# **Discipline Overview**

Applied commerce education (ACE) consists of an optional cluster of courses for high school learners interested in pursuing a career in a commerce-related field, such as economics, entrepreneurship, business, marketing, technology, and finance. Each of the individual courses is an excellent option for any learner wanting to understand more about their role in our global economy. The 14 ACE course offerings allow learners to develop the skills they need to be effective business leaders, innovators, citizens, consumers, and employees.

## **Course Overview**

### **Creative Promotions**

Creative Promotions helps learners develop an understanding of promotional communication from both a theoretical and a practical approach. The course focuses on advertising strategies, direct marketing, personal selling, sales promotions, and public relations. Learners will apply these concepts and their creativity to design a variety of promotional and advertising material.

Creative Promotions is designed for learners who are looking to expand their business knowledge regarding communicating effectively and creatively.
