

### BLM Mod.3.5#1: Changing One Form of Energy to Another

Name \_\_\_\_\_ Date \_\_\_\_\_

| Electrical Device          | Changes Electrical Energy into: |
|----------------------------|---------------------------------|
| <i>Example:</i><br>• radio | • sound                         |
|                            |                                 |
|                            |                                 |
|                            |                                 |
|                            |                                 |
|                            |                                 |
|                            |                                 |
|                            |                                 |
|                            |                                 |
|                            |                                 |
|                            |                                 |
|                            |                                 |
|                            |                                 |

**Changing One Form of Energy to Another:** Adapted from *Grades 5 to 8 Science: A Foundation for Implementation* (Manitoba Education and Training 6.100).
