Reference for Selecting Learning Resources

ARTS EDUCATION: MUSIC KINDERGARTEN TO GRADE 6 LEARNING RESOURCES is a reference tool provided by Manitoba Education, Citizenship and Youth to help educators select student and teacher learning resources to support the curriculum. Recommended learning resources may be purchased through the Manitoba Text Book Bureau (MTBB), and many of the titles may be borrowed from the Department's Instructional Resources Unit (Library).

The bibliography is arranged alphabetically by title, followed with indexes. The indexes may include audience, (for example, resource for teachers or resource for students), grade, distributor, category (for example, depth resource), and suggested use.

Learning Resources Reviews

Publishers submit resources for review in response to the Department's request for new learning resources to support provincial curricula. Teachers, nominated by superintendents of school divisions, are selected as teacher-evaluators. Using a collaborative review process, the teacher-evaluators examine the materials according to the resource-selection criteria to make recommendations regarding the suitability of the resources for Manitoba students and teachers.

Resource Selection Criteria

Learning resources are selected based on the basis of their fidelity with the rationale, philosophy, processes, and learning outcomes identified in each curriculum. Four evaluation criteria are used in selecting learning resources:

- **Curriculum Fit/Content/Philosophy:** the degree to which the content and processes of the resource align with the curriculum, thus providing support for curriculum implementation.
- **Instructional Design:** the degree to which the resource provides for multiple approaches to learning, has a wide range of use, is current, and reflects current pedagogical theory and practice.
- **Social Considerations:** the degree to which the resource is free of bias and stereotyping. The resource is examined for Canadian content, the use of culturally diverse examples, and accurate portrayal of First Nations, Inuit, and Métis peoples. Cautionary notes are added to alert teachers to potentially sensitive curriculum-fit issues or potential community concerns related to the resource.
- **Technical Design:** the degree to which the resource is visually appealing and has a logical and consistent form.

When selecting learning and teaching resources, teachers should consider how the resources meet the learning requirements of students, the perspectives of the student population, and local decisions related to the delivery of potentially sensitive content.

Terms and Definitions

The following terms and definitions are used to describe the learning resources:

- **Breadth:** identifies learning resources that address a wide range of student learning outcomes for a particular grade.
- **Depth:** identifies learning resources that provide effective learning experiences in greater detail for a narrower grouping of student learning outcomes.
- **Breadth and Depth:** identifies comprehensive learning resources that provide both breadth and depth dimensions for an extensive grouping of student learning outcomes.
- **Teacher Reference:** identifies resources that assist teachers in implementing the curriculum, including background information for teacher use; may identify teaching suggestions and learning activities.
- **Teacher Guide:** identifies a separate guide for teachers or a teacher's edition of a **Student Text**.

This is an excellent teacher resource for those from beginning to experienced in arts implementation. It parallels the outcomes and goals detailed in the Manitoba Arts Curriculum Framework. It provides educators with the pedagogy behind integration of the arts, including underlying theories such as constructivism. It connects ideas such as Maslow's hierarchy and Piaget's stages of development to art education, while remaining grounded in real life classroom experience. It gives a detailed analysis of each of the art strands, and illustrates ways to integrate each strand across other curricular areas, such as math, science, ELA, and social studies. These lessons are organic, easy to understand, and provide opportunities for meaningful learning experiences for all students. The author provides readers with ways to adapt the lessons to meet the diverse needs of all students. The inquiry based lessons offer much opportunity for creativity, decision making, and growth for each student. The text encourages student self assessment of their own work, as well as providing teachers with a variety of meaningful assessment techniques.

This resource is well designed, and organized. Each chapter is supported by a vast bibliography including teacher resources, children's literature, and websites. The author appeals and inspires readers through famous quotes, classroom vignettes and real life photographs. Examples of Canadian include book title selections, representation of Aboriginal peoples, persons with disabilities, and use of Canadian spelling.

The resource explores rationales for inclusion of music into other subject areas. The assessment chapter is thorough, extensive and reflects the Manitoba Arts Education philosophy. The appendices and bibliographies are extensive. Canadian content is well represented.

This professional development resource is recommended for teacher study groups, classroom teachers, and specialists.

This teacher resource provides an excellent recorder continuum with lots of possibilities for extensions for movement and improvisation. There is excellent integration of Orff arrangements and recorder development. In order to use this book, there is an assumption that the teacher is familiar with the Orff process and knows the basics of preparing ostinato accompaniments and movement patterns. The Orff arrangements are engaging and accessible.

Teachers from Grades 3 to 6 would find this book very useful.

This teacher resource book is designed to promote personal professional growth as a music specialist teacher by providing opportunities to develop understanding of the ways in which people learn and the ways in which people learn music in particular. This book is an example of the constructivist approach and addresses the creative expression 'butterfly wing' of the Manitoba curriculum. This resource is designed for the K-6 music specialist; it contains lesson ideas and vignettes which illustrate the inquiry-based approach.
