

MANITOBA SCHOOL LEADERSHIP FRAMEWORK CONNECTIONS TO PROVINCIAL POLICY AND GUIDELINES

As school leaders, it is important to be informed regarding the latest policies and resources that impact schools. This comprehensive document compiles key department policies, guidelines, and program requirements for schools in Manitoba. The resources linked within the document have been organized according to the five focus areas of the *Manitoba School Leadership Framework*, to facilitate access. This organizational structure is not intended to silo the documents. The resources are often applicable to more than one focus area, and, in some cases, the resource is referenced in multiple focus areas.

At the local level, school divisions have created policies, procedures, and support documents that align with provincial policy and guidelines, while taking into consideration local context. Whether you are a principal, vice-principal, or other school leader, making sure you are informed about these resources—along with locally developed policies, procedures, and support documents—will assist you in making informed decisions and creating safe, caring, and positive learning environment for all students.

Leading a Vision for Continuous Improvement The school leader is responsible for the process of co-creating a vision, strategies, and goals for high-quality education, taking into consideration local, divisional, and provincial priorities. This co-created vision is shared and reflects the commitment to all students reaching their full potential and cultivating a strong sense of well-being and belonging. Leading the Organization The school leader strategically manages the organization, its operations, and resources to support positive school and student outcomes. Leaders develop strong political astuteness that includes the legal, socio-economic, and societal contexts of education in Manitoba. They ensure the equitable allocation of resources, strategically manage personnel, and are stewards of quality public education.
