## **APPENDIX A: ISSUES IN PLANNING**

---

Below are some additional, significant issues that some school communities have addressed in their School Plans. For some school communities, some of these issues, such as policies dealing with bias or discrimination, may fall under a strategy for providing a supportive learning environment. School communities may choose to address these or other issues of local importance in their Annual School Plans:

- strategies for addressing conflict, safety, and violence
- policies dealing with bias, discrimination, and harassment
- student retention and promotion policies
- student achievement results on division-wide tests
- locally developed curricula
- co-curricular/extracurricular activities

This outline is not intended to be prescriptive or exhaustive.
