the Manitoba Grade 1 social studies curriculum outcomes in Cluster 2 (My Environment) and Cluster 3 (Connecting With Others). It focuses particularly on global and active citizenship. It provides a variety of vocabulary and some follow-up activities. Curricular connections can be made to art.

This book promotes active citizenship by providing models of other children helping and caring for others and the environment.

Suggested Use:
Kindergarten; Kindergarten—Cluster 3;
Grade 1; Grade 1—Cluster 2; Grade 1—Cluster 3; Student—Breadth; Teacher Reference

Date Recommended: 2003-Mar-10
Nelson Language Arts

This includes a 16-page text and lesson cards for seven titles and two big books, one each for two of the titles, At the Park, Dad, Look at Me, Seasons, The Helper, We Clean Up, and Where I Live that correlate with the Manitoba Kindergarten social studies curriculum outcomes to varying degrees. Each book is 16 pages in length and written at a level appropriate to beginning readers. The books can be read aloud or used in guided reading.

Accompanying each book is a Teacher’s Lesson Card that provides activities for before, during, and after delivery of the material to students.

Comment: Internet access is required in order to use the assessment strategies, which are only delivered online. The online material has not been reviewed.

Date Recommended: 2003-Mar-10

Nelson Language Arts: At the Park with accompanying Teacher’s Lesson Card

This resource supports the learning outcomes in Cluster 1 (Me) of the Manitoba Kindergarten social studies curriculum.

It presents a current and accurate representation of children. The font and photographs are easy for children to relate to, and the resource is age appropriate.

Suggested Use:
Kindergarten; Kindergarten—Cluster 1;
Student—Breadth; Teacher Reference

Date Recommended: 2003-Mar-10

Nelson Language Arts: Dad with accompanying Teacher’s Lesson Card

This 16-page book supports the skills and learning outcomes of the Manitoba Kindergarten social studies curriculum for Cluster 1 (Me) and Cluster 2 (The People Around Me), including outcomes on citizenship and identity.

The book is current and accurate, and promotes the family and daily routines. The characters in the family are easy to relate to, and they introduce familiar and humorous situations.

This book contains age-appropriate vocabulary, font size, pictures, and learning activities. It is a beginner reading book with 38 words.

Suggested Use:
Kindergarten; Kindergarten—Cluster 1; Kindergarten—Cluster 2;
Student—Breadth; Teacher Reference

Date Recommended: 2003-Mar-10
**Nelson Language Arts: Look at Me with accompanying Teacher’s Lesson Card**

This resource supports the learning outcomes in Cluster 1 (Me) of the Manitoba Kindergarten social studies curriculum.

This book is a 27-word beginner reading book that includes photographs that are current and appropriate for children at this level. Curricular connections can be made with English language arts and health.

Comment: Children may find the photographs to be confusing (children appear to express different emotions on pages with “Look at me” than on pages with “I am…”).

Suggested Use:
Kindergarten; Kindergarten—Cluster 1;
Student—Breadth; Teacher Reference

Date Recommended: 2003-Mar-10

**Nelson Language Arts: Seasons Big Book**

This book supports skills and learning outcomes in each of the clusters of the Manitoba Kindergarten social studies curriculum, and is very appropriate for students at this level.

This is a 25-word beginner reading book that is included in the Language Arts series. This version is a large “big book” format that is sold separately. Curricular connections can be made to science, English language arts, and health.

The book includes many appropriate photographs, although they do not reflect a diverse cultural makeup.

Note: Teacher Read-Aloud

Suggested Use:
Kindergarten; Kindergarten—Cluster 1; Kindergarten—Cluster 2; Kindergarten—Cluster 3;
Student—Breadth; Teacher Reference

Date Recommended: 2003-Mar-10
**Recommended Learning Resources**

**Nelson Language Arts: Seasons with accompanying Teacher’s Lesson Card**

This book supports skills and learning outcomes in all of the clusters of the Manitoba Kindergarten social studies curriculum, and is very appropriate for students at this level.

This is a 25-word beginner reading book that is included in the Language Arts series, and is also published in a large “big book” format that is sold separately. Curricular connections can be made to science, English language arts, and health.

The book includes many appropriate photographs, although they do not reflect a diverse cultural makeup.

Suggested Use:

Kindergarten; Kindergarten—Cluster 1; Kindergarten—Cluster 2; Kindergarten—Cluster 3; Student—Breadth; Teacher Reference

Date Recommended: 2003-Mar-10

**Nelson Language Arts: The Helper with accompanying Teacher’s Lesson Card**

This 33-word book supports all three clusters of the Manitoba Kindergarten social studies curriculum. The book displays families sharing job responsibilities, and uses appropriate vocabulary and photographs.

Suggested Use:

Kindergarten; Kindergarten—Cluster 1; Kindergarten—Cluster 2; Kindergarten—Cluster 3; Student—Breadth; Teacher Reference

Date Recommended: 2003-Mar-10

**Nelson Language Arts: We Clean Up Big Book**

This book supports the skills and learning outcomes in the Manitoba Kindergarten social studies curriculum Cluster 1 (Me) and Cluster 2 (The People Around Me).

This is a 41-word beginner reading book that is included in the Language Arts series. This version is a large “big book” format that is sold separately.

The photographs are current and show activities children can relate to their own classroom experience. It includes a diverse cultural representation of children in the photos.

Note: Teacher Read-Aloud

Suggested Use:

Kindergarten; Kindergarten—Cluster 1; Kindergarten—Cluster 2; Student—Breadth; Teacher Reference

Date Recommended: 2003-Mar-10
**Nelson Language Arts: We Clean Up with accompanying Teacher’s Lesson Card**

This book supports the skills and outcomes in the Manitoba Kindergarten social studies curriculum Cluster 1 (Me) and Cluster 2 (The People Around Me).

This is a 41-word beginner reading book that is included in the Language Arts series, and is also published in a large “big book” format that is sold separately.

The photographs are current and show activities children can relate to their own classroom experience. It includes a diverse cultural representation of children in the photos.

Suggested Use:
Kindergarten; Kindergarten—Cluster 1; Kindergarten—Cluster 2; Student—Breadth; Teacher Reference

Date Recommended: 2003-Mar-10

---

**Nelson Language Arts: Where I Live with accompanying Teacher’s Lesson Card**

The book can be used to introduce children to an Aboriginal community. It supports outcomes in all three clusters of the Manitoba Kindergarten social studies curriculum. This is a 39-word book with age-appropriate vocabulary and photographs.

Suggested Use:
Kindergarten; Kindergarten—Cluster 1; Kindergarten—Cluster 2; Kindergarten—Cluster 3; Student—Breadth; Teacher Reference

Date Recommended: 2003-Mar-10
