## **ACKNOWLEDGEMENTS**

Manitoba Education and Training acknowledges the individuals involved in the review and selection of learning resources to support provincial curriculum implementation. Appreciation is also extended to school divisions within Manitoba that support teachers' participation in the review. Finally, publishers, producers, and distributors are thanked for their submission of learning resources for consideration.

## INTRODUCTION

# REFERENCE FOR SELECTING LEARNING RESOURCES

*SCIENCE KINDERGARTEN TO GRADE 4: A Reference For Selecting Learning Resources* is a reference tool provided by Manitoba Education and Training to help educators select student and teacher learning resources to support the curriculum. Learning resources may be purchased through the Manitoba Learning Centre (LRC) (formerly known as the Manitoba Text Book Bureau (MTBB)).

## LEARNING RESOURCES REVIEWS

Publishers submit resources for review in response to the department's request for new learning resources to support provincial curricula. Teachers, nominated by superintendents of school divisions, are selected as teacher-evaluators. Using a collaborative review process, the teacher-evaluators examine the materials according to the resource-selection criteria to make recommendations regarding the suitability of the resources for Manitoba students and teachers.

## RESOURCE SELECTION CRITERIA

Learning resources are selected based on the basis of their fidelity with the rationale, philosophy, processes, and learning outcomes identified in each curriculum. Four evaluation criteria are used in selecting learning resources:

- **Curriculum Fit/Content/Philosophy:** the degree to which the content and processes of the resource align with the curriculum, thus providing support for curriculum implementation.
- **Instructional Design:** the degree to which the resource provides for multiple approaches to learning, has a wide range of use, is current, and reflects current pedagogical theory and practice.
- **Social Considerations:** the degree to which the resource is free of bias and stereotyping. The resource is examined for Canadian content, the use of culturally diverse examples, and accurate portrayal of First Nations, Inuit, and Métis peoples. Cautionary notes are added to alert teachers to potentially sensitive curriculum-fit issues or potential community concerns related to the resource.
- **Technical Design:** the degree to which the resource is visually appealing and has a logical and consistent form.

When selecting learning and teaching resources, teachers should consider how the resources meet the learning requirements of students, the perspectives of the student population, and local decisions related to the delivery of potentially sensitive content.

## TERMS AND DEFINITIONS

The following terms and definitions are used to describe the learning resources:

- **Breadth:** identifies learning resources that address a wide range of student learning outcomes for a particular grade.
- **Depth:** identifies learning resources that provide effective learning experiences in greater detail for a narrower grouping of student learning outcomes.
- **Breadth and Depth:** identifies comprehensive learning resources that provide both breadth and depth dimensions for an extensive grouping of student learning outcomes.
- **Teacher Reference:** identifies resources that assist teachers in implementing the curriculum, including background information for teacher use; may identify teaching suggestions and learning activities.
- **Teacher Guide:** identifies a separate guide for teachers or a teacher's edition of a **Student Text**.

## PURCHASE OF LEARNING RESOURCES

The learning resources described in the bibliography are available for purchase through the Manitoba Learning Resources Centre (LRC) (formerly known as the Manitoba Text Book Bureau). For information or assistance regarding the purchase of learning resources, contact:

## TITLES & DESCRIPTIONS

## Expert Space: Content & Tools for 21st Century Learners

<b>Edition:</b>	Canadian Edition	<b>Audience:</b>	Student, Teacher
<b>Year:</b>	2009	<b>Suggested Use(s):</b>	Social Studies, Visual Arts, English Language Arts, Music
<b>Format:</b>	Web-Base Resource		
<b>Publisher:</b>	Scholastic Canada Ltd.	<b>Date Recommended:</b>	April 13, 2012

### Subject/Grade

	K	1	2	3	4	5	6	7	8	9	10	11	12
Science					✓	✓	✓	✓	✓	✓	✓		
English Language Arts					✓	✓	✓	✓	✓	✓	✓		
Music					✓	✓	✓	✓	✓	✓	✓		
Social Studies					✓	✓	✓	✓	✓	✓	✓		
Visual Arts					✓	✓	✓	✓	✓	✓	✓		

This supplementary web based resource is about a space within the internet where you can find a variety of science information with which to inform and engage your students from grades 4 to 10. It covers Physical Sciences, the Human Body, Technology, Earth Sciences, Life Sciences, etc. One strength is the quality of the videos and articles imbedded in its multi-media sections. It is not noticeably graded yet it matches grade level clusters and thematic topics within the Science and Social Studies domains. There are other cross-curricular connections with the ELA, Visual Arts and Music domains. Designed by Grolier, it provides teachers with lesson plans and projects as well as collections of resources that students will find interesting on topics such as extreme weather and outer space.

### System Requirements

#### General Requirements:

- T1 Connection or higher at building level (minimum), T3 Connection or higher at building level (recommended); if connecting to the Internet via a school district network, at least a T3 connection or higher at the building level
- Flash Version 9.0 or higher (Macromedia Flash is a free download at [www.adobe.com](http://www.adobe.com))
- Speakers or headsets

#### PC:

- Operating System: Windows 98, 2000, XP
- Processor: Pentium 4 or higher (2.33 GHz)
- Memory: 256 MB of RAM
- Browser: Internet Explorer 6 (& for XP), Firefox 2.x
- Display: 15-inch monitor with the resolution set at 1024 x 768 with 16-bit colors or higher selected

**Macintosh:**

- Operating System: OS X 10.3 or higher
- Processor: PowerPC G5 1.8 GHz or faster processor or Intel Core Duo 1.33 GHz or faster processor
- Memory: 256 MB of RAM
- Browser: Safari 2.x or higher, Firefox 2.x
- Display: 15-inch monitor with the resolution set at 1024 x 768 with “thousands of colors” selected

**Remote Access:**

- DSL, cable modem or higher connection
- All other requirements are the same for remote access

\*\*Please note that Expert Space anchor and Skill Builder videos cannot be downloaded so if users cannot stream video, they will not be able to use this portion of Expert Space.

\*\*Video performance will vary based on factors like connection speed, number of concurrent users, and other network traffic.

Science		✓	✓	✓	✓								

**Hands-On Science 1: An Inquiry Approach**

**Author(s):** Carly Cassell

**Audience:** Teacher

**Year:** 2015

**Pagination:** 361 p.

**ISBN:** 978-1-55379-309-0

**Format:** Print

**Publisher:** Portage & Main Press

**Date Recommended:** November 19, 2015

Hands-On Science 1 is a single volume teacher resource that incorporates knowledge based outcomes from all four Manitoba Curricular clusters, as well as skills and attitudes from cluster zero. The grade 1 book is divided into four units: Characteristics and Needs of Living Things, The Senses, Characteristics of Objects and Materials, and Daily and Seasonal Changes.

This resource is comprised of 48 inquiry based lessons and activities to facilitate students' critical thinking and reflection. A suggested list of materials for each lesson is provided along with black line masters for student activities and assessment processes including sample rubrics. The learning centre activities focus on multiple intelligences that provide opportunity for differentiated instruction.

---

## Hands-On Science 2: An Inquiry Approach

<b>Author(s):</b>	Susan Atcheson	<b>Audience:</b>	Teacher
<b>Year:</b>	2015		
<b>Pagination:</b>	423 p.		
<b>ISBN:</b>	978-1-55379-310-6		
<b>Format:</b>	Print		
<b>Publisher:</b>	Portage & Main Press	<b>Date Recommended:</b>	November 19, 2015

Hands-On Science 2 is a single volume teacher resource that incorporates knowledge based outcomes from all four Manitoba Curricular clusters, as well as skills and attitudes from cluster zero. The grade 2 book is divided into four units: Growth and Changes in Animals; Properties of Solids, Liquids, and Gases; Position and Motion; Air and Water in the Environment.

This resource is comprised of 51 inquiry based lessons and activities to facilitate students' critical thinking and reflection. A suggested list of materials for each lesson is provided along with black line masters for student activities and assessment processes including sample rubrics. The learning centre activities focus on multiple intelligences that provide opportunity for differentiated instruction.

---

## Hands-On Science 3: An Inquiry Approach

<b>Author(s):</b>	Trish Goosen	<b>Audience:</b>	Teacher
<b>Year:</b>	2015		
<b>Pagination:</b>	361 p.		
<b>ISBN:</b>	978-1-55379-311-3		
<b>Format:</b>	Print		
<b>Publisher:</b>	Portage & Main Press	<b>Date Recommended:</b>	March 02, 2016

Hands-On Science 3 is a single volume teacher resource that incorporates

knowledge based outcomes from all four Manitoba Curricular clusters, as well as skills and attitudes from cluster zero. The grade 3 book is divided into four units: Growth and Changes in Plants; Materials and Structures, Forces That Attract or Repel; Soils in the Environment.

This resource is comprised of 46 inquiry based lessons and activities to facilitate students' critical thinking and reflection. Teacher information and explorations for students consider cultural diversity and Indigenous perspectives and incorporate issues of sustainability and current technology. A suggested list of materials for each lesson is provided along with black line masters for student activities and assessment processes including sample rubrics. Each unit culminates in a design or inquiry project. The hands on learning centre activities focus on multiple intelligences that provide opportunity for differentiated instruction. Additional websites, videos, books and resources are suggested for each unit.

---

## Hands-On Science 4: An Inquiry Approach

**Author(s):** Jennifer Lawson                      **Audience:** Teacher, Student  
**Year:** 2016  
**Pagination:** 360 p.  
**ISBN:** 978-1-55379-312-0  
**Format:** Print

**Publisher:** Portage & Main Press              **Date Recommended:** November 30, 2016

*Hands-on Science: An Inquiry Approach (Level Four)* is part of a series that provides support for teaching science in a manner that promotes active learning and experimentation. This user-friendly resource has a strong match with specific learning outcomes from the four thematic clusters in Grade 4. Each topic is well organized and includes science background information for teachers, as well as materials lists, suggested learning experiences, activity sheets, extensions, and assessment tools for both teacher and student use. In this new 2016 edition, Manitoba's specific student learning outcomes for science are cross-referenced.

### Cautions and Considerations:

The content needs to be supplemented to achieve the depth of coverage required for some topics.

## National Geographic Science

**Publisher :** National Geographic School Publishing

### Subject/Grade

	K	1	2	3	4	5	6	7	8	9	10	11	12
Science		✓	✓										

### National Geographic Science: Life Science: Grades 1-2: Living Things Classroom Set with Science Inquiry Kit

<b>Year:</b>	2011	<b>Audience:</b>	Student, Teacher
<b>ISBN:</b>	978-07362-86497	<b>Suggested Use(s):</b>	Visual Arts, English Language Arts
<b>Format:</b>	Kit		
<b>Publisher:</b>	National Geographic School Publishing	<b>Date Recommended:</b>	June 11, 2012
<b>Distributor:</b>	National Geographic		

As with other National Geographic resources in the Inquiry-Content-Literacy Series, *Living Things* contains several leveled reader books that work students through various activities to explore, think and write about living things. This resource does a particularly good job of dealing with the requirements for life and differentiating between living and non-living things. It addresses most of the outcomes in Grade 1, Cluster 1. While there is considerable diversity depicted throughout all the material, there is no Canadian or First Nations content.

Teacher guides, black line masters, assessment masters and over-sized “big books” for teachers to read along in front of class are all included. Also included is *Exam View* software which allows teachers to create assessment materials for all the content covered, primarily in the form of tests. All the support materials and the student books are contained in a large, cardboard container.

---

### National Geographic Science: Physical Science: Grades 1-2: Solids, Liquids, and Gases Classroom Set

<b>Year:</b>	2011	<b>Audience:</b>	Student, Teacher
<b>ISBN:</b>	978-0-7362-65881	<b>Suggested Use(s):</b>	Mathematics, English Language Arts
<b>Format:</b>	Kit		
<b>Publisher:</b>	National Geographic School Publishing	<b>Date Recommended:</b>	April 13, 2012
<b>Distributor:</b>	National Geographic		

This National Geographic kit of materials can be used as a depth resource for cluster two of the grade two curriculum, Properties of Solids, Liquids and Gases. There are Big Books, Big Ideas and Vocabulary Cards, accompanying Student Books, and a Teacher’s Edition. Big Book and Student book titles include “What mixes with Water”, “Ranger For a Day”, “Beaches”, “Shell Shapes”, “Solids, Liquids, Gases in Cities”, “Solids, Liquids, Gases at Campsites”. The books possess captivating visuals and guide the students through the inquiry and design process. Cross curricular connections include ELA, Math, and the Environment. Take note that the Assessment and Learning Master portions are not recommended.

	<b>K</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>	<b>6</b>	<b>7</b>	<b>8</b>	<b>9</b>	<b>10</b>	<b>11</b>	<b>12</b>
Science		✓											

The Pearson Science 1 Teacher Resource aligns well with current Manitoba Grade 1 Science across these four content area clusters: Characteristics and Needs of Living Things, The Senses, Characteristics of Objects and Materials, and Daily and Seasonal Changes. This resource is based on the Saskatchewan Edition.

When it comes to differentiating between the “living” and the “non-living” world, the Euro-Canadian view stands as differing to the views expressed by our Elders and Knowledge Keepers. It is recommended that teachers approach this from the standpoint of a growing understanding of their own cultural proficiency, and seek to find common ground between the teaching of science from Euro-centric perspectives and those which fall outside of that tradition.

As with all versions of Pearson Science, the Teachers’ Resource Guide includes a 100-page “Program Overview” as a separate pull-out. This overview features segments on Constructivism in the Science Classroom, Language and Literacy in Science, Assessment and Evaluation background, and an important section on Cultural Perspectives for science teaching and learning which connect to the immediate environment.

Each unit in the Resource Guide opens with a helpful correlation chart between the indicators of achievement and the lessons contained in the guide. A Unit Planning Chart – with suggested time allocations – follows the correlation chart and includes the student activities, line masters, resources, and lists of equipment and materials necessary to complete the suggested activities. For the busy teacher, or one who is not entirely comfortable as a teacher of science, there is an abundance of guidance available in each of the units.

The student activities involve the use of children’s science literature, which is provided as a series of small lapbooks/picture books for student use together with matching large-format, large-print books for teacher-led group readings and discussions. These books are either fictional or fact-based and have complementary posters which can be placed in the classroom. David Booth is acknowledged as the literacy consultant and Bill Brooks is credited as the science consultant for the lapbooks. Traditional Knowledge derived from First Nations’, Metis, and Inuit (FNMI) are explicitly included in the posters, but not so in the lapbooks and large format offerings. The lapbook titles include: Living Things, Days and Seasons, On the Trail, Objects Everywhere, Moko’s Adventures on Earth, A-Maze!, Groundhog Day, and Exploring with our Senses.

For the classroom having Smart™ technology, a suite of “Interactive Whiteboard Lessons” are included on CD which can also be used with Smart Notebook™ software which is available online in a 90-day trial version or for purchase.

### Pearson Science 3 (Student Edition)

<b>Author(s):</b>	Linda Aspen-Baxter, Annette Brockman, Connie Molnar, Kelsey Shields, David O'Soup, Calvin Racette, Ted View	<b>Audience:</b>	Student
		<b>Suggested Use(s):</b>	Visual Arts, Mathematics, English Language Arts
<b>Edition:</b>	Manitoba Edition		
<b>Year:</b>	2012		
<b>Pagination:</b>	205 p.		
<b>ISBN:</b>	978-0-13-312605-1		
<b>Format:</b>	Print		
<b>Publisher:</b>	Pearson Canada	<b>Date Recommended:</b>	April 13, 2012
<b>Distributor:</b>	Pearson Canada Inc.		

This resource has a strong focus on cluster zero of the Manitoba Curriculum, overall skills and attitudes of the learner. The design and inquiry processes employed are inclusive of diverse learners, with a focus on aboriginal perspectives. It details multiple learning activities that address differentiated teaching strategies. It should be noted that examples and visuals within the texts reference Saskatchewan experiences.

### Pearson Science 3: Teacher's Resource (Includes CD-ROM)

<b>Author(s):</b>	Linda Aspen-Baxter, Annette Brockman, Connie Molnar, Kelsey Shields, Ted View	<b>Audience:</b>	Teacher
		<b>Suggested Use(s):</b>	Visual Arts, Mathematics, English Language Arts
<b>Edition:</b>	Manitoba Edition		
<b>Year:</b>	2012

Family Studies				✓	✓	✓	✓						
Visual Arts				✓	✓	✓	✓						

Teachers can use this engaging on-line interactive supplemental resource with students from grades 3-6. Not to be confused with the text of the same name, it can be used for whole class viewing or students can explore the visually rich content as they would for World Book online. Video's, interviews, experiments and other content related to all of the science clusters can be selected and read at different reading abilities. Assessment strategies are U.S. based and not recommended. Lesson plans are available on line for teachers.

### **Minimum System Requirements:**

Windows XP or Mac 10.4; Processor Speed: 26 GH; Memory 2 MG; Internet Explorer, Firefox 4x, Safari 5.x
