

BRIGHTSPACE FAQs – HOW TO ACCESS THE LMS AND REQUEST A COURSE

1. **WHAT COURSES ARE AVAILABLE THROUGH THE NEW LEARNING MANAGEMENT SYSTEM (LMS)?**

Teachers can access all of the Manitoba-developed Web-Based Courses.

Web-Based Courses are based on Manitoba curriculum that are available for all teachers to use as a resource or to use for online teaching. WBC do not include assessments. Teachers can modify content and add assessments to meet the needs of their students.

Web-Based Courses – PDF are based on Manitoba Distance Learning Independent Study Option courses that are available for all teachers to use as a resource. Like all Web-Based Courses, these PDF versions do not include assessments (Quizzes or Tests). There are instructions for submitting assignments that are specific to the Independent Study Option. Teachers will need to modify content to instruct students on how to submit work.
