INTRODUCTION

PURPOSE

The purpose of the *Subject Table Handbook: Technology Education* is to support schools in the 2017-2018 school years by:

- providing basic information to assist schools in completing the Professional School Personnel system (PSP) forms
- providing basic information to schools for entering student records into the Student Records system (SRS)
- providing subject computer codes for courses developed by Education and Training and for those approved or registered by the Department

A new edition of the *Subject Table Handbook* is provided for each school year. It reflects changes to course codes, credits, etc. that apply for the upcoming school year. Schools are responsible for ensuring that they are using the appropriate edition of the Handbook when recording student marks for Professional Certification and Student Records Unit in Russell, Manitoba. **Note that schools must use the September 2016-June 2017 Subject Table Handbook for reporting 2016-2017 student marks in the summer and fall of 2017.**

This edition of the *Subject Table Handbook: Technology Education* is in effect from September 1, 2017 to August 31, 2018 and is available online at <http://www.edu.gov.mb.ca/k12/docs/policy/sthte/index.html>. Placing the Handbook online provides information about course codes, levels, and credits to accommodate schools in setting up their registrations and course offerings for the next school year. The online content will be updated several times during the year, but schools should exercise some caution when setting up their course codes.

SENIOR YEARS CREDIT SYSTEM

The Senior Years (Grade 9 to Grade 12) credit system provides flexibility to enable students to pursue Senior Years courses best suited to their individual requirements and aspirations. Students may earn *one credit* by undertaking and successfully completing a course of study designed for a minimum of 110 hours of instruction. *Half credits* (courses designed for a minimum of 55 hours of instruction) may be earned in like manner. There are two categories of credits: Compulsory and Optional.

SENIOR YEARS COURSE IDENTIFICATION

Course Numbering

The present course numbering system comprises a 3-character, alpha-numeric code. The first and second characters are numerals, while the third is a letter.

- **First Character**
 - 1 - for courses developed for Grade 9
 - 2 - for courses developed for Grade 10
 - 3 - for courses developed for Grade 11
 - 4 - for courses developed for Grade 12
- **Second Character**
 - 0 - developed by Education and Training for 1 credit
 - 5 - developed by Education and Training for ½ credit
 - 1 developed by schools or school divisions and registered by Education and Training (includes SICs and SIPs)
 - 2 externally developed by an educational authority and, in the case of dual credit, a post-secondary institution (e.g., university, out-of-country).

- **Third Character**
 - G - General
 - F - Foundation
 - S - Specialized
 - E - EAL
 - M- Modified
 - I - Individualized
 - C - College-based
 - U - University-based

Course Designations

- Foundation (F):** Educational experiences which are broadly based and appropriate for all students and which may lead to further studies beyond the Senior Years (e.g. apprenticeship, college, and university). When a subject area is compulsory for graduation and there is only one course option, the designation will be F.
- General (G):** General educational experiences for all students. The G designation will be retained for Independent Study and Teacher-Mediated courses in all areas until these courses are revised. Industrial Arts and Home Economics courses may be identified as General (G) or Specialized (S) at the Grade 11 and Grade 12 levels.
- Specialized (S):** Educational experiences in specialized areas leading to further studies beyond the Senior Years (e.g., apprenticeship, college or university). Business Education and Marketing Education courses at Grade 10-12 and Technical Vocational courses at Grade 9-12 are designated as Specialized.
- EAL (E):** Educational experiences designed to focus on English as an Additional Language (EAL) learning goals in the context of the subject, based on the student’s assessed level of EAL proficiency, and to assist the student in making the transition into regular Senior Years programming in this content area. An EAL Individual Educational Plan (EAL-IEP) is required for each student.
- Modified (M):** Educational experiences intended for students with significant cognitive disabilities and where the provincial subject area curriculum outcomes have been modified to take into account the learning requirements of a student; an Individual Education Plan (IEP) is required for each student.
- Individualized (I):** Educational experiences intended for students with significant cognitive disabilities and that are developmentally and age appropriate and highly individualized to take into account the learning requirements of the student; an Individual Education Plan (IEP) is required for each student.

NOTE: Students in individualized programming do not use Education and Training curricula. The designation indicates student participation in individualized programming. **For example,** 1II indicates year one of student participation in locally developed programming individualized for the student; 7II indicates year seven of such participation.

College-based (C): Post-Secondary courses that can be recognized for dual credit at the Grade 12 level (and in some cases, at the Grade 11 level) and also for the first year of college. These courses count towards fulfilling the credit requirements for high school graduation.

University-based (U): Post-secondary courses that can be recognized for dual credit at the Grade 12 level and also for the first year of university. These courses count towards fulfilling the credit requirements for high school.

Partnerships: Some Technical Vocational Programs may be offered in partnership with post-secondary institution. Schools are required to request approval from Manitoba Education and Training to ensure proper course codes, agreements, and teaching credentials are in place.

Course Levels

Grade 9: All subject area curricula, except technical vocational, will be developed as foundation courses. Some technology education curricula may be developed as specialized courses. The Foundation (F) course designation will replace the General (G) course designation as new curricula come into effect.

Grade 10: As new curricula are introduced, all subject area curricula, except technical vocational, science, and mathematics, will be developed as Foundation (F) courses. Some curricula for technology education, science, and mathematics may be developed as Specialized (S) courses.

Grade 11: As new curricula are introduced, a variety of subject area curricula will be developed for different purposes, including a range of Foundation (F) and Specialized (S) courses.

Grade 12: As new curricula are introduced, a variety of subject area curricula will be developed for different purposes, including a range of Foundation (F), and Specialized (S) courses. Currently, curricula are developed for General (G) and Specialized (S) courses. Courses that qualify for a U designation are first year University Courses. Those that qualify for a C designation are first year College courses. From Grade 9 to Grade 12, a particular Foundation, General and/or Specialized subject area curriculum can be modified on an individual basis via a student's Individual Education Plan following Departmental requirements. The M or E course designation then applies.

NOTE: No Departmental regulation will prevent a student from taking a designated course in one senior year and then switching to a different designation in a later year.

Examples:

Grade 9 Intro to Electronics (10S) Grade 9, developed or approved by Education and Training for 1 credit, Specialized course.

Grade 9 Introduction to Technical Vocational (15S) Grade 9, developed or approved by Education and Training for ½ credit, Specialized course.

Grade 9 Family Studies (15M)	Grade 9, developed or approved by Education and Training for ½ credit, General course modified in curriculum goals and objectives or outcomes to accommodate a student with significant cognitive disabilities according to the Individual Education Plan (IEP).
Grade 10 Family Studies (25G)	Grade 10, developed or approved by Education and Training for ½ credit, General course.
Grade 11 Machine Tool Technology (30G)	Grade 11, developed or approved by Education and Training for 1 credit, General course.
Calculus (1103/4) (42C)	Grade 12, a first year college level course for dual credits, developed by a college and approved by Education and Training for one-half credit, College-based course.
Introduction to Sociology (077.120) (42U)	Grade 12, a first year university level course for dual credits, developed by a university and approved by Education and Training for one credit, University-based course.

GRANTING OTHER CREDITS FOR SENIOR YEARS

CHALLENGE FOR CREDIT

The Challenge for Credit Option offers students the opportunity to apply prior knowledge in a particular subject area by demonstrating achievement in the learning outcomes of that course/speciality and receiving credit for it. For information on *The Challenge for Credit Option* refer to www.edu.gov.mb.ca/k12/policy/gradreq/docs/choice_attacha.pdf.

COMMUNITY SERVICE STUDENT-INITIATED PROJECT (CSSIP)

Students may earn one Community Service credit (in the form of a SIP) within the 30 credits for graduation. These SIPs consisting of volunteer service are not to be registered with the Department. A Community Service SIP course code (8977) is available. Guidelines for this SIP are available at http://www.edu.gov.mb.ca/k12/policy/gradreq/docs/culture_guidelines.pdf

CULTURAL EXPLORATION STUDENT-INITIATED PROJECT (CESIP)

Students can gain valuable educational experience by enhancing their knowledge of their own cultural origins or a cultural group that interests them through interaction with community members such as Elders and members of cultural organizations. The skills, knowledge and attitudes obtained from such activities can increase a student's self-esteem and maturity, strengthen cultural identity and/or provide greater intercultural understanding and an appreciation of cultural diversity. One credit may be available to a student who participates in such activity in the senior years for graduation purposes and does not require departmental registration. Additional information is available at: http://www.edu.gov.mb.ca/k12/policy/sics_sips.html

DISTANCE LEARNING COURSES

Students may take compulsory or optional courses in either print or online format including courses delivered from outside the province. Additional information on distance learning policy is available at http://www.edu.gov.mb.ca/k12/docs/policy/online_learning

In-province Courses: In-Province Courses: The course codes for in-province compulsory and optional distance learning courses that are based on Department curricula are the same codes that are used for in-class instruction e.g. 0092 ELA: A Comprehensive Focus 40S.

Out-of-province Courses: The distance learning optional courses delivered by an out-of-province educational authority are the same as those for any non-Manitoba credits. See http://www.edu.gov.mb.ca/k12/docs/policy/op_credits/index.html for information on granting non-Manitoba credits.

POST-SECONDARY CREDITS AND SENIOR YEARS - DUAL CREDITS

Senior year's students may take post-secondary courses for Senior Years graduation credits. Guidelines are available at http://www.edu.gov.mb.ca/k12/policy/gradreq/docs/dc_guide_10.pdf

SCHOOL-INITIATED COURSES (Sacs) AND STUDENT-INITIATED PROJECTS (SIPs)

School-Initiated Courses (SICs) and Student-Initiated Projects (SIPs) information is available at <http://www.edu.gov.mb.ca/k12/docs/support/lde/> and provides the most current information on registration procedures.

SPECIAL LANGUAGE CREDIT OPTION

This credit option provides for the recognition of Manitoba's linguistic diversity. Students proficient in languages other than English or French are eligible. Only one special language credit may be earned at each of the Senior Years. Student marks can be reported as a percentage mark; however, "S" for "Standing" may be used for granting additional/prior credit(s). For further information refer to <http://www.edu.gov.mb.ca/k12/docs/policy/lancredits/index.html>.

SUBSTITUTION OF CREDITS IN EXCEPTIONAL CIRCUMSTANCES

In exceptional circumstances, and in discussion with parents, a school administrator may approve the substitution of an optional course for a compulsory course. Substitution of credit is permitted for any compulsory subject. School divisions/schools can decide whether to allow substitution of credits. A maximum of two substitute credits may be used toward high school graduation. If a course is substituted for another, the school must report the substitution to Student Records and note the substitution on the student's transcript. See http://www.edu.gov.mb.ca/k12/policy/gradreq/docs/substituion_credits.pdf.

For example, A 40 level math course is required for graduation. If a student did not complete a 40 level math course, the school principal may substitute another course as credit toward graduation, such as Biology 40S substituted for Applied Math 40S. The student's mark for Biology 40S would appear on the student's transcript with a note that Biology 40S has been substituted for Applied Math 40S. The student's mark for Biology 40S would also be reported to Student Records and the school principal would submit a *Substitution of Credit* form to Student Records. The form would indicate that the student had completed Biology 40S as a substitution for Applied Math 40S.

TECHNOLOGY EDUCATION –PROGRAM GROUPINGS

The *Subject Table Handbook: Technology Education* divides available courses into the following **groups**. Each program group may be eligible for program cluster funding, and each course or unit in the cluster may be eligible for unit-credit funding, as outlined in the Funding of Schools document. Please see listings of groups, program clusters, and unit-credit titles starting on page ix.

Technical Vocational

The implementation model for technical-vocational education provides for nine credits from Grades 9 to 12. The Grade 9 credit is optional, depending on local school resources. The eight courses developed from Grades 10 to 12 forms the foundation courses within the specific cluster. School divisions/districts are eligible for a categorical grant of \$5,500.00 per approved Senior Years Technology Education Program. School divisions/districts are eligible for unit-credit support based on approved courses within Category I (\$165.00 per pupil credit) and Category II (\$55.00 per pupil credit). See Appendix A.

Exploration Credit

New to Technical Vocational Education (TVE) is the “Exploration of Technical Vocational Education” optional course. It can be used as a part of one or more TVE clusters, to allow students in grade 9 to explore one or more skilled trade areas available in a school.

High School Apprenticeship Program

The High School Apprenticeship Program (HSAP) falls within the Senior Years Technology Education Program. In Manitoba, apprenticeship training, including HSAP, is administered by Apprenticeship Manitoba. Apprenticeship is a training relationship involving a trainee (known as an apprentice), an employer, and Apprenticeship Manitoba. An employer hires an apprentice to meet an existing or projected skill need. A contractual arrangement, known as entrepreneurship is established among the employer, the apprentice, and Apprenticeship Manitoba. Students can receive up to eight credits from HSAP towards graduation. See Appendix B.

Industrial Arts

The Senior Years curricula for Industrial Arts were originally prepared for Grades 10 to 12. The structure of Grades 9 to 12 resulted in the re-designation of Industrial Arts 101, 201, and 301 curricula as Grades 10, 11, and 12 respectively. Half-credit versions of the Grade 9 and Grade 10 curricula have been identified for those schools that prefer to provide half-credits. Grade 9 programming is derived from the existing middle years/junior high curriculum for Grade 9. New course titles have been identified for the Industrial Arts unit-credits. Details concerning the categories of clusters are found in Appendix C.

Human Ecology - Home Economics

Home Economics for the Senior Years includes curricula that were originally prepared for Grades 9 to 12. Half-credit versions of the Grade 9 and 10 curricula have been identified for those schools that prefer to provide half-credits. Human Ecology courses are eligible for unit-credit funding. Details are found in Appendix D.

Business Education and Marketing Education

For Categorical Grant purposes, a series of at least eight Business Education and Marketing Education courses are selected. A marketing course grouping contains the five Marketing courses and at least three Business Education courses. Note that a selection of Department-developed Computer courses can also be used to satisfy the course requirement for Categorical Grant purposes. Business Education and Marketing Education unit-credit titles are **not** part of the unit-credit support. See Appendix E

PROGRAM AND UNIT-CREDIT CATEGORIES

The program and unit-credit categories are listed under each program group and list category titles for each program cluster of courses. This is a method for categorizing the programs and unit-credit titles that is linked to the appropriate categorical funding. For more information on the criteria required for categorical program funding and unit-credit funding please see <http://www.edu.gov.mb.ca/k12/finance/schfund/index.html>

Appendix A: Technical Vocational Programs

(This group may be eligible for program and unit-credit funding. Please see individual programs listed in this handbook for course codes and the unit-credit titles for each course in these programs).

GRADUATION REQUIREMENTS FOR THE SENIOR YEARS TECHNOLOGY EDUCATION PROGRAM

To receive a Senior Years Technical Education diploma, a student must complete eight departmentally developed courses from an approved technical-vocational cluster, together with 16 compulsory credits and six optional credits. A Grade 11 Social Studies credit is not compulsory for Technology Education Program graduation.

Diploma Requirements	Credits Required for Graduation
Compulsory Credits	16
English Language Arts (1 credit per grade)	4
Mathematics (1 credit per grade)	4
Physical Education/Health Education (1 credit per grade)	4
Social Studies (1 credit in each of Grades 9 and 10)	2
Science (1 credit in each of Grades 9 and 10)	2
Approved Cluster of Compulsory Technology Education Credits	8 to 12
Optional Credits	0 to 6
Totals	30

Please see http://www.edu.gov.mb.ca/k12/policy/gradreq/docs/grad_req_te.pdf for more information.

WELDING TECHNOLOGY

8377	EXPLORATION OF WELDING TECHNOLOGY	.5	15S 15E 15M
		1.0	10S 10E 10M
8378	INTRODUCTION TO WELDING TECHNOLOGY	1.0	20S 20E 20M
8414	METAL DESIGN FABRICATION OXY-ACET	1.0	30S 30E 30M
8474	BASIC GMAW (MIG) PROCEDURES	1.0	30S 30E 30M
8486	BASIC SMAW (ARC) PROCEDURES	1.0	30S 30E 30M
8487	ADVANCED GMAW (MIG) PROCEDURES	1.0	40S 40E 40M
8488	ADVANCED SMAW (ARC) PROCEDURES	1.0	40S 40E 40M
8489	ADVANCED METAL DESIGN/FABRICATION	1.0	40S 40E 40M
8503	APPLIED SPECIALTIES & QUALIFICATIONS	1.0	40S 40E 40M
