

**Module 2:
Interacting with
Community and
Diversity**

**M2.1:
Adapting and Interacting**

Students explore the interactions among plants, animals, and people. They examine the concept of plant and animal adaptations. Students also conduct interviews to investigate environmental stewardship and sustainability within their homes, school, and community.

**M2.2:
Diverse Cultures**

Students experience the cultural diversity of Manitoba using the Jigsaw strategy to investigate cultural communities found in the province. They reflect on how their personal identity is influenced by their cultural community. Students continue to study current practices in stewardship and sustainability.
