

I have:

15

Who has 11 more than me?

I have:

19

Who has the sum of my digits times 4?

I have:

12

Who has 3 times me and then subtract 2?

I have:

7

Who has 4 times me and then add 3?

I have:

31

Who has 12 more than me?

I have:

43

Who has 2 tens less than me?

I have:

23

Who has the sum of my digits times 7?

I have:

35

Who has me divided by 5 then subtract 4?

I have:

3

Who has me times 10 and then subtract 1?

<p>I have:</p> <p>8</p> <p>Who has me times 3?</p>	<p>I have:</p> <p>38</p> <p>Who has half of me?</p>	<p>I have:</p> <p>4</p> <p>Who has me times 9 and then add 2?</p>

I have:

17

Who has the sum of my digits?

I have:

42

Who has half of me subtract 3?

I have:

24

Who has half of me, and then subtract 6?

I have:

6

Who has me times 4 and then add 6?

I have:

30

Who has me divided by 6, and then add 9?

I have:

14

Who has half of me times 6?

I have:

18

Who has me divided by 3 then subtract 2?

LIST OF QUESTIONS FOR 'WHO HAS...?'

- I have 17. Who has the sum of my digits?
- I have 8. Who has me times 3?
- I have 24. Who has half of me, and then subtract 6?
- I have 6. Who has me times 4 and then add 6?
- I have 30. Who has me divided by 6, and then add 9?
- I have 14. Who has half of me times 6?
- I have 42. Who has half of me subtract 3?
- I have 18. Who has me divided by 3 then subtract 2?
- I have 4. Who has me times 9 and then add 2?
- I have 38. Who has half of me?
- I have 19. Who has the sum of my digits times 4?
- I have 40. Who has me divided by 5 and then subtract 1?
- I have 7. Who has 4 times me and then add 3?
- I have 31. Who has 12 more than me?
- I have 43. Who has 2 tens less than me?
- I have 23. Who has the sum of my digits times 7?
- I have 35. Who has me divided by 5, then subtract 4?
- I have 3. Who has me times 10 and then subtract 1?
- I have 29. Who has half of one more than me?
- I have 15. Who has 11 more than me?
- I have 26. Who has the product of my digits?
- I have 12. Who has 3 times me and then subtract 2?
- I have 34. Who has half of me and then subtract 7?
- I have 10. Who has me times 4 then add 1?
- I have 41. Who has the sum of my digits times 4, then subtract 3?
