

Updating the EIS 2025 Installer

1. Archive Your Data

- Launch the EIS application.
- Navigate to: **Database → Archive.**
- Select your preferred location and save the archived file.
- Close the EIS Collection application.

2. Uninstall the Existing EIS 2025 Collection

- Refer to the **EIS Collection:** [EIS Collection: Uninstallation Guide](#) for detailed instructions on uninstalling the EIS 2025 Collection.

3. Install the New EIS 2025 Installer

- Follow the installation instructions provided in the [EIS Collection: Installation Guide](#).
- Ensure that all prompts are completed successfully.

Note: It is highly recommended to install the updated 2025 Collection. This will provide a comprehensive application experience with enhanced features and improved performance.

Issues Addressed in This Update

1. Year-End Update Functionality

The year-end update process now operates as intended.

2. Living with Responsible Adult Fields

New field associated with the “Living with Responsible Adult” are now saving correctly.

3. Course Code Handling

Issues related to course codes **0352**, **0349**, and **0353** have been resolved, ensuring proper recognition and processing within the system.
