

# Introduction / Overview of the Supplement to the Estimates of Expenditure

The Supplement to the Estimates of Expenditure (Supplement) provides additional information to the members of the Legislative Assembly and the public in their review of the department information contained in the Summary Budget and the departmental Estimates of Expenditure for the fiscal year ending March 31, 2025.

The Supplement represents the departmental annual planning document and encapsulates the collective vision, values and strategic objectives based on the Premier's mandate letter to guide the development of departmental operational plans. The document also presents financial details that align with the Summary Budget for the department and its other reporting entities.

Departmental information aligns with the Estimates of Expenditure and details the annual appropriations of the department to be approved by the Legislative Assembly through the Appropriation Act. The financial information is meant to supplement, not replicate, the detail included in the Estimates of Expenditure. Please refer to the Estimates of Expenditure for commitment-level detail by sub-appropriation. This Supplement also contains departmental staffing and full-time equivalent (FTE) details that are not part of the Summary Budget or the Estimates of Expenditure.

The Supplement aligns the departments' work to the government's mandate and strategic priorities. Departments then create operating plans that further translate strategy into day-to-day operations. The results are shared at the end of the fiscal year in the annual report, which will be released in September 2025.

The Government of Manitoba has established a performance measurement framework (consisting of the Supplement and Annual Reports) for planning and analysis to support monitoring the results and operational improvement. The framework aims to increase transparency, accountability, and alignment of staff to identify key priorities and work toward achieving them. Department Supplements, Annual Reports, performance results and supporting management information are integral to the government's fiscal and strategic plan, and financial and performance reporting cycle.

The Supplement was revised this fiscal year to reflect government's strategic priorities and department mandate. Performance measures have been updated to align with the departments' mandate letters. Employee related measures are now tracked centrally.
